DISCLAIMER

The information contained in this tender document (the "TENDER") or subsequently provided to Bidder(s), whether verbally or in documentary or any other form, by or on behalf of IREL or any of its employees, is provided to Bidder(s) on the terms and conditions set out in this TENDER and such other terms and conditions subject to which such information is provided. The information provided is only for the information and reference of the Bidders.

This TENDER is not an agreement and is neither an offer by IREL to the prospective Bidder(s) or any other person. The purpose of this TENDER is to provide interested parties with information that may be useful to them in the formulation of their bid for participation in this TENDER. This TENDER includes statements, which reflect various assumptions and assessments arrived at by IREL in relation to the tender work. Such assumptions, assessments and statements do not purport to contain all the information that each Bidder may require. This TENDER may not be appropriate for all persons, and it is not possible for IREL, or its employees to consider the investment objectives, financial situation and particular needs of each party who reads or uses this TENDER. The assumptions, assessments, statements and information contained in this TENDER may not be complete, accurate, adequate or correct. Each Bidder should therefore, conduct its own investigations and analysis and should check the accuracy, adequacy, correctness, reliability and completeness of the assumptions, assessments, statements and information contained in this TENDER and obtain independent advice from appropriate sources.

Information provided in this TENDER to the Bidder(s) is on a wide range of matters, some of which may depend upon interpretation of law. The information given is not intended to be an exhaustive account of statutory requirements and should not be regarded as a complete or authoritative statement of law. IREL accepts no responsibility for the accuracy or otherwise for any interpretation or opinion on law expressed herein.

IREL, its employees and consultant make no representation or warranty and shall have no liability to any person, including any Bidder, under any law, statute, rules or regulations, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which may arise from or be incurred or suffered on account of anything contained in this TENDER or otherwise, including the accuracy, adequacy, correctness, completeness or reliability of the TENDER and any assessment, assumption, statement or information contained therein or deemed to form part of this TENDER or arising in any way with qualification of Bidders for participation in the Bidding Process. IREL also accepts no liability of any nature whether resulting from negligence or otherwise howsoever caused arising from reliance of any Bidder upon the statements contained in this TENDER. IREL may, in its absolute discretion but without being under any obligation to do so, update, amend or supplement the information, assessment or assumptions contained in this TENDER.

The issue of this TENDER does not imply that IREL is bound to select and short-list qualified Bids for Price Bid stage or to appoint the Selected Bidder for the intended work, and IREL reserves the right to reject all or any of the Bids without assigning any reasons whatsoever.

The Bidder shall bear all its costs associated with or relating to the preparation and submission of its Bid including but not limited to preparation, copying, postage, delivery fees, expenses associated with any demonstrations or presentations which may be required by IREL or any other costs incurred in connection with or relating to its Bid. All such costs and expenses will remain with the Bidder and IREL shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by a Bidder in preparation or submission of the Bid, regardless of the conduct or outcome of the Bidding Process.

GENERAL INSTRUCTIONS TO BIDDERS

I. GENERAL

- 1) Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- 2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- 3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR / DWF/JPG formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.

II. PREPARATION AND SUBMISSION OF BIDS

- 1) The tender bids duly filled in all aspects and uploaded at CPP Portal on or before the scheduled time and date as mentioned in the tender enquiry will be considered for evaluation.
- 2) Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e., on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- 3) The Bids shall be prepared in two parts viz. PQ cum Technical Bid (Part-I) and Price Bid (Part-II). The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- 4) Technical Bid will be opened at the first instance and evaluated by IREL's concerned authority. In the second stage, financial bids of only the technically eligible offers will be opened for further evaluation and ranking before awarding the contract.

PQ cum Techno-commercial bid (Part -I)

It contains documents in support of eligibility criteria, self-attested tender document and any other document specifically specified in this tender document.

Part -II shall contain Price Bid (to be submitted electronically).

This part shall contain only Schedule of prices duly filled in as per the Bid Proposal Schedules. No physical submission of hard copy is permitted.

5) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

III. METHOD OF SELECTION:

Part-I of the bid will be evaluated and bidders meeting the PQ criteria and other tender conditions will be qualified as eligible bidders for opening of the price bids. The price bids opened subsequently will be scrutinized for responsiveness and IREL shall consider placement of order on the qualified bidder, whose offer shall be overall lowest. However, IREL reserves the right to accept or reject all or any tender without assigning any reasons and does not bind itself to accept the lowest offer.

Note: To assist in the examination of documents submitted by the bidder in support of eligibility criteria (PQ), IREL may, at its discretion, ask the Bidder for clarification of its bid. The request for clarification and the response shall be in writing and no change in the price or substance of the bid shall be sought, offered or permitted.

IV SPECIAL TERMS AND CONDITIONS

1.0 <u>SITE VISIT</u>:

Prior to quoting rates, the bidders are advised to visit the site on any working days at our specified visiting hours with the permission of Engineer concerned / Purchase Dept. The bidders are also advised to study the labour supply/availability, trade union practices and labour rates prevailing at Udyogamandal.

2.0 EFFECT AND VALIDITY OF BID:

- (i) The submission of any bid connected with these documents and specifications shall constitute an agreement that the bidder shall have no cause of action or claim against IREL for rejection of his bid.
- (ii) The bid shall be valid for a period of 90 days from bid due date.

3.0 RIGHT TO REJECT THE TENDER:

- 3.1 IREL reserves the right to reject any tenders whatsoever without assigning any reason thereof.
- 3.2 IREL reserves the right to modify/ add/ reduce the scope, either in whole or in part any of the clauses mentioned herein without assigning any reason thereof.
- 3.3 Further IREL, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time to;
- a. suspend and/ or cancel the Bidding Process and/ or amend and/ or supplement the Bidding Process or modify the dates or other terms and conditions relating thereto;
- b. consult with any Bidder in order to receive clarification or further information;
- c. pre-qualify or not to pre-qualify any Bidder and/ or to consult with any Bidder in order to receive clarification or further information;
- d. retain any information and/ or evidence submitted to IREL by, on behalf of, and/ or in relation to any Bidder; and/ or
- e. independently verify, disqualify, reject and/ or accept any and all submissions or other information and/ or evidence submitted by or on behalf of any Bidder

It shall be deemed that by submitting the Bid, the Bidder agrees and releases IREL, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/ or performance of any obligations hereunder and the Bidding Documents, pursuant hereto, and/ or in connection with the Bidding Process, to the fullest extent permitted by applicable law, and waives any and all rights and/ or claims it may have in this respect, whether actual or contingent, whether present or in future.

4.0. PRICES:

Tenders offering firm prices are only acceptable to us. Firm Price shall be quoted as per the price schedule for delivery at designated works. GST as applicable is to be considered as per the Price Schedule of the tender document.

5.0 TENDER RATES:

- a) The rates quoted in the price schedule shall be in Indian rupees only. The quoted rates shall be firm throughout the period of Contract including extension of time, if any.
- b) If the bidder submits abnormally low bid in combination with other elements of the bid which raises material concern as to the capability of the bidder to perform the contract at the offered price, the bidder shall be asked to provide detailed price analysis of the bid in relation to the scope, schedule allocation of risk and responsibilities and any other requirements of the bid documents. If the bidder fails to demonstrate its capability to deliver the contract at the offered price the price bid shall be considered unresponsive.

c) Organization is the final authority to judge the tender called items and has every power - to accept or reject the same without assigning any reasons

6.0 PURCHASE PREFERENCE FOR MICRO & SMALL ENTERPRISES (MSE's)

6.1 Benefits, as prescribed by the MSME Policy of the Government of India shall be provided to MSE vendors registered as manufacturers for the goods procured or for the service providers. The procuring Entity reserves its option to give price preference to Micro and Small Industries in comparison to the large-scale industries as per policies of the Government from time to time.

6.2 RXIL (TReDS) PLATFORM

IREL is registered with RXIL (TReDS) platform. MSE bidders are requested to get registered with RXIL (TReDS) platform to avail the facility as per the GOI guidelines.

IREL (India) Limited is onboard with TReDS platform of M/s RXIL for facilitating Bill Discounting for MSME's.

As per DPE/7(4)/2007-Fin dt 21/08/2020, it is mandatory to get all the MSME vendors registered on the platform.

Vendors can get themselves registered at: https://onboarding.rxil.in/customerapp/home.

The registration fees of MSMEs on TReDS Platform is Free of Cost as per the new guidelines provided by SIDBI.

For any registration queries, vendors may please contact,

7.0 MAKE IN INDIA

For this procurement, Public Procurement (Preference to Make in India). Order 2017 dated 15.06.2017, 28.05.2018 & 29.05.2019 and subsequent Orders issued by the respective Nodal Ministry shall be applicable. The bidder to provide certificate for minimum 50% and 20% local content required for qualifying Class 1 Local Supplier. The bidder to provide needful certificate as a proof.

8.0 RESTRICTION ON PROCUREMENT FROM A BIDDER OF A COUNTRY WHICH SHARES A LAND BORDER WITH INDIA (AS PER GOI GUIDELINES AMENDED FROM TIME TO TIME)

The bidder to provide needful certificate.

9.0 IREL reserves the right to increase or decrease the quantity to be ordered up to 25 percent of bid quantity at the time of placement of contract. IREL also reserves the right to increase the ordered quantity by up to 25% of the contracted quantity during the currency of the contract at contracted rates. Bidders are bound to accept the orders accordingly.

10.0 EARNEST MONEY DEPOSIT (EMD)/ BID SECURITY

- 10.1 Earnest Money Deposit (EMD) is a deposit received from the tenderers in token of their earnestness in submitting their offer to undertake the supplies/works/services/consultancy contracts and conclude a contract if entrusted to them on the basis of their tender. The offers received from tenderers without EMD and/or tender cost shall be summarily rejected except where an exemption is provided in the tender.
- 10.2 EMD is to be remitted by way of 'Insurance Surety Bonds' or 'account payee demand draft' or 'fixed deposit receipt' or 'bankers cheque' or 'Bank Guarantee from any scheduled commercial Banks' or "online payment' in
- 10.3 favour of IREL. The payment details to be informed to Purchase Department well in advance enabling verification of receipt of the amount.
- 10.4 Government Body/Public Sector Undertakings may be exempted from payment of EMD with the approval of Competent Authority.
- 10.4 EMD amount in rupee value is to be mentioned as a fixed amount in the tender and not as a percentage of the estimated cost and no interest is payable on the EMD.
- 10.5 EMD shall be exempted to MSEs and Start-ups as per prevailing guidelines in this regard. Policy is meant for procurement of only goods produced and services rendered by MSEs. However, traders/distributors/ sole agent/ Works Contract are excluded from the purview of Public Procurement Policy for MSEs Order, 2012.
- 10.6 EMD is liable to be forfeited if:
- a. The tenderer changes the terms and conditions or prices or withdraw his quotation subsequent to the date of opening/ The tenderer impairs or derogates from the tender in any respect within the period of validity of the tender
- b. The tenderer fails to accept the order when placed or fails to commence supplies/works/services after accepting the order.
- c. In case bidder submits false/fabricated documents.
- d. d) In case bidder fails to submit SD as stipulated in the tender.
- 10.7 EMD may be adjusted against security deposit / performance security of the successful bidder. EMD of the unsuccessful bidders shall be returned to them at the earliest after expiry of the final bid validity period and latest by the 30th day after the award of the contract. Bid security shall be refunded to the successful bidder on receipt of performance security. However, in case of two stage bidding/ 2or 3 envelope bidding, EMD of unsuccessful bidders during first stage i.e. technical evaluation etc. shall be returned within 30 days of declaration of result of first stage i.e. technical evaluation etc.
- 10.8 In case where the EMD is provided in form of BG in the prescribed format to be attached with the tender, the BG shall be obtained from a scheduled commercial Bank with validity of 45 days beyond final bid validity period.

11.0 <u>SECURITY DEPOSIT (PERFORMANCE SECURITY) OR PERFORMANCE BANK GUARANTEE:</u>

- 11.1 Security deposit (SD) shall be uniformly levied @ 5% of contract value (excluding Taxes) towards satisfactory completion of the order/works as under:
- a) For works contract valued more than Rs.2 lakhs. b) For supply & service contract valued more than Rs.5 lakhs.
 - Performance Security is to be furnished by a specified date (generally 14 (fourteen) days after notification of the award) and it should remain valid for a period of 60 (sixty) days beyond the date of

completion of all contractual obligations of the supplier/ contractor, including warranty obligations/ defect liability period (DLP).

In exceptional cases waiver of SD shall be approved by Competent Authority after recording the reasons for such waiver.

