टिप्पणी / NOTE

दिनांक / Date: 02.01.2025

विषय / Sub: Approval for inviting limited tender – Request for approval reg.

Ref: P.R.No:32122- Providing bituminous pavement inside factory premises.

The existing concrete road between REP-I & II, Acid preparation area are damaged severely which is beyond repair, we have to carry out bituminous overlay above concrete pavement before Parliamentary committee visit scheduled on 20th January 2025. The tender document contains BOQ, technical specification to execute the work is attached.

Since this type of work is not in regular nature, we do not have the registered vendors. We already carryout similar nature of work in 2023 by public tender & two bidders namely M/s.T.C.Kunjumon, M/s.P.A.Sivan has participated. M/s.M.M Kunjumammed who had completed construction of RCC trenches in disposal yard also having experience in road work & having KPWD licences contractor.

Since the value of work below Rs.10Lakh and In view of urgency to execute the work, we may invite limited tender's prospective bidders as mentioned above who are capable to execute the work by single cover system with 3 days time. Inviting tender by CPP portal need minimum 7 days to quote, clarification may need to meet PQ criteria, convene TBEC is time consuming.

Hence, it is requested CGM & Head (RED) may ^{please} accord approval to invite limited tender form prospective bidders with single cover system by 3 days time to quote.