- 11.2 Submission of SD/PBG, if called for in the tender can also be paid through Insurance Surety Bonds" or "account payee demand draft" or "fixed deposit receipt from a Scheduled Commercial bank" or "Bank Guarantee issued/ confirmed from any Scheduled Commercial Banks in India" or online payment to be confirmed sharing Unique Transaction Reference (UTR) to the tender inviting authority as called for in tender. In case of GTE tenders, the performance security should be in the same currency as the contract and must conform to Uniform Rules for Demand Guarantees (URDG 758) an international convention regulating international securities. In case of JV, the BG towards performance security shall be provided by all the partners in proportion to their participation in the project. Bank Guarantees towards Bid Security/ Security Deposit/ PBG issued by Nationalized Banks/ Scheduled Commercial Banks (other than Cooperative Banks) only acceptable.
- 11.3 In exceptional cases of work contracts, the approving authority may consider Recovering balance SD (in addition to EMD if it is given not in BG form) amount from 1st running bill of the contractor which shall be specifically mentioned in the tender document itself.
- 11.4 EMD/ Bid Security may be adjusted towards SD. However, if EMD is submitted in the form of Bank Guarantee, fresh Bank Guarantee in the prescribed format or demand draft/ bankers cheque is to be submitted towards SD.
- 11.5 BG format for security deposit is attached in Annexure-XIV.
- 11.6 The SD shall not bear any interest and is liable to be forfeited for unsatisfactory completion or on abandonment of the supply/ work order.

Additional amount of SD due to enhancement in scope of work is also to be betained.

12.0 RETENTION MONEY

- 12.1 Where in a contract, payment is made on progressive billing of work executed, 5% of the bill value shall be retained at the time of making payment towards rectification/defective work made as retention money.
- 12.2 The total SD and retention money together towards performance guarantee shall not exceed 10% of the contract value.

13.0 REFUND OF SD AND RETENTION MONEY

- 13.1 Before releasing SD or retention money in respect of supplies/works, a "No Due Certificate" shall be issued by EIC/OIC duly countersigned by head of the department after ensuring that no amounts are recoverable from the supplier/contractor.
- 13.2 EIC/OIC shall recommend release of SD and retention money after compliance by the contractor towards guarantee/warranty/performance guarantee & other related clauses as stipulated in the purchase/work order and on submission of formal claim by contractor.
- On receipt of "no dues certificate" from EIC/OIC, SD or retention money retained in the form of B.G and / or any form shall be refunded at the earliest, if the contractor is not liable to pay any money to IREL (India) Limited under any other contract.

14.0 FORFEITURE OF SD & RETENTION MONEY

The SD & retention money shall stand forfeited in favor of IREL (India) Limited, without any further notice to the contractor in the following circumstances:

In case of any failure whatsoever on the part of the contractor at any time during performance of his part of the contract including the extended periods of contract, where notice is given and time for rectification allowed.

If the contractor indulges at any time in any subletting/sub -contracting of any portion of the work without approval of IREL (India) Limited.

1						
2						

4 MSE PREFERENCE

a. MICRO & SMALL ENTERPRISES & STARTUP'S

MSE: The MSE's registered with National Small Industries Corporation (NSIC) are eligible for relaxation of prior experience / prior turnover criteria subject to meeting of quality and technical specification as per Govt. guidelines.

SPECIAL CONDITIONS OF CONTRACT (SCOC)

1.0 SCOPE OF THE WORK

PART - A

The technical details of the work are as follows,

- 1.1 Dismantling of concrete platform inside collection pit, RCC beam, slab etc. using portable electrically operated breaker machine in low vibration mode without damaging & affecting the existing structure or manually including cutting of re-bars using angle grinder/ gas cutter & removing of all debris generated from work site. The waste generated during the work shall be shifted to location shown by EIC, dumping, levelling as directed within a distance of 900m inside factory premises as directed by Engineer-in-charge.
- 1.2 Shifting, filling, laying & levelling of concrete/brick debris / red earth from disposal yard or any other location inside factory premises to work site by engaging suitable JCB & Tippers, compacting in layers using portable vibrator rollers or tamping rammer machine.
- 1.3 It is the responsibility of the contractor to pump out any water in the pit before starting of the work and also temporary covering of the sides from any further water ingress, if required, during the progress of work. The pump including necessary hoses, tarpaulins for covering the sides etc., are to be brought by the contractor.
- 1.4 Providing and laying in position plain cement concrete mix 1:3:6 (1 cement, 3 coarse sand and 6 graded broken stone aggregate 40, 20mm nominal size), finishing smooth to a fair face at all levels, curing etc., complete.
- 1.5 Providing & laying RCC M30 grade Self-compacting concrete (SCC) for base, wall, beam, slab by using minimum cement content 350 kg/m³ (OPC 53 grade) by using 12.5mm downgraded broken stones, ready mix concrete, consolidated, curing, including usage of quality material as approved, cost, conveyance, lead, lift of all materials, labour, necessary scaffolding, working platform etc.,
- 1.6 Providing leak proof form work for all RCC works (Reinforced cement concrete), usage of suitable shuttering plywood of minimum 18mm thick with sufficient strength wooden runners or aluminium sheet, ensuring MS supports strength to withstand the load during pouring of concrete and deshuttering after casting of concrete.
- 1.7 Supply & Laying reinforcement High yield strength deformed bars Fe 500 grade, cutting to required size, bending, straightening & placing in position, binding with 18/20 gauge black annealed /GI tying
 - wire, including lead, lift of reinforcement to work site, laying as per drawing and directed by Engineer-in-charge.
- 1.8 Providing Plastering in CM 1:4, 12 mm thick average in new and existing masonry structure whereve required, mixing & application of mortar, finishing smooth, proper line & level all required for completion of work as directed by EIC.
- 1.9 Fixing of nozzle in the proposed wall including necessary dismantling/ core cutting of wall, filling of gaps, making the wall leak proof etc. complete as directed by Engineer-in-charge.
- 1.10 The entire inside surface of the pit is to be FRP lined with 3 layers of chopped strand matting 450 gram / m² (GSM) (cross linked basis) to top of wall and one layer of surface mat using bisphenol resin and further lining can be done only after the curing (setting) of this coating. Additional layer of chopped strand matting of required GSM may be used, if the total thickness of lining is found to be less than the minimum requirement specified in the Inspection & testing clause given below.
- 1.11 The cleaning/surface preparation shall be done prior to the FRP lining to remove all dust, loose particles etc. The surface preparation must be approved by the engineer-in-charge before the lining work is started. The approval w.r.t surface preparation will be communicated to the contractor/in-charge verbally at the site only

- 1.12 During lining with chopped strand matting, only one layer must be provided at a time and subsequent layers shall be provided only after complete setting/curing of the previous layer. The same procedure shall be followed during the lining of all the four layers and the surface layer. All the joints & corners must be provided with an overlap of minimum 100mm width, one additional layer, at least 600 mm width on all corners vertically & horizontally.
- 1.13 After the completion of each layer, the engineer-in-charge must be informed and sanction obtained for the beginning of the subsequent layer. The sanction to commence the next layer will be communicated to the contractor/in-charge verbally at the site only. No written intimation will be given unless the contractor makes special request for the same.
- 1.14 No pigments or fillers or putty powder shall be used for the lining work and it must be provided in the natural colour of FRP.
- 1.15 The contractor must use only resins and mats supplied/manufactured by our approved list of make/suppliers given in clause 5. They may purchase the same directly from the manufacturer or from the authorized stockists/ local dealers. The contractor shall furnish copies of bills in proof of purchase of resins and mats required for this work. The resin shall be brought only in sealed cans and the contractor shall maintain a register for material entry into company premises duly attested by the Security section of IREL.

PART - B - SLAB

- 1.16 Repairing the corrosion distressed/dilapidated areas in RCC roof slab (Ceiling) inside the pit & any structure inside factory premises directed by EIC up to a level of 10.0m from ground level and other RCC buildings using fibre reinforced mortar, generally as per the following procedure.
- 1.17 Chipping & removing damaged concrete layer, de-bonded concrete, cracked portion, loose concrete etc, in location directed by EIC to a depth of 25mm behind the existing reinforcing bars in RCC roof slab using chisel & hammer / concrete breaker machine in low vibration mode, cutting the perimeter of the damaged area to a minimum depth of 15 mm using appropriate concrete cutter machine, removing rust particles all-round the existing re-bar using wire brushing/scrapping/emery paper & water washing the complete area to be repaired. Final cleaning of the re-bar shall be done using rust cleaner/remover.
- 1.18 After complete removal of rust from the re-bars, apply one coat of anti-corrosive zinc rich primer all-round the existing re-bar/new-rebar. New re-bar shall be added in case the loss of existing re-bar diameter is more than 10% of the original size. Fixing of new re-bars shall be done either using epoxy resin anchoring mortar or giving sufficient lap length depending on the site condition. Wherever area to be repaired is found to be more than one square meter, GI chicken mesh shall be fixed/suitably tied underneath the reinforcement.
- 1.19 Pour micro concrete of M40 grade (minimum) at various locations inside factory premises as directed by EIC to suit the same lines & curves of the original structure using leak-proof shuttering. The pouring of the micro-concrete shall be completed well before the curing time of epoxy bonding compound (as specified by the manufacturer). After removal of shuttering in RCC columns the micro- concreted area shall be covered using jute cloth and water curing to be done as directed. However, for RCC beams the curing shall be done by applying acrylic resin based curing compound.
- 1.20 The entire concrete surface to be repaired shall be saturated with water one hour before proceeding with re-plastering work. The area shall be primed with a slurry brush coat (with fiber mortar) immediately before mortar application to improve bonding.
- 1.21 Preparation of fiber reinforced mortar & application using trowel in the corrosion distressed area of RCC roof slab shall be done as per the manufacturer's recommendation. Curing shall be done by applying acrylic resin based curing compound over the plastered surface. Any site constraints (cable rack, pipe lines & racks etc.,) shall be taken care/rectified/addressed by the contractor during the progress of the work. The repair cost shall include the cost of rectification of such constraints also.

2.0 INSPECTION & TESTING

2.1 As part of the visual inspection, minimum three random points will be selected after completion of the fixing of 3 layer of chopped strand matt lining work from where a segment of 100 X 100 mm

- dimension will be cut for checking the thickness. The thickness of the cut piece measured shall not be less than 3.0mm. If the thicknesses of all the test pieces are found satisfactory, the contractor will be permitted to fix one layer of surface mat/veil over the FRP lining using the same resin. After that a visual inspection will be carried out for any blow holes, de-lamination etc. The contractor will have to rectify any defect/s noticed during the visual inspection.
- 2.2 If the thickness of any of the samples taken from a wall is found to be less than 3.0 mm, the contractor will have to lay an additional layer of glass fiber matting of required thickness over the entire area. After that the same test shall be repeated.
- 2.3 The contractor must repair all the patches, free of cost, to original thickness of FRP lining once the quality of the lining is approved by the Engineer-in-charge. It is the duty of the contractor to arrange necessary tools & workmen for cutting the sample pieces at the instruction of the Engineer-in-charge.
- 2.4 If in the opinion of the Engineer-in-charge the tests are being unduly delayed, he may by notice in writing (through post/registered email of contractor) call upon the contractor to make such tests within ten days from the receipt of the said notice. If the contractor fails to make such tests within the time aforesaid, the Engineer-in-charge may himself proceed to make all tests at the risk and expenses of the contractor.
- 2.5 Cube testing shall be carried out during the progress of the work to ascertain the quality of work. The number of concrete cubes to be tested shall be as per IS: 456. However, in case of ready-mix concrete confirming to IS: 4926, the number of cubes to be tested shall be as per the provisions in the standard. The concrete cubes shall be casted at site as per relevant IS standard and tested at approved laboratories (CUSAT, GCDA or any other NABL accredited lab etc., with prior intimation to/permission of EIC) on 28th day from the day of casting of the cubes. Also BIS certificate has to submit for these test conducted from accredited laboratory. The laboratory test results shall be tabulated and furnished to Engineer in charge (EIC). The EIC will pass the concrete if average strength of the specimens meets the requirement specified in the relevant IS codes. In addition to this, the contractor may provide test certificate from the RMC manufacturer, if instructed. The transportation & testing charges shall be borne by the contractor.
- 2.6 For SCC concrete the field test such as slump flow test should be conducted & laboratory test such as compressive strength test has to be done as per IS 1199 part 6:2018 code & IS 456:2000
- 2.7 If any portion of the works fails to pass the tests, test of the said portion shall, if required by the Engineer-in-Charge or by you, be repeated within a reasonable time on the same terms and conditions and all reasonable expenses for the repetition of the tests shall be borne by you or deducted from the amount due to you. In lieu of repeat cube test, you shall arrange of core testing as per relevant IS standards.
- 2.8 Concrete of each grade shall be liable to be rejected if it is porous or honeycombed, its placing has been been interrupted without providing a proper construction joint, reinforcement has been displaced beyond the tolerances specified or construction tolerance have not been met. However, the hardened concrete may be accepted after carrying out suitable remedial measures to the satisfaction to the Engineer-in-charge.
- 2.9 Curing shall be carried out after the completion of concrete, next day by providing necessary bund to stagnation / pond of water for 14 days minimum.
- 2.10 The work must be carried out generally as per the technical specification and the contractor must be willing to undertake minor changes to suit the site conditions and as per company requirements. The successful contractor must ensure full compliance of the directives of Engineer-in-charge during every stage of work.

3.0 SCOPE OF SUPPLY OF MATERIALS

- 3.1 IRE will provide the following materials / utilities free of cost
 - a) Electricity & Water (at existing point only)
- 3.2 If Electricity and water is included in the list of utilities under free supply by IRE, it will be made available at a single point from where the contractor shall make their own arrangements for using the same, following the safety regulations practiced in IREL.
- 3.3 All other materials, working implements, safety gadgets, labour including consumables etc.,

required, are in the Contractor's scope of supply.

4.0 MATERIALS

- 4.1 Glass Fibre mat: The material of Glass fiber chopped strand mat (CSM) shall be compatible with bisphenol resin & conform to BS3496:1973 and shall have the properties as per relevant IS/BS/ASTM/European standards.
- 4.2 Resin: Bisphenol A resin with suitable percentage of catalyst, accelerator and promoter as specified by the resin manufacturer may be used. The resin systems used must have the minimum properties as per relevant IS/BS/ASTM/EN standard.

5.0 <u>LIST OF MATERIALS OF APPROVED BRAND AND / OR MANUFACTURERS</u>

1	Reinforcement (HYSD) bar & Structural Steel	SAIL/ VIZAG/ TATA/JSW/ ESSAR
2	Cement	ACC, Malabar, Ultra Tech, Ambuja, Birla, Chettinadu, Ramco, Coromondal, Zuari, Dalmia & India Cements (Not applicable for ready-mix concrete).
3	Ready Mix Concrete (SCC)	Ultra Tech/ ACC/ RMC Ready Mix India Pvt Ltd/ Neptune or Equivalent having in- house testing lab facility
4	Resin (for FRP lining)	Naphtha Resins/Golden Resins/ Ecmas Resins/ Mechemo
5	Glass fibre mat / veil (for FRP lining) – Chopped Strand Mat / Surface mat	Binani / Saint Gobain / Owens Corning
6	Micro concrete / Fiber reinforced mortar	BASF/SIKA/FOSROC/ARDEX ENDURA
7	Zinc rich epoxy primer, epoxy based bonding agent, rust remover, acrylic curing compound	BASF/SIKA/FOSROC/ARDEX ENDURA

6.0 <u>LAMINATE STRUCTURE</u>

SL No	Parameter	Requirement
1.	Min. Lining thickness	3 mm
2.	Glass fiber mat (Chopped strand mat)	3 LAYERS OF CSM 450 GSM
3.	Fibre to resin ratio	1:2
4.	Resin	Bisphenol A
5.	Filler	NO FILLER
6.	Pigment	NO PIGMENT
7.	Final resin coat	0.25mm

7.0 PERIOD OF CONTRACT

- 7.1 The work shall be commenced within 10 days of receipt of work order.
- 7.2 This CONTRACT shall remain valid for a period of 4 months from the date of receipt of work order. However, IREL (India) Limited reserves the right to terminate the contract at any time before the expiry of the normal tenure in case service is found to be deficient/ unsatisfactory.
- 7.3 Seven days' time from the date of dispatch/posting of work order/letter by IREL will be considered for the receipt of work order unless proven otherwise by the contractor.

- 7.4 Permitted work timings inside factory premises is from 0800 hrs to 1600 hrs. Any request for extension of time will be entertained only in case of exigencies under the sole discretion of E-I-C.
- 7.5 The successful bidder has to provide temporary roof covering and structural supports during monsoon for continuous work to the maximum possible extend.
- 7.6 Hindrance register & Daily log register showing description of work, number of labours engaged, location of work on each day from date of commencement shall be maintained by the successful bidder. In addition, any delay on the part of IREL in handing over the site or stoppage of work-in-progress for its production/maintenance requirements or site constraints due to running of plant operation affecting the progress of work or any unsafe condition due to heavy rain fall during monsoon etc., will be recorded in hindrance register by contractor on each day. The time of completion will be extended with number of working days affected due to valid reasons observed in Hindrance register after certified by EIC.

8.0 **PAYMENT**

- 8.1 95% of the actual executed contract value (final bill amount) less statutory deductions applicable and part payments, retention money shall be released on completion of the entire work in all respects within 30 days on due certification of Bill by our Engineer-in-Charge.
- 8.2 You shall submit to IREL account bill (also known as 'Running account Bill') showing the quantity of work executed till the date of raising the bill accompanied by detailed and abstract measurements.
- 8.3 Part payment will be made based on the following conditions, No payment will be released below Rs. 3,00,000/-
 - Payment will be released on the basis of actual measurements of work done; such part payment will be 95% of the amount payable to the contractor along with 100% of taxes & duties on certification of Engineer-in-charge.
- 8.4 You shall have to submit the Final bill immediately after completion of work but not later than a maximum period of 40 (forty) days after successful execution of work along with all relevant documents such as certified measurements, material reconciliation statement, statement of materials and scrap returned to stores, labour payment, PF clearance etc. If you fail to submit the final bill within the stipulated period then your claim for payment may not be considered.
- 8.5 The final bill shall be checked by Engineer-In-Charge within 20 days after its receipt and returned to you for corrections, if any are needed. You have to resubmit the bill with corrections within 20 days of its return by Engineer-In-Charge. The resubmitted bill shall be checked and paid within 30 days of its receipt.
- 8.6 TDS will be deducted by IREL (India) Limited from the bills of the contractor as per IT Act'1961 & GST act and rules.
- 8.7 No Mobilization advance or Secured advance will be paid for the work.
- 8.8 No other advance unless and otherwise stated elsewhere in the documents such as General Conditions of Contract, Special Conditions of Contract, etc. shall be payable.
- 8.9 The contractor is responsible and liable to remit all statutory dues, collected/included in the Price Schedule of the contract, to the Statutory Authorities without fail. IREL is not responsible for remittance of such tax collections.
- 8.10 Balance 5% retained from each running account bill plus security deposit if any will be returned after the warranty period or against submission of bank guarantee for the said amount & period.

9.0 **GUARANTEE**

The entire work done by the contractor must be guaranteed against poor quality of materials supplied & workmanship for a period of Twelve months from the date of completion

10.0 SAFETY, SUPERVISION & HOUSE KEEPING

- 10.1 The contractor is fully responsible for carrying out the work in safe manner. Successful contractor hasto carry out the work with utmost care and as per the rules laid down by IRE safety department. Safety permit for working at heights and hazardous areas must be obtained on daily basis prior to starting of the work. Every effort must be taken to see that, as far as possible the normal production work should not get affected due to the work.
- 10.2 Contractor has to ensure that qualified supervisor is provided at the site for ensuring the progress of the work and availability of all safety appliances to the workmen.
- 10.3 Safety belt, face mask/respirator shall be used by the personnel while working inside the plants. The safety belt shall be suitably anchored to the structural members inside/lifeline provided using wire rope.
- 10.4 The work must be carried out under close supervision and without causing any damage / hindrance to the existing structure or equipments and other activities in the surrounding areas.
- 10.5 The work spot shall be cleared of the waste materials / debris on daily basis. On completion of the work, all working implements, scaffoldings, excess materials if any etc., must be removed from site.
- 10.6 Special Work Permit shall be obtained for working at heights and other hazardous areas as specified by Safety department prior to commencement of work on each day.
- 10.7 The contractor must provide Personal Protective Equipments like safety shoes, helmet, gloves, goggles etc., for their workmen suitable for the working environment and also as per the advice of Safety-in-charge / Engineer-in-charge.
- 10.8 The scaffolding used for height work shall be of Mild Steel tubular type with base plate, necessary bracings and working platform must be provided using MS Shuttering sheet/ wooden planks with hand rails. Materials used must be of good quality and strength.
- 10.9 Safety net shall be provided by the contractor for the repair works of roof structural and such repair works at height. If the same is not provided by the contractor, safety net can be used from IREL for which an amount of Rs. 1000/- will be deducted from the bill as a penalty for not following safety requirements for each day of issue of safety net by IREL.
- 10.10 The contractor shall engage supervisory person at site having degree (B Tech /BE in Civil Engineering) OR Diploma in Civil Engineering with minimum 1 year post qualification experience in civil construction or maintenance works. Noncompliance of the same shall attract a penalty of Rs. 3000/- per day from the date of commencement of work.

11.0 ENGINEER-IN-CHARGE

Shri. K.Sankaralingam, Manager (Technical) - Civil will be the Engineer-in-charge for the work.

12.0 VARIATION IN QUANTITIES

Quantities stated under each item in the Specification or Bill of Quantities/Price Schedule is approximate only. The contractor must be willing to accept any variation in quantities and the unit rate quoted shall remain unchanged. The company reserves the right to cancel any part of the work if the same is not required to fulfill the objectives of the specific work contract.

13.0 SITE INSPECTION

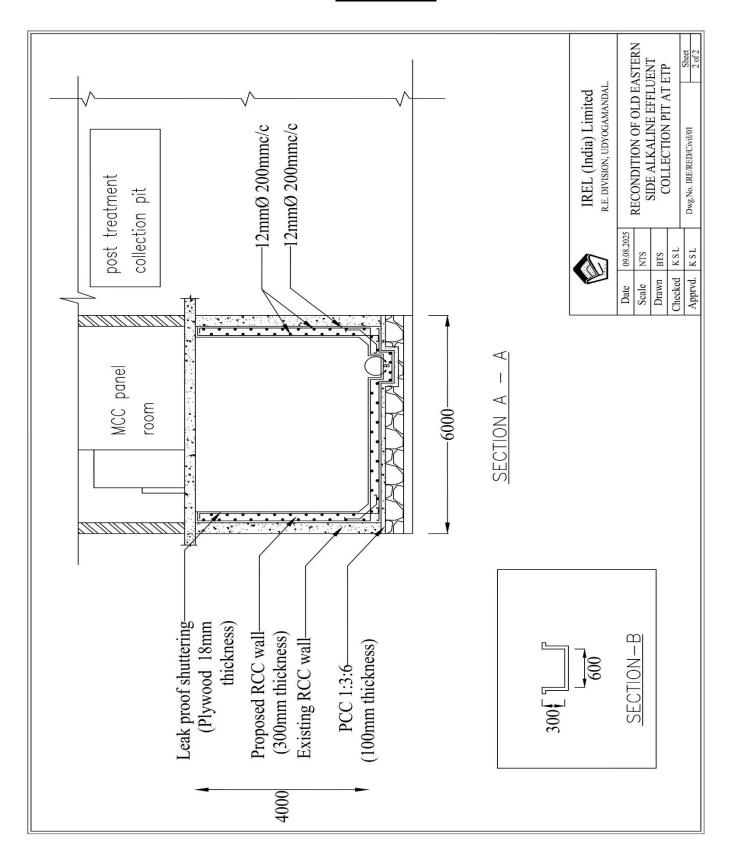

- 13.1 The bidders are advised to inspect the site before submitting their quotation.
- 13.2 The bidders may check the existing site conditions, location of work & assess of structural components, site constraints, adjacent plants/structure, and possibility of making working platform for site work and the space available for carrying out the work.
- 13.3 Interested bidders can inspect the site on any working days at our specified visiting hours with the permission of Engineer concerned of Civil Section/Purchase Dept.
- 13.4 The bidders are also advised to study the labour supply / availability, trade union practices and labour rates prevailing in and around the Udyogamandal industrial belt

14.0 PENALTY FOR NON-COMPLIANCE

In order to ensure 100% compliance of safety related regulations and procedures and non-use of PPE, penalty will be imposed on the contractor for not adhering to safety rules & regulations. The contractor must endeavour to avoid penalty by encouraging, motivating and making their employees aware about all the Safety regulations.

Sl. No.	Safety violation	Penalty
1	Non-use of PPE like Helmet/Safety shoes etc.	Rs. 250/-per day/item/person
2	Hot work without proper permit/clearance	Rs. 1000/- per occasion
3	Non-use of ELCB, use of non-standard socket, poor cable joint, laying wire/ cables on roads, electrical job by incompetent person, use of more than 24V power in confined space	Rs. 500/- per item/day
4	Working at height without safety belt, using non- standard scaffolding and not arranging fall protection arrangement	Rs. 500/- per case/day
5	Handling of compressed gas cylinders without trolley, jubilee clips, double gauge regulator & improper storage & handling	Rs. 200/- per item/day
6	Non deployment of safety supervisor/supervisor responsible for safety at work site	Rs. 3000/- per day

DRAWING

Bill of Quantity

SL	Particulars	Quantity	Unit
PART	-A		
1	Dismantling of inside tank floor concrete, beam, slab etc. using portable electrically operated heavy- duty breaker machine, jag hammer, concrete cutter 2 feet dia or manually including cutting of re-bars using grinder/gas cutter without affecting the existing structure & removing of all debris generated. The waste generated during the work shall be shifted to location shown by EIC, dumping, levelling as directed within a distance of 750m inside factory premises. The rate shall include cost of all materials, labour charges, machineries, tools & consumables required for completion of work	4	m³
2	Shifting, filling, Laying & Levelling of concrete/brick debris / red earth from nearby location to proposed work site by engaging suitable JCB & Tippers & compacting in layers by using portable vibrator rollers or tamping rammer machine. The rate shall include cost of vehicles, cost of labours required for compaction/consolidation with watering etc., to carry out the complete work. Measurement will be taken on the basis of compacted layer after filling at site only	10	m³
3	Providing and laying in position plain cement concrete mix 1:3:6 (1 cement, 3 coarse sand and 6 graded broken stone aggregate 40 20mm nominal size) after ramming of existing earth, well compacted, side shuttering, finishing smooth to a fair face at all levels, curing etc., complete. The rate shall include cost of all materials including cement, labour charges, scaffolding, staging, mixing, laying, cleaning, lead & lift of all materials, cost of tools ,machineries etc., to carry out the complete work.	3	m³
4	Providing & laying of Reinforced Cement Concrete RCC M30 grade ready mix concrete SCC (Self-Compacting Concrete) with minimum cement content 350 kg/m³ by using 12.5mm size downgraded broken stones, consolidated, curing, including usage of quality material as approved, cost, conveyance, lead, lift of all materials, labour, necessary scaffolding etc., but excluding cost of formwork and reinforcement work which will be paid separately under relevant item. The rate shall include labour charges & cost of all materials, scaffolding charges, staging, working platform, tools & machineries, etc. for carrying out the complete work.	32	m³
5	Supply & Laying reinforcement High yield strength deformed bars Fe 500 grade, cutting to required size, bending, straightening & placing in position, binding with 18/20 gauge black annealed /GI tying wire, including lead, lift of reinforcement to work site, laying as per drawing and directed by Engineer-in-charge (Weight of steel bar shall be taken as per relevant IS standard).	1.3	ton

	The rates shall include labour charges, cost of reinforcement, scaffolding, binding wire, tools, etc., for carrying out the complete work.		
6	Providing shuttering / formwork with minimum thickness 18mm for walls, slab, using plywood with sufficient wooden runners or MS sheets with enough strength to withstand the load of mechanical vibrator during compaction of concrete. The rates shall include labour charges for fixing and removal of formwork after use, rental charges/ cost of materials,transportation etc., required for the complete work.	110	m²
7	Repair/plastering in CM 1:4, 12 mm thick average for concrete wall, slab, floor after chipping of damage, using good quality M- sand, mixing & application of mortar, finishing smooth, proper line & level all required for completion of work as directed by EIC. The rate shall include labour charges, cost of all materials including cement, M-sand, scaffolding / platform work for carrying out the complete work.	110	m²
8	Providing FRP Lining with three layers or more chopped strand matting of 450 grams/m² (GSM) to required thickness and One layer of surface matting in bisphenol resin after proper surface preparation including application of one coat of resin before laying of first layer of glass fiber mat. The rate shall include labour charges, cost of all materials including scaffolding / platform work for carrying out the complete work	110	m²
9	Labour charges for fixing of nozzle in the wall including necessary dismantling/ core cutting of wall, filling of gaps, making the wall leak proof etc. complete as directed by Engineer-in-charge. The rate shall include labour charges, cost of all materials including scaffolding / platform work for carrying out the complete work	2	No
PART	-B- REPAIR OF RCC BEAM, COLUMNS, & SLAB		
10	Chipping & removing damaged concrete layer, de-bonded concrete, cracked portion, loose concrete etc., to a depth of about 20mm behind the existing corroded/damaged reinforcing bars in existing RCC slab above the tank using chisel & hammer / concrete breaker machine in low vibration mode, cutting the perimeter of the damaged area to a minimum depth of 10mm using appropriate cutter without damaging the existing structures, removing all damaged/loose particles, loose plasters, surface preparation of concrete using wire brush/scrapper and finally using water washing to completely remove dust, debris, unwanted particles etc., complete including disposing the debris at designated locations inside company premises within a distance of 700m. The rate shall include labour charges, cost/hire charges of tools, machineries & other working implements, scaffoldings & working platforms etc., to carry out the complete work.	30	m²

13	required by using pure epoxy resin anchoring mortar (Master flow 935 of BASF or equivalent FOSROC/SIKA/HILTI) with appropriate diameter of drilling of holes required for proper bonding into the concrete etc., complete. 12 mm dia bar - drilling length of 120-140mm	25	Nos
	concrete mix will be permitted only as per manufacturer's recommendation without compromising the strength. The rate shall includes cost of micro-concrete materials, fine aggregates, rust remover, zinc rich primer, epoxy bonding compound, curing compound etc., labour charges for mixing & pouring concrete, cost/hire charges of tools & other working implements, lead & lift of materials, transportation etc., to carry out the complete work. Anchoring of new re-bars in the RCC columns, beams & slab wherever		
12	Supply & Pouring micro concrete of M40 grade (min.) of BASF/FOSROC/SIKA/PIDILITE make, at the locations to be repaired in RCC beams & columns, after completely removing rust particles all-round the existing re-bar in the exposed portion using wire brush / emery paper and rust cleaner/remover (FOSROC/BASF/SIKA make), apply one coat of epoxy zinc rich primer (FOSROC/BASF/SIKA make) all-round the existing re-bar & new-rebar (if added in case the loss of re-bar dia is more than 10% of the original size) and applying one coat of epoxy bonding compound/agent (BASF/FOSROC/SIKA/PIDILITE make) over the concrete surface - for bonding between old concrete to the new substrate including disposing the debris at designated locations inside company premises. Apply acrylic based curing compound over the concrete surface after de-shuttering. Adding of aggregates in the micro-	3	m ³
11	Supply & application (re-plastering) of dual shrinkage compensated fiber reinforced thixotropic repair mortar (of minimum compressive strength 40N/mm2 in 28 days, MASTEREMACO of BASF make or equivalent FOSROC / SIKA make) in RCC slab ceiling to a thickness 30mm to proper lines and levels including removing the rust particles all around the existing re-bar in the exposed portion using wire brush / emery paper and rust cleaner/remover (FOSROC/BASF/SIKA make) and coating one coat of epoxy zinc rich primer (FOSROC/BASF/SIKA make) all-round the existing re-bar & new-rebar (if added in case the loss of re bar dia is more than 10% of the original size). The entire concrete surface to be repaired shall be saturated with water before one hour of proceeding with re-plastering work and primed with a slurry coat immediately before mortar application. The preparation & application of mortar shall be done as per the manufacturer's recommendation. After completion of plastering to same line & level, one coat of acrylic resin based curing compound shall be applied. Wherever area to be repaired is found to be more than one square meter, GI chicken mesh shall be fixed/suitably tied underneath the reinforcement. The rate shall include cost of fiber reinforced mortar, rust remover, zinc rich primer, acrylic resin based curing compound, Chicken mesh etc., labour charges for mixing & application, cost of tools, lead & lift of materials, transportation, scaffoldings & working platforms, anchoring using pure epoxy resin anchoring mortar (Master flow 935 of BASF or equivalent FOSROC/SIKA/HILTI) etc. to carry out the complete work. Supply & Pouring micro concrete of M40 grade (min.) of	30	m²

	The rate shall include cost of epoxy resin anchoring mortar, labour charges, cost/hire charges of tools, machineries & other working implements etc., to carry out the complete work.		
14	Anchoring of new re-bars in the RCC columns, beams & slab wherever required by using pure epoxy resin anchoring mortar (Master flow 935 of BASF or equivalent FOSROC/SIKA/HILTI) with appropriate diameter of drilling of holes required for proper bonding into the concrete etc., complete. 16 mm dia bar - drilling length of 160-180mm The rate shall include cost of epoxy resin anchoring mortar, labour charges, cost/hire charges of tools, machineries & other working implements etc., to carry out the complete work.	25	Nos

Note: -

- 1. Party has to quote the basic rate in Rs. and the GST in % separately as per price schedule attached. If GST in % is not entered/quoted it will be considered as inclusive of GST.
- 1. Overall lowest will be considered as L1

DETAILS TO BE FURNISHED ALONG WITH THE OFFER

SI. No.	Description of work	GST in %	HSN Code
1	Dismantling of inside tank floor concrete, beam, slab etc. using portable electrically operated heavy- duty breaker machine, jag hammer, concrete cutter 2 feet dia or manually including cutting of re-bars using grinder/gas cutter without affecting the existing structure & removing of all debris generated. The waste generated during the work shall be shifted to location shown by EIC, dumping, levelling as directed within a distance of 750m inside factory premises. The rate shall include cost of all materials, labour charges,		
2	machineries, tools & consumables required for completion of work Shifting, filling, Laying & Levelling of concrete/brick debris / red earth from nearby location to proposed work site by engaging suitable JCB & Tippers & compacting in layers by using portable vibrator rollers or tamping rammer machine. The rate shall include cost of vehicles, cost of labours required for compaction/consolidation with watering etc., to carry out the complete work. Measurement will be taken on the basis of compacted layer after filling at site only.		

3	Providing and laying in position plain cement concrete mix 1:3:6 (1 cement, 3 coarse sand and 6 graded broken stone aggregate 40 20mm nominal size) after ramming of existing earth, well compacted, side shuttering, finishing smooth to a fair face at all levels, curing etc., complete. The rate shall include cost of all materials including cement, labour charges, scaffolding, staging, mixing, laying, cleaning, lead & lift of all materials, cost of tools ,machineries etc., to carry out the complete work.	
4	Providing & laying of Reinforced Cement Concrete RCC M30 grade ready mix concrete SCC (Self-Compacting Concrete) with minimum cement content 350 kg/m³ by using 12.5mm size downgraded broken stones, consolidated, curing, including usage of quality material as approved, cost, conveyance, lead, lift of all materials, labour, necessary scaffolding etc., but excluding cost of formwork and reinforcement work which will be paid separately under relevant item. The rate shall include labour charges & cost of all materials, scaffolding charges, staging, working platform, tools & machineries, etc. for carrying out the complete work.	
5	Supply & Laying reinforcement High yield strength deformed bars Fe 500 grade, cutting to required size, bending, straightening & placing in position, binding with 18/20 gauge black annealed /GI tying wire, including lead, lift of reinforcement to work site, laying as per drawing and directed by Engineer-in-charge (Weight of steel bar shall be taken as per relevant IS standard). The rates shall include labour charges, cost of reinforcement, scaffolding, binding wire, tools, etc., for carrying out the complete work.	
6	Providing shuttering / formwork with minimum thickness 18mm for walls, slab, using plywood with sufficient wooden runners or MS sheets with enough strength to withstand the load of mechanical vibrator during compaction of concrete. The rates shall include labour charges for fixing and removal of formwork after use, rental charges/ cost of materials transportation etc., required for the complete work.	
7	Repair/plastering in CM 1:4, 12 mm thick average for concrete wall, slab, floor after chipping of damage, using good quality M-sand, mixing & application of mortar, finishing smooth, proper line & level all required for completion of work as directed by EIC. The rate shall include labour charges, cost of all materials including cement, M-sand, scaffolding / platform work for carrying out the complete work.	

8	Providing FRP Lining with three layers or more chopped strand matting of 450 grams/m² (GSM) to required thickness and One layer of surface matting in bisphenol resin after proper surface preparation including application of one coat of resin before laying of first layer of glass fiber mat. The rate shall include labour charges, cost of all materials including scaffolding/platform work for carrying out the complete work	
9	Labour charges for fixing of nozzle in the wall including necessary dismantling/ core cutting of wall, filling of gaps, making the wall leak proof etc. complete as directed by Engineer-in-charge. The rate shall include labour charges, cost of all materials including scaffolding/platform work for carrying out the complete work	
PART-B	- REPAIR OF RCC BEAM, COLUMNS, & SLAB	
10	Chipping & removing damaged concrete layer, debonded concrete, cracked portion, loose concrete etc., to a depth of about 20mm behind the existing corroded/damaged reinforcing bars in existing RCC slab above the tank using chisel & hammer / concrete breaker machine in low vibration mode, cutting the perimeter of the damaged area to a minimum depth of 10mm using appropriate cutter without damaging the existing structures, removing all damaged/loose particles, loose plasters, surface preparation of concrete using wire brush/scrapper and finally using water washing to completely remove dust, debris, unwanted particles etc., complete including disposing the debris at designated locations inside company premises within a distance of 700m. The rate shall include labour charges, cost/hire charges of tools, machineries & other working implements, scaffoldings & working platforms etc., to carry out the complete work.	
11	Supply & application (re-plastering) of dual shrinkage compensated fiber reinforced thixotropic repair mortar (of minimum compressive strength 40N/mm2 in 28 days, MASTEREMACO of BASF make or equivalent FOSROC / SIKA make) in RCC slab ceiling to a thickness 30mm to proper lines and levels including removing the rust particles all around the existing re-bar in the exposed portion using wire brush / emery paper and rust cleaner/remover (FOSROC/BASF/SIKA make) and coating one coat of epoxy zinc rich primer (FOSROC/BASF/SIKA make) all-round the existing re-bar & new-rebar (if added in case the loss of re bar dia is more than 10% of the original size). The entire concrete surface to be repaired shall be saturated with water before one hour of proceeding with re-plastering work and primed with a slurry coat immediately before mortar application. The preparation & application of mortar shall be done as per the manufacturer's recommendation. After completion of plastering to same line & level, one coat of acrylic resin based curing compound shall be applied. Wherever area to be repaired is found to be more than one square meter, GI chicken mesh shall be fixed/suitably tied underneath the reinforcement. The rate shall include cost of fiber reinforced mortar, rust remover, zinc rich primer, acrylic resin based curing compound, Chicken mesh etc., labour charges for mixing & application, cost of tools, lead & lift of	

	materials, transportation, scaffoldings & working platforms, anchoring using pure epoxy resin anchoring mortar (Master flow 935 of BASF or equivalent FOSROC/SIKA/HILTI) etc. to carry out the complete work.	
12	Supply & Pouring micro concrete of M40 grade (min.) of BASF/FOSROC/SIKA/PIDILITE make, at the locations to be repaired in RCC beams & columns, after completely removing rust particles all-round the existing re-bar in the exposed portion using wire brush / emery paper and rust cleaner/remover (FOSROC/BASF/SIKA make), apply one coat of epoxy zinc rich primer (FOSROC/BASF/SIKA make) all-round the existing re-bar & new-rebar (if added in case the loss of re-bar dia is more than 10% of the original size) and applying one coat of epoxy bonding compound/agent (BASF/FOSROC/SIKA/PIDILITE make) over the concrete surface - for bonding between old concrete to the new substrate including disposing the debris at designated locations inside company premises. Apply acrylic based curing compound over the concrete surface after deshuttering. Adding of aggregates in the micro-concrete mix will be permitted only as per manufacturer's recommendation without compromising the strength. The rate shall includes cost of micro-concrete materials, fine aggregates, rust remover, zinc rich primer, epoxy bonding compound, curing compound etc., labour charges for mixing & pouring concrete, cost/hire charges of tools & other working implements, lead & lift of materials, transportation etc., to carry out the complete work.	
13	Anchoring of new re-bars in the RCC columns, beams & slab wherever required by using pure epoxy resin anchoring mortar (Master flow 935 of BASF or equivalent FOSROC/SIKA/HILTI) with appropriate diameter of drilling of holes required for proper bonding into the concrete etc., complete. 12 mm dia bar - drilling length of 120-140mm The rate shall include cost of epoxy resin anchoring mortar, labour charges, cost/hire charges of tools, machineries & other working implements etc., to carry out the complete work.	
14	Anchoring of new re-bars in the RCC columns, beams & slab wherever required by using pure epoxy resin anchoring mortar (Master flow 935 of BASF or equivalent FOSROC/SIKA/HILTI) with appropriate diameter of drilling of holes required for proper bonding into the concrete etc., complete. 16 mm dia bar - drilling length of 160-180mm The rate shall include cost of epoxy resin anchoring mortar, labour charges, cost/hire charges of tools, machineries & other working implements etc., to carry out the complete work.

Definitions
In the contract (as hereinafter defined), the following 'words' and 'Definitions' expression shall have the meaning hereby assigned to them except where the context otherwise requires:

'Employer' means REL (India) Limited (IREL) having its registered office at Plot No. 1207. Veer Savarkar Marg, Near Siddhi Vinayak Temple, Prabhadevi, Mumbai-400028. The term Employer includes successors, assigns of IREL.

'Contractor' means the person or persons, firm or company whose tender has been accepted by the Employer and includes the Contractor's personal representatives (seesors and permitted assignees.

'Engineer' ense the representative of IREL or the other Engineer appointed from time to time by the Employer and notificative assignment of the purposes of the contract in place of the said representative.

'Engineer's Representative' means any resident engineer or assistant of the Engineer or any other employee or agent appointed from time to time by the Employer or the Engineer for the purposes of the contract in place of the said representative.

'Nors's shall mean and include all works specified or settorth and required in and by the specifications, drawing and schedule hereto annexed or to be implied therefrom or incidental thereto or to be hereafter specified or required in such explanatory instructionsand drawings (being in conformity with the original specification, drawing and schedule) and also such additional instructions and drawings not in conformity as aforesaid as shallfrom time to time to time, during the progress of the work hereby contracted for, be supplied by the Employer.

'Contract' means the privation to the ender, Instructions to Tenderers, General Conditions of Contract, Specifications, Drawings, Tender Schedule showing approximate quantities, quoted rates and amount against each item, Time

Contract was the Invitation to the Indianyst.

Contract means the Invitation to the Invitatio

In the case of Lump sum Contracts, the price payable to the Contractor as mentioned in the Contract for each line item. Price is fixed & firm during the entire duration of contract subject to price reduction clause in case of delay in performance; however, price is subject to price variation clause as per special conditions of contract, if any.

In the case of Item Rate Contracts, Rates by the item rates quoted by the tenderer and accepted by the Company for the various items.

any for the various items.

, completion or maintenance of the Works or, Temporary Works (as hereafter defined) but does not include materials or other things intended to form or Constructional Plant' means all appliances or things of whatsoever nature as required or about the execution, completion or maintenance of the Works or, Temporary Works (as hereafter defined) but does not include materials or other things in forming part of the permanent work or temporary bousing, hutting, offices & Storese et.

Temporary Works' means all emporary works of every kind required in or about the execution, completion or maintenance of the works.

Temporary Works' means all emporary works of every kind required in or about the execution, completion or maintenance of the works.

The works of the works of the proper works of every kind required in or about the execution, completion or maintenance of the works.

The works of th

"Letter of Intent" is an intimation by a letter to tenderer that tender has been accepted in accordance with the provisions contained in that letter.

"Approved" means approved in writing including subsequent written confirmation ofprevious verbal approval and "approval" means approval in writing including aforesaid.

Singular & Plural: Words importing the singular only also include the plural and vice versa where the context requires

Specification: The term "Specification" shall me the specifications issued by the BIS will apply. shall mean schedules, detailed designs, statements of technical data, performance characteristics and all such particulars mentioned as such in the contract. In the absence of any specific specifications issued by the Employer,

ENGINEER-IN-CHARGE:

The Engineer-in-charge shall represent and act on behalf of IREL at all times during the currency of the all notices, instructions, orders, certificates, approvals and all other communications under this Contract shall be given by the Engineer-in-charge, except as herein otherwise provided.

The Engineer-in-charge shall have authority for

General supervision, follow up of supply and direction of the Works
Direction to stop the Works whenever such stoppage may be necessary to ensure theproper execution of the works
To reject all Works and Materials which do not confirm to the contract specifications. The Engineer-in-charge shall have no authority to relieve the CONTRACTOR of any of hisduties or obligations under the contract nor except as expressly provided here-in-uncelsewhere in the Contract toorder any work involving delay or any extra payment by IRELor to make any variation of or in the Works.

ASSIGNMENT AND SUB-LETTING

The Contractor shall not assign the Contract or any part thereof or any benefit or interesttherein or thereunder (other than a charge in favour of the Contractor's Bankers of any money due or to become due under this Contract) without the prior written consent of Employer

The Contractor shall not sub-let the whole or part of the Works except where otherwise provided by the Contract, and even then only with the prior written consent of the Employerand such Consent if given shall not relieve the Contractor from any liability or obligation under the contract and he shall be responsible for the acts, defaults and neglects of any Sub-contractor, his agents, servants or workmen as fully as if they were the acts, defaultsor neglects of the Contractor, his agents, servants or workmen Provided always that the provision of albour on a piecework hossis shall not be deemed to be a sub-letting under this clause.

CONTRACTOR shall supervise and direct the work of all SUB-CONTRACTORS and shallbe responsible for co-coordinating their work. If CONTRACTOR fails to correct, or commence to correct and execute the correction with due diligence of deficient or defective work performed by any SUB-CONTRACTOR with respect thereto. EMPLOYER may (but shall not be obligated to), after receipt by CONTRACTOR of a notice from EMPLOYER with respect thereto. EMPLOYER may (but shall not be obligated to), after sever days following receipt by CONTRACTOR of an additional notice, and without prejudice to any other right or remedy take all reasonable steps to remedy such defectives or deficient work at risk and cost of CONTRACTOR.

CONTRACTOR shall require all SUB-CONTRACTORS to perform in accordance with therelevant requirements of the CONTRACT including FINAL PROPOSAL, all APPLICABLE LAWS and APPLICABLE PERMITS, Prudent Utility Practice, Good Engineering Practices, the requirements of the NIT, and all Warranties of SUB-CONTRACTORS/SUBVENDORS and Manufacturers and all insurance policies relating to the PLANT or the WORK.

CONTRACTOR shall be soledy responsible for paying each SUB-CONTRACTOR and anyother person to whom any amount is due from CONTRACTOR for services, equipment, construction equipment, materials or supplies otherwise related to the PLANT or the WORK.

CONTRACTOR shall take all reasonable steps and actions to ensure that such services, equipment, construction equipment, materials and supplies and the like have been or will be received, inspected and approved and that such services have been or will be

EMPLOYER shall not be deemed by virtue of the CONTRACT to have any contractual obligation to or relationship with any SUB-CONTRACTOR

The Contract comprises the construction, completion and maintenance of the works and except in so far as the contract otherwise provides, the provision of all labour, materials, constructional plant, temporary works and everything whether of a temporary or permanent nature required in and for such construction, completion and maintenance.

ICESAUSIVE INC.

TRANSINUS:

The drawings shall remain in the sole custedy of the Engineer but two copies thereof shall be furnished to the Contractor free of cost. The Contractor shall provide and make at his own expense any further copies required by him. On the completion of the contract, the Contractor shall remain to the Engineer all drawings provided under the contract, the Contractor shall give adequate notice in writing to the Engineer or Engineer's representative, of any further drawings or specifications that may be required for the execution of the works or otherwise under the contract.

ONE COPY OF DRAWINGS TO BE KEPT ON SITE:

One copy of the drawings furnished to the Contractor as aforesaid shall be kept by the Contractor on the site and the same shall at all reasonable time be available for inspection and use by the Engineer and the Engineer's representative and by any other person authorised by the Engineer in writing.

The Engineer shall have full power and authority to supply to the Contractor from time to time during the progress of the works such further drawings and instructions as shall be necessary for the purpose of the proper and adequate ex maintenance of theworks and the Contractor shall carry out and be bound by the same.

The Contractor shall enter into and execute a Contract Agreement in the form annexed hereto within the specified time in Letter of Intent/ Award and in default there of the earnestmoney paid by the Contractor shall be forfeited and acceptance of his Tender shall be considered as withdrawn. The cost of the stamp fee of the agreement is to be borne and paid by the Contractor.

MODIFICATIONS IN CONTRACT:

All modifications leading to changes in the CONTRACT with respect to technical or commercial aspects including terms of completion period shall be considered valid only when amendment to the CONTRACT is issued by the Employ

The modification or amendment of the CONTRACT for an adjustment in the CONTRACT for adjustment in the

IREL shall not be bound by any printed conditions or provisions in the CONTRACTOR's bid forms or acknowledgement of CONTRACT and other documents which support to impose any condition at variance with or supplemental to CONTRACT.

USE OF CONTRACT DOCUMENTS AND INFORMATION:

The CONTRACTOR shall not, without the IREL's prior written consent, disclose the CONTRACT or any provision thereof, or any specification, plan, drawing, pattern, sampleor information furnished by or on behalf of the IREL in con personother than a person employed by the CONTRACTOR in the performance of the CONTRACT. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purpose of su

The CONTRACTOR shall not without the IREL's prior written consent, make use of any document or information enumerated in Clause 7.1 except for purpose of performing the CONTRACT.

Any document other than CONTRACT, itself, enumerated in Clause 7.1 shall remain the property of the IREL and shall be returned (all copies) to the IREL on completion of the CONTRACTOR's performance under the CONTRACT, if so required by the IREL

The CONTRACTOR in fixing his rate shall for all purpose whatsoever reason may be, deemed to have himself independently obtained all necessary information for the purpose of preparing his tender and his tender as accepted shall be deemed to have taken into account all contingencies as may arise due to such information or lack of same. The correctness of the details, given in the Tender Document to help the CONTRACTOR to make up the tender is not guaranteed.

The CONTRACTOR shall be deemed to have examined the CONTRACT DOCUMENTS, to have generally obtained his own information in all matters whatsoever that might affect the carrying out of the works at the schedules rates and to have satisfied himself to the sufficiency of his tender. Any error in description of quantity or omission there from shall not vitiate the CONTRACT or release the CONTRACTOR from executing the work comprised in the CONTRACT according to DRAWINGS and SPECIFICATIONS at the scheduled rates. He is deemed to have known the scope, nature and magnitude of the WORKS and the requirement of materials and labour involved etc., and as to what all works he has to complete in accordance with the CONTRACTOR shall be deemed to have setsified surroundings, to have satisfied himself to the nature of all existing structures, if any, and also as to the anture and the conditions of the Railways, Roads, Bridges and Culverts, means of transport and communication, whether by land, wair, and as to possible interruptions thereto and the access andegrees from the site, to have made enquiries, examined and satisfied himself as to the sites for obtaining sand, stones, bricks and other materials, the sites for disposal of surplusmaterials, the available accommodation as to whatever required, depots and such other buildings as may be necessary for executing and completing the works, to have made local independent enquiries as to the sub-soil, subsoil water and variations thereof, and the requirement of covernment Taxes, Customs duty and other charges, levies etc.

Any neglect or omission or failure on the part of the CONTRACTOR in obtaining necessaryand reliable information upon the foregoing or any other matters affecting the CONTRACTshall not relieve him from any risks or liabilities or the entire responsibility from completion of the works at the scheduled rates and times in strict accordance with the CONTRACT.

It is, therefore, expected that should the CONTRACTOR have any doubt as to the meaning of any portion of the CONTRACT DOCUMENT, he shall set forth the particulars thereof inwriting to IREL in duplicate, before submission of tender. IREL may provide such clarification as may be necessary in writing to CONTRACTOR, such clarifications as provided by IREL shall form part of CONTRACT DOCUMENTS.

No verbal agreement or inference from conversation with any effect or employee of the IREL before, during or after the execution of the CONTRACT AGREEMENT shall in any way affect or modify and of the terms or obligations herein contained. Any change in layoutduetosite conditions or technological requirement shall be binding on the CONTRACTOR and no extra claim on this account shall be entertained.

Location of Site: The proposed location of Project site is defined in the Special Conditions of Contract.

Access by Road: CONTRACTOR, if necessary, shall build other temporary access roadsto the actual site of construction for his own work at his own cost. The CONTRACTOR shall be required to permit the use of the roads so constructed by him for vehicle other parties who may be engaged on the project site. The CONTRACTOR shall also afficilitate the construction of the permanent roads should the construction there of start while he is engaged on this work. He shall make allowance in his tender inconvenience he anticipates on such account. Non-availability of access roads, railway siding and railway wagons for the use of the CONTRACTOR shall in no case condone any delay in the execution of WORK nor be the cause for any claim for comparignment the EMPLOYER.

Sope of Work: The scope of WORK is defined in the Technical Part of the tender document. The CONTRACTOR shall provide all necessary materials, equipment, labour etc. for the execution and maintenance of the WORK till completion unless otherwise mentioned in the Tender Document. Water Supply: Contractor will have to make his own arrangements for supply of water tohis labour camps and for works. All pumping installations, pipe network and distribution system will have to be carried out by the Contractor at his own risk and cost. Alternatively, IERL at his discretion may endeavour to provide water to the Contractor by provided water Contractor at make arrangement for pripe networks from source of supply and such distribution pipe network shall have prior approval of the Engineer-in-Charge so as not to interfere with the layout and progress of the other construction works. In such case, the rate for water shall be deducted from the running account bills (Subjectto rate of deduction

Power Supply: Subject to availability, IREL will supply power at 400/440 V at only one point at the nearest sub-station, from where the CONTRACTOR will make his own arrangement for temporary distribution. The point of supply will not be more than 500 m away from the CONTRACTOR'S premises. All the works will be done as per the applicable regulations and passed by the ENGINEER-IN-CHARGE. The temporary line will be removed forthwith after the completion of work or if there is any hindrance caused to the other works due to the alignment of these lines, the CONTRACTOR will re-route or remove the temporary lines at his own cost. The CONTRACTOR at his cost will also provide suitable electric meters, fuses, switches, the for pumposes of payment to IREL which should be in the custody and control of the IREL. The cost of power supply shall be payable to 1REL every month for Construction Works which would be deducted from the running account bills (subject to rate of eduction specifically mentioned in the tender, if any), IREL shall not, however, guarantee the supply of electricity or have any liability in respect thereof. No claim for compensation for any failure or short supply of electricity willbe admissible.

It shall be the responsibility of the CONTRACTOR to provide and maintain the complete installation on the load side of the supply with due regard to safety requirement at site. Allcabling, equipment, installations etc. shall comply in all respects with the latest statutory requirements and safety provisions, i.e., as per the Central/State Electricity Acts and Rulesete. The CONTRACTOR will resure that his equipment and Electrical Wiring etc., are installed, modified, maintained by a licensed Electrician/Supervision. A test certificate is to be produced to the ENGINEER-IN-CHARGE for his approval, before power is made available.

At all times, IEA regulations shall be followed failing which the IREL has a right to disconnect the power supply without any reference to the CONTRACTOR. No claim shallbe entertained for such disconnection by the ENGINEER-IN-CHARGE. Power supply willbe reconnected only after production of fresh certificate from authorized electrical supervisors.

The IREL is not liable for any loss or damage to the CONTRACTOR's equipment as a result of variation in voltage or frequency or interruption in power supply or other loss to the CONTRACTOR arising therefrom

The total requirement of power shall be indicated by the tenderer along with his tender.

The goods and services supplied under this CONTRACT shall conform to the standards mentioned in the technical specifications and when no applicable standard is mentioned, CONTRACTOR shall follow best engineering practices.

PRIORITY OF CONTRACT DOCUMENTS:

Except if and the extent otherwise provided by the Contract, the provisions of the GeneralConditions of Contract and Special Conditions shall prevail over those of any other documents forming part of the CONTRACT. Several documents forming the CONTRACT are to be taken as mutually explanatory of one another, but in case of ambiguities or discrepancies the same shall be explained and adjusted by the ENGINEER-IN-CHARGEwho shall thereupon issue to the Contractor instructions thereonand insuchevent, unlessotherwise provided in the Contract, the priority of the documents forming the Contract shallbe as follows:

The Contract Agreement;

The Letter of Acceptance;

The Instructions to Bidders(ITB);

Special Conditions of Contract (SCC); General Conditions of Contract (GCC)

Any other document forming part of the Contract

Works shown in the DRAWING but not mentioned in the SPECIFICATIONS or described in the SPECIFICATIONS without being shown in the DRAWINGS shall nevertheless be deemed to be included in the same manner as if they had been specifically shown upon the DRAWINGS and described in the SPECIFICATIONS.

SPECIAL CONDITIONS OF CONTRACT:

Special Conditions of Contract shall be read in conjunction with the General Conditions of Contract, specification of Work, Drawings and any other documents forming part of this CONTRACT wherever the context so requires. Notwithstanding the subdivision of the documents into these separatesections and volumes, every part of each shall be deemed to be supplementary to and complementary of every other part and shall be read with and into the CONTRACT so far as it may be practicable to do so.

Where any portion of the General Conditions of Contract is repugnant to or at variance with any provisions of the Special Conditions of Contract, supplementary to a complementary of every other part and shall be read with any into the Conditions of Conditions of Conditions of Contract, unless a different intention appears, the provisions of the Special Conditions of Contract shall be deemed to over-ridethe provisions of the General Conditions of Contract and shall to the extent of such repugnancy, or variations, prevail.

CONTRACTOR shall at all times, indemnify and keep indemnified IREL against all claims or suits and defend, at its own cost, any suit or action brought against IREL and hold IRELfree and harmless against all costs of such claims or suits which may be made against IREL in respect of any infringement of any rights protected by patent, copyright, trademarks, and trade secrets to the extent that such claim, suit, or action is a result of theuse of CONTRACTOR's technical Information for the construction, maintenance, and operation of PLAIN and the use of CONTRACTOR's read reprocess, licenser's processes used in PAIN. IREL shall pass on all claims made against it to CONTRACTOR's restlement.

CONTRACTOR declares that to the best of his knowledge and belief the use of CONTRACTOR's Technical Information for the construction, maintenance, and operation of PLANT and the use of CONTRACTOR's processes used in PLANI will not infringe anyvalid patent rights of a third party. However, if at any time such infringement arises, CONTRACTOR agrees to keep IREL indemnified and harmless against such claims and costs thereof and make arrangements that will allow IREL to continue the operation of PLANI.

IREL shall promptly advise CONTRACTOR in writing of any claim of infringement or any action for infringement of patents brought against it by a third party and based upon the use of CONTRACTOR's Technical Information. If such use is in accordance with instructions given in writing by CONTRACTOR, CONTRACTOR shall undertake the defence, or assist IREL in the defence, of the claim or suit up to final judgment or settlement.

CONTRACTOR shall undertake the defence on behalf of IREL and shall have sole chargeand direction of the defence, and shall bear all costs related thereto. CONTRACTOR shallfurther hold IREL harmless from any damages or other sums that may become payable by IREL under a final judgment or settlement. However, IREL shall render to CONTRACTOR all reasonable assistance that may be required by CONTRACTOR in the defence, and shall have the right to be represented therein by advisory counsel of its ownselection and at its own expense.

addition to the measures specified in Clause-8.4, CONTRACTOR may further, at its option, however, in reasonable consultation with IREL, seek to abate the alleged infringement by modification of PLANT or its operation without adverse performance and/or secure for IREL immunity from suit for infringement. In such case, CONTRACTOR shall bear/ reimburse IREL all costs related to the said modification and to the said immunity.

In the event that IREL is legally restrained from operating PLANT on account of any infringement action or suit, CONTRACTOR shall take all possible actions to assist IREL to operate and use PLANT, is so far his area of operation is concerned. Neither CONTRACTOR nor IREL shall settle or compromise any suit or action without thewritten consent of the other, if settlement or compromise obliges the other to make any payment or part with any property or assume any obligations or surrender any rights or toke subjected to any injunction by reason of such settlement or compromise.

INDEMNIEICATION FOR LIABILITIES:

CONTRACTOR INDEMNIFICATION FOR LIABILITIES:

To the fullest extent permitted by Law, CONTRACTOR assumes liability for and agrees to indemnify, protect, save and hold harmless IREL from and against any and all Liabilities (including, any strict liability), arising out of acts or omissions of CONTRACTOR or its personnel or its agents in the performance of its obligations under the CONTRACT causing bodily injury, sickness, disease or death, damage to or loss of any property, and whether or not involving damage to WORKS or SITE the may be imposed on, suffered orincurred by or asserted against IREL and in any way relating to or arising out of WORK, any EQUIPMENT

9.1.1.1 9.1.1.2 charge, treatment, storage, transportation, disposal, escape or release of any Hazardous Substance, or the threat thereof, at, to or from STE aftercommencement of work (any hazardous substance already existing at STE before WORK excluded)

WORK excluded.)

The performance of WORK, or as a result of personal injuries (including wrongful death):
The performance of WORK, or as a result of personal injuries (including wrongful death):
The violation by CONTRACTOR or any SUB-CONTRACTOR/VENDOR of any Government Approval or applicable Law;
Any breach of CONTRACT. with any SUB-CONTRACTOR/VENDOR, provided, however, that CONTRACTOR what to indemnify IREL for any liability arising out of or resulting from events or circumstances occurring or
existing after PRELIMINARY ACCEPTANCE OF PLANT except where the liability arises from an act or omission of CONTRACTOR or any SUB-CONTRACTOR/VENDOR or any other Person directly or indirectly employed by either of them or
anyone for whose acts either of them may be liable that was a contributory cause of such liability.

CONTRACTOR INDEMNIFICATION FOR TAXES

It is specifically understood that CONTRACTOR hereby accepts and assumes exclusive liability for and save and hold IREL harmless from and against of all Taxes arising from the performance of WORK, and all such Taxes shall be deemed to be included in CONTRACT PRICE, except for CST. CST at applicable rate is payable extra. Seller needto prepare E-Invoice under CST and submit monthly/ quarterly CST Return as per CST Rules. Failure to submit CST Return on time as per CST Rules may result into deduction CST while processing Bills.

CONTRACTOR shall obtain from each SUB-CONTRACTOR/VENDOR, which is anaffiliate, and shall use all reasonable efforts to obtain from each SUB-CONTRACTOR/ VENDOR, an indemnification materially similar in form and substance to Claus 1,1 and Clauses 2,1 2 of which the Residence also sense ficiency.

PAYMENT OF AMOUNTS UNDER THIS CLAUSE: 9.1.4

Except to the extent covered by insurance, all amounts payable and due by CONTRACTOR to IREL under this Clause shall be deducted from CONTRACT PRICE orany other amounts owed by IREL to CONTRACTOR here under. If such amounts payable y IREL to CONTRACTOR releast shantheamounts payable and due by CONTRACTOR under this Clause, CONTRACTOR shall be liable to IREL for such excess and shall pay such amount to IREL immediately upon demand.

9.1.5 PERMITS AND CERTIFICATES:

CONTRACTOR shall procure, at its expense, all necessary permits, certificates and licences required by virtue of all applicable laws, regulations, ordinances and other rules inforce at the place where any of the works is to be performed, and CONTRACTOR furtheragees to hold IREL harmless from liability or penalty which might be imposed by reasonof any asserted or established violation of such laws, regulations, ordinances or other rule IREL shall provide the necessary permits for CONTRACTOR's personnel to undertake any work in India in connection with CONTRACT.

CONTRACTOR agrees to indemnify and hold harmless IREL against all labourer's material, men's and/or mechanics liens arising from its work, and shall keep the premises of IREL free from all such claims, liens and encumb

WORK TO BE TO THE SATISFACTION OF ENGINEER:

The Contractor shall execute, complete and maintain the Works in strict accordance withthe contract, to the Engineer and shall comply with and adhere strictly to the Engineer's instructions and direction on any matter (whether mentioned in the Contract or not). The Contractor shall take instructions and directions only from the Engineer or from the Engineer's representative on any matter touching or concerning the Works.

11.0

As soon as practicable after the acceptance of his tender, the Contractor shall, if required, submit to the Engineer for his approval a programme showing the order of procedure and the method in which he proposes to carry out Works and shall whenever required by the Engineer or Engineer's representative furnish for his information particulars in writing of the Contractor's arrangement for the carrying out of the Works and of the constructional plant and temporary Works which the Contractor intends to supply, use or construct as the case may be. The submission to and approval by the Engineer or Engineer's representative of such programme or the furnishing of such particulars shall not relieve the Contractor of any of his duties or responsibilities under the Contract.

12.0

The Contractor shall give and provide all necessary superintendence during the execution of the works and as long thereafter as the Engineer may consider necessary for the properfulfilling of the Contractor's Obligation under the contract. The Contractor of his competent and authorised agent approved of in writing by the Engineer (which approval may at any time be withdrawn) is to be constantly on the Works and shall give his whole time to the superintendence of the same. If such approval shall withdrawn by the Engineer, the Contractor shall as soon as is practicable (huving regard to the requirement) replacing him as herei-nafter mentioned) after receiving written notice of such withdrawal, remove the agent from the Site and shall thereafter employ him again on the Site inany capacity and shall replace him by another agent approved by the Engineer's could be Engineer's expressentative.

13.0 CONTRACTOR'S EMPLOYEE:

13.1 14.0 The Contractor shall provide and employ on the Site in connection with execution and maintenance of the Works.

- Only such technical assistants and other staff as are skilled and experienced in their respective callings and such sub-agents, foreman and loading hands as are competent to give proper supervision to the work they are required to supervise and
- (b) Such skilled, semi-skilled and unskilled labour as is necessary for the proper and timely execution and maintenance of the Works
 - The Engineer shall be at liberty to object to and require the Contractor to remove forthwithfrom the Works any person employed by the Contractor in or about the execution or maintenance of the Works who in the opinion of the Engineer misconducts himself or incompetent or negligent in the proper performance of his duties or whose employment isother-wise considered by the Engineer to be undesirable and such person shall not be again employed upon the Works without the written permission of the Engineer. Any person so removed from the Works shall be replaced without delay by a competent substitute approved the Engineer.

EXTRA SUPERVISION ON WORK:

If in the opinion the Engineer, due progress is not made with the work in accordance withthe contract, and or the execution thereof becomes contrary to specifications, and/or badwork is executed and/or bad materials are used or supplied by the Contractor, and/or anydirections given by the Engineer are not properly complied with or attended to, the Engineer may if he considers it necessary or proper for the execution of the work in accordance with the contract, of which his certificate in writing will be sufficient evidence order the employment of extra supervising staff to supervising staff shall be provided by the Contractor, provided that the Engineer shall give to the Contractor not less than 7 days previous notice in writing of intention to exercise his power.

- specifically mentioned in the tender, if any). However, IREL does notguarantee the supply of water and this does not relieve the Contractor of his responsibility making his own arrangement and for the timely completion of the various works as stipulated. f)
- Power Supply: Subject to availability, IREL will supply power at 400/440 V at only one point at the nearest sub-station, from where the CONTRACTOR will make his own arrangement for temporary distribution. The point of supply will not be more than 500 m away from the CONTRACTOR's premises. All the works will be done as per the applicable regulations and passed by the ENGINEER-IN-CHARGE. The temporary line will be removed forthwish that the completion of work or if there is any hindrance caused to the other works due to the adjument of these lines, be CONTRACTOR's will-revolute or remove the temporary lines at his own octs. The CONTRACTOR at his cost will also provide suitable electric meters, fisses, switches, etc for purposes of payment to IREL which should be in the custody and control of the IREL. The cost of power supply shall be payable to IREL every norm for Construction Works which would be deducted from the running account bills (subject to rate of deduction specifically mentioned in the tender, if any), IREL shall not, however, guarantee the supply of electricity will not have any liability in respect thereof. No claim for compensation for any liability of electricity will be admissible. g)

It shall be the responsibility of the CONTRACTOR to provide and maintain the complete installation on the load side of the supply with due regard to safety requirement at site. Allcabling, equipment, installations etc. shall comply in all respects will latest statutory requirements and safety provisions, i.e., as per the Central/State Electricity Acts and Rulesetc. The CONTRACTOR will ensure that his equipment and Electrical Wiring etc., are installed, modified, maintained by a lic Electricitan/Supervisor. A test certificate is tobe produced to the ENGINEER-IN-CHARGE for his approval, before power is made available.

At all times, IEA regulations shall be followed failing which the IREL has a right to disconnect the power supply without any reference to the CONTRACTOR. No claim shallbe entertained for such disconnection by the ENGINEER-IN-CHARGE. Power supply willbe reconnected only after production of fresh certificate from authorized electrical supervisors.

The IREL is not liable for any loss or damage to the CONTRACTOR's equipment as a result of variation in voltage or frequency or interruption in power supply or other loss to the CONTRACTOR arising therefrom

The total requirement of power shall be indicated by the tenderer along with his tender.

STANDARDS:

The goods and services supplied under this CONTRACT shall conform to the standards mentioned in the technical specifications and when no applicable standard is mentioned, CONTRACTOR shall follow best engineering practices.

Except if and the extent otherwise provided by the Contract, the provisions of the GeneralConditions of Contract and Special Conditions shall prevail over those of any other documents forming part of the CONTRACT. Several documents forming the CONTRACT are to be taken as mutually explanatory of one another, but in case of ambiguities or discrepancies the same shall be explained and adjusted by the ENGINEER-IN-CHARGEwho shall thereupon issue to the Contractor instructions thereonand insuch event, unlessofterwise provided in the Contract, the priority of the documents forming the Contract shallbe as follows:

- 7.10.2 7.10.3 The Letter of Acc The Instructions to Bidders(ITB)

- Special Conditions of Contract (SCC);
 General Conditions of Contract (GCC)
 Any other document forming part of the Contract

Works shown in the DRAWING but not mentioned in the SPECIFICATIONS or described in the SPECIFICATIONS without being shown in the DRAWINGS shall nevertheless be deemed to be included in the same manner as if they had been specifically shown upon the DRAWINGS and described in the SPECIFICATIONS.

7.11 SPECIAL CONDITIONS OF CONTRACT:

Special Conditions of Contract shall be read in conjunction with the General Conditions of Contract, specification of Work, Drawings and any other documents forming part of this CONTRACT wherever the context so requires. Notwithstanding it division of the documents into these separates excitons and volumes, every part of each shall be deemed to be supplementary to and complementary of every other part and shall be read with and into the CONTRACT so far as it may be practicable to do so Where any portion of the General Conditions of Contract is repugant to or at variance with any provisions of the Special Conditions of Contract, and shall be deed over-ridethe provisions of the Ceneral Conditions of Contract and shall to the extent of such repugancy, or variations, prevail.

9.1

92

9.3

9.2.2

9.2.5

- CONTRACTOR shall at all times, indemnify and keep indemnified IREL against all claimsor suits and defend, at its own cost, any suit or action brought against IREL and hold IRELfree and harmless against all costs of such claims or suits which may be made against IREL in respect of any infringement of any rights protected by patient, copyright, trademarks, and trade secrets to the extent that such claim, suit, or action is a result of these or of CONTRACTOR's technical Information for the construction, maintenance, and operation of PLANI and the use of CONTRACTOR shall or any other process, licenser's processes used in PLANI IREL shall pass on all claims made against it to CONTRACTOR for settlement.
- CONTRACTOR declares that to the best of his knowledge and belief the use of CONTRACTOR's Technical Information for the construction, maintenance, and operation of PLANT and the use of CONTRACTOR's processes used in PLANT will not infringe anyvalid patent rights of a third party. However, if at any time such infringement arises, CONTRACTOR agrees to keep IREL indemnified and harmless against such claims and costs thereof and make arrangements that will allow IREL to continue the operation of PLANT.
- IREL shall promptly advise CONTRACTOR in writing of any claim of infringement or any action for infringement of patents brought against it by a third party and based upon the use of CONTRACTOR's Technical Information. If such use is in accordance with instructions given in writing by CONTRACTOR, CONTRACTOR shall undertake the defence, or assist IREL in the defence, of the claim or suit up to final judgment or settlement.
- CONTRACTOR shall undertake the defence on behalf of IREL and shall have sole chargeand direction of the defence, and shall bear all costs related thereto. CONTRACTOR shallfurther hold IREL harmless from any damages or other sums that may be required by IREL under a final judgment or settlement. However, IREL shall render to CONTRACTOR all reasonable assistance that may be required by CONTRACTOR in the defence, and shall have the right to be represented therein by advisory cour of its ownselection and at its own expense.
- In addition to the measures specified in Clause-8.4, CONTRACTOR may further, at its option, however, in reasonable consultation with IREL, seek to abate the alleged infringement by modification of PLANT or its operation without adversely affecting the performance and/or secure for IREL immunity from suit for infringement. In such case, CONTRACTOR shall bear/ reimburse IREL all costs related to the said modification and to the said immunity.
- In the event that IREL is legally restrained from operating PLANT on account of any infringement action or suit, CONTRACTOR shall take all possible actions to assist IREL to operate and use PLANT, is so far his area of operation is concerned.

 Neither CONTRACTOR nor IREL shall settle or compromise any suit or action without thewritten consent of the other, if settlement or compromise obliges the other to make any payment or part with any property or assume any obligations or surrender any rights or to be subjected to any injunction by reason of such settlement or compromise.

INDEMNITIES:

9.2 INDEMNIFICATION FOR LIABILITIES:

To the fullest extent permitted by Law, CONTRACTOR assumes liability for and agrees to indemnify, protect, save and hold harmless IREL from and against any and all Liabilities (including, any strict liability), arising out of acts or consissions of CONTRACTOR or its personnel or its agents in the performance of its obligations under the CONTRACT causing bodily injury, sickness, disease or death, damage to or loss of any property, and whether or not involving damage to WORKS or SITE that may be imposed on, suffered orincurred by or asserted against IREL and in any way relating to or arising out of

WORK, any EQUIPMENT 9.2.1.1 9.2.1.2

discharge, treatment, storage, transportation, disposal, escape or release of any Hazardous Substance, or the threat thereof, at, to or from SITE after commencement of work (any hazardous substance already existing at SITE before commencement of the storage).

9.2.1.3 9.2.1.4 9.2.1.5

WORK excluded)
The performance of WORK, or as a result of personal injuries (including wrongful death):
the violation by CONTRACTOR or any SUB-CONTRACTOR, VENDOR of any Government Approval or applicable Law;
Any breach of CONTRACT with any SUB-CONTRACTOR, PENDOR, provided, however, that CONTRACTOR shall not be required under this Clause to indemnifyIREL for any liability arising out of or resulting from events or circumstances occurring or existing after PRELIMINARY ACCEPTANCE OF PLANT except where the liability arises from an act or omission of CONTRACTOR or any SUB-CONTRACTOR, VENDOR or any other Person directly or indirectly employed by either of them or anyone for whose acts either of them may be liable that was a contributory cause of such liability.

CONTRACTOR INDEMNIFICATION FOR TAXES

It is specifically understood that CONTRACTOR hereby accepts and assumes exclusive liability for and save and hold IREL harmless from and against of all Taxes arising from the performance of WORK, and all such Taxes shall be deemed to be included in CONTRACT PRICE, except for GST. GST at applicable rate is payable extra. Seller needto prepare E-Invoice under GST and submit monthly/ quarterly GST Return as per GST Rules. Failure to submit GST Return on time as per GST Rules may result into deduction GST while processing Bills.

9.2.3

CONTRACTOR shall obtain from each SUB-CONTRACTOR/VENDOR, which is an affiliate, and shall use all reasonable efforts to obtain from each SUB-CONTRACTOR/ VENDOR, an indemnification materially similar in form and substance to Clause-9.1.1 and Clause-9.1.2 of which the IREL shall be named as beneficiary.

Except to the extent covered by insurance, all amounts payable and due by CONTRACTOR to IREL under this Clause shall be deducted from CONTRACT PRICE orany other amounts owed by IREL to CONTRACTOR here under. If such amounts payable payable and due by CONTRACTOR under this Clause, CONTRACTOR shall be liable to IREL for such excess and shall pay such amount to IREL immediately upon demand.

PERMITS AND CERTIFICATES:

CONTRACTOR shall procure, at its expense, all necessary permits, certificates and licences required by virtue of all applicable laws, regulations, ordinances and other rules inforce at the place where any of the works is to be performed, and CONTRACTOR furtheragrees to hold IREL harmless from liability or penalty which might be imposed by reasonof any asserted or established violation of such laws, regulations, ordinances or other rule.IREL shall provide the necessary permits for CONTRACTOR's personnel to undertake any work in India in connection with CONTRACT.

9.2.6 MECHANICS LIEN:

CONTRACTOR agrees to indemnify and hold harmless IREL against all labourer's material, men's and/or mechanics liens arising from its work, and shall keep the premises of IREL free from all such claims, liens and encumbrances

The Contractor shall execute, complete and maintain the Works in strict accordance withthe contract, to the satisfaction of the Engineer and shall comply with and adhere strictly to the Engineer's instructions and direction on any matter (whether mentioned in the Contract or not). The Contractor shall take instructions and directions only from the Engineer or from the Engineer's representative on any matter touching or concerning the Works.

As soon as practicable after the acceptance of his tender, the Contractor shall, if required, submit to the Engineer for his approval a programme showing the order of procedure and the method in which he proposes to carry out Works and shall whenever required by the Engineer or Engineer's representative furnish for his information particulars in writing of the Contractor's arrangement for the carrying out of the Works and of the constructional plant and temporary Works which the Contractor intends to supply, use or construct as the case may be. The submission to and approval by the Engineer or Engineer's representative of such programme or the furnishing of such particulars shall not relieve the Contractor of any of his duties or responsibilities under the Contractor.

The Contractor shall give and provide all necessary superintendence during the execution of the works and as long thereafter as the Engineer may consider necessary for the proper fulfilling of the Contractor's Obligation under the contract. The Contractor or one of his competent and authorised agent approved of in writing by the Engineer, (which approval shall be withdrawn) is to be constantly on the Works and shall give his whole time to the superintendence of the same. If such approval shall be withdrawn by the Engineer, the Contractor shall as soon as is practicable (having regard to the requirement of replacing him as here-in-after mentioned) after receiving written notice of such withdrawn, remove the agent from the Site and shall not thereafter employ him again on the Site in any capacity and shall replace him by another agent approved by the Engineer's Cuch authorised agent shall receive on behalf of the Contractor directions and instructions from the Engineer or (subject to the limitations of Clause 2 hereofy) the Engineer's representative.

The Contractor shall provide and employ on the Site in connection with execution and maintenance of the Works.

- Only such technical assistants and other staff as are skilled and experienced in their respective callings and such sub-agents, foreman and loading hands as are competent to give proper supervision to the work they are required to supervise and
- (d) Such skilled, semi-skilled and unskilled labour as is necessary for the proper and timely execution and maintenance of the Works
 - The Engineer shall be at liberty to object to and require the Contractor to remove forthwithfrom the Works any person employed by the Contractor in or about the execution or maintenance of the Works who in the opinion of the Engineer misconducts himself or incompetent or negligent in the proper performance of his duties or whose employment isother-wise considered by the Engineer to be undesirable and such person shall not be again employed upon the Works without the written permission of the Engineer. Any person so removed from the Works shall be replaced without delay by a competent substitute approved by the Engineer.

EXTRA SUPERVISION ON WORK:

If in the opinion the Engineer, due progress is not made with the work in accordance withthe contract, and or the execution thereof becomes contrary to specifications, and/or badwork is executed and/or bad materials are used or supplied by the Contractor, and/or anydirections given by the Engineer are not properly compiled with or attended to, the Engineer may if he considers it necessary or proper for the execution of the work in accordance with the contract, of which his certificate in writing will be sufficient evidence order the employment of extra supervising staff to specify the execution of the work in accordance with the contract, of which his certificate in writing will be sufficient evidence order the employment of extra supervising staff shall be provided by the Contractor, provided that the Engineer shall give to the Contractor not less than 7 days previous notice in writing of intention to exercise his power.

SETINIO-OUT OF THE WORKS.

15.0

The Contractor shall be responsible for the true and proper setting out of the Works and the correctness of the position levels, dimensions and alignment of all parts of the Works and for the provision of all necessary instrument appliances and labour in connection therewith. If at any time during the progress of the works, any error shall appear or arise in the positions or alignment of any part of the Works, the Contractor on being required so to do by the Engineer or Engineers representative shall all his own expense rectify such error to the satisfaction of the Engineer or Engineers or the Engineer or t

16.0

Explosives shall not be used on the work by the contractor without the permission in writing of the Engineer and then only in the manner and to the extent to which he has prescribed. Where explosives are used, the same shall be stored in a special magazine to be provided by and at the cost of the Contractor, who shall be liable for all damages, loss or injury to any person or property & shall be responsible for complying with all the Statutoryobligations in these respects.

17.0

The Contractor shall in connection with the Works provide and maintain at his own cost all lights, guards, fencing and watching when and where necessary or required by the Engineer or Engineer's representative or by a duly constituted authority for the protection of the Works or for the safety and convenience of the Public or others.

From the commencement to the completion of the Works, the Contractor shall take full responsibility or the care thereof and of all Temporary Works and in case any damage, loss or injury shall happen to the Works or to any part thereof or to any temporary Worksfrom any cause whatsoever (save and except the excepted risks as defined in sub-clause (2) of the clause) shall at his own cost repair and make good the same so that at completion the Works shall be in good order and condition and in conformity in every respect with the requirements of the Contract and the Engineer's instructions. In the eventod navis, but changes, loss or injury happening from any of the excepted risks the Contractor shall if and to the extent required by the contractor shall also be liable for any damage to the Works occasioned by him in the course of any operations carried out by him for the purpose of complying with his obligations under Clause 58 hereof.

The "excepted risks" mentioned in Sub-clause (1) above are war hostilities (whether war be declared or not), invasion act of foreign enemies, rebellion, revolution, insurrection of military or usurped power, civil war or (otherwise than among the Contractor's own employees) riot, commotion or disorder or any such operation of the forces of nature as responsible foresight and ability on the part of Contractor could not foresee or reasonablyprovide against (all of which are herein collectively referred to as "the excepted risks".)

USE OF LAND & BUILDINGS

- Wherever any land or building belonging to IREL is allotted to the Contractor, the Contractor shall return vacant possession of the same land/building in good condition to IREL after the completion of works as soon as the contract is over/terminated, failing which IREL would be entitled to withhold the payment of the security deposit and/or finalbill in addition to any other action which the IREL may like to take for getting the vacant possession of the land or building as aforesaid. (a)
- The Contractor should obtain the prior approval of the competent authority for construction of purely temporary shed. The Contractor should submit written applicationaccompanied by layout plan for construction of such temporary modification/alteration if deemed necessary thereafter, should be done with prior approval of the competent authority.

 The Contractor shall have to pay licence fee for the area occupied as per rates fixed bythe Management of IREL from time to time. (b)
- (c)
- The permission for such temporary shed will be accorded only for the purpose of work as awarded to such Contractor and the temporary shed so constructed should be dismantled within 15 days from the date of completion of the maintenance work and restore the possession of vacant land in the original condition or in a condition acceptable to the Management of IREL. In case of any difficulty, the Contractor may obtain specific approval of the competent authority which may not be extended more than a period of one month in any case.

 In case of failure of the Contractor to dismantle the temporary shed and hand over the vacant possession of the premises, the department shall be compelled to dismantle thetemporary shed so constructed at the risk and cost of the contractor without prejudice toany other action which may be taken including recovery of damages as per rates fixed by IREL for the unauthorised occupation of the shed/premises beyond the permitted period.

 The Contractor should use such permitted period.

 The Contractor should use such permissis/shed for such purpose incidental to such awarded work and not as otherwise. It shall be the liability of the contractor to ensure that this occupation of the premises/shed does not provide to be of nuisance to the residents in the vicinity. The Contractor shall also not sublet the premises to any other party. (d)
- (e)

DAMAGES TO PERSONS AND PROPERTY:

- The Contractor shall (except if and so far as the Specification provided otherwise) indemnify and keep indemnified the IREL against all losses and claims for injuries or damages to any person or any property whatsoever which may arise out of or in consequence of the construction and maintenance of the works and against all claims, demands, proceedings, damages, costs charges and expenses whatsoever in respect ofor in relation thereto. Provided always that nothing hereby contained shall be deemed to render the Contractor label for or in respect of or to indemnify the IREL against any compensation or damages for with respect to:
- The permanent use or occupation of land by the works or any part thereof (save as herein-after provided) surface or other damage as aforesaid i.e. surface or other damage caused by contract works in the normal co
- (b) The right of the IREL to construct the Works or any part thereof on over under in or through any land. (c)
 - Interference whether temporary or permanent with any right to light, air, way or water or other easement or quasi-easement which is unavoidable result of the construction of the Works in accordance with the Contract.
 - Provided further that for the purposes of this clause, the expression "the land" shall be deemed to be limited to the area defined in the specification as shown on the drawings inwhich land crops, trees and structures will be disturbed or damaged as an inevitable consequence of the carrying out of the Works.

20.0 ACCIDENT OR INJURY TO WORKMEN:

- (a) yer shall not be liable for or in respect of any damages or compensationpayable as per or otherwise in respect of or in consequence of any accident or injury to any workmen or other persons in the employment of the Contractor oranySub-Contractor ontractor shall indemnify and keep indemnified the Employer against all such damages and compensation and against all claims, demands, proceedings, cost, charges and expenses what soever in respect thereof in relation there to.
- (b) The Contractor shall forthwith report all accidents and injuries as a result of his contractual work to the employer or his representative.

The Contractor shall at all times indemnify the Employer against all claims for compensation under the provision of the Workmen's Compensation Act, 1923 (VIII of 1923) or any other law for the time being inforce by or in respect of any workmen the Contractor in carrying out the contract and against all costs and expenses incurred by the employer in connection therewith and (without prejudice to any other means of recovery) the employer shall be entitled to deduct from any me become due to the Contractor (whether under this contract or any other contract) all moneys paid or payable by the Employer by way of compensation aforesaid or for costs or expenses in connection with any claim thereto and the Contractor by the decision of the Employer as to the sum payable by the Contract, under the provision of this clause.

GIVING OF NOTICE AND PAYMENT OF FEES:

The Contractor shall give, all notices and pay all fees required to be given or paid to any Central or State, Statute, Ordinance or other Law or any rule, Regulation or Bye-Law of local or other duly constituted authority in relation to the execution of the Works or of anytemporary works and by the rules and regulations of all public bodies whose property or rights are affected or may be affected in any way by the works or any Temporary Works.

COMPLIANCE WITH STATUTES REGULATIONS ETC.:

The Contractor shall conform in all respects with the provision of any such statute, ordinance, or Law as aforesaid and the rules, Regulations or Bye-laws of any local or otherduly constituted authority which may be applicable to the Works or to any Temporary Works and with such rules and regulations of public bodies as aforesaid and shall keep the employer indemnify against all penalties and liability of every kind for breach of any such Statute, Ordinance, Law, Rules, Regulation or Bye-laws.

23.0

ROSSILS FIC.
All Rossils, coins, articles, value of antiquity and structures and other remains or things of geological or archaeological interest discovered on the site of the works shall as betweenthe employer and the Contractor be deemed to be the absolute property of the Employerand the Contractor shall take reasonable precursions to prevent, his workmen or any otherpersons from removing or damaging any such article or thing and shall immediately upondiscovery thereof and before removal acquaint the Engineers representative of such discovery and carry out at the express of the employer the engineer's Representative of sorters as the otherwise of the same.

PATENT RIGHTS & ROYALTIES: 24 (a)

The Contractor shall save harmless and indemnify the Employer from and against all claims and proceeding for or on account of infringement of any patent rights, designs trade-mark or name or other protected rights in respect of any Constructional plant, machine, work or material used for or in connection with the Works or Temporary Works of any of them and from and against all claims, demands, proceeding, damages, cost, charges and expenses whatsoever in respect thereof or in relation there to.

Except where otherwise specified, the Contractor shall pay all tollage and other royalties, rent and other payments or compensation (if any) for getting stone, sand, gravel, clay or other materials required for the Works or temporary Works or any of them.

INTERFERENCES WITH TRAFFIC ADJOINING PROPERTIES.

All operations necessary for the execution of the Works and for the construction of any Temporary works shall so far as compliance with the requirements of the Contract permitsbe carried on so as not to interfere unnecessarily or improperly with the Public convenience or the access to use and occupation of public or private roads and footpathsor to or properties whether in the possession of the Employer's Workmen or of any other person and Contractor shall save harmless and indemnify employer in respect of all claims, demands, proceeding, damages, costs, charges and expenses what some or in relation to any such matters.

26.(a)

Contractor shall use every reasonable means to prevent any of the highways and bridges communicating with or on the routes to the site from being damaged or injured byany traffic of the Contractor or any of his Sub-Contractors and in particular select routes, choose and use vehicles and restrict and distribute loads so that any such extraordinary traffic as will invitibly arise from the moving of plant and material from and/to the site shall be limited as far as reasonably possible and so that no recessary damage or injury may be occasioned to such highways and bridges. For any damage caused by the breach heroof, the Contractor shall be solely responsible.

WATERBORNE TRAFFIC:

28.0

Where the nature of the works is such as to require the use by the Contractor of water borne transport, the fore going provisions of this clause shall be construed as though "highway" included a dock, deck, sea wall, or other structure related to a water-way and "vehicles" included craft and shall have effect accordingly.

The Contractor shall in accordance with the requirements of the Engineer afford all reasonable opportunities for carrying out their work to any other contractors employed by the Employer and their workmen and to the workmen and to the workmen of the Employer and of any other duly constituted authorities who may be employed in the execution on or near the site of any work not included in the Contract or of any Contract which the Employer may enter into in connection with or ancillary to the works.

SUPPLY OF PLANT, MATERIAL AND LABOUR:

Except where otherwise specified the Contractor shall at his own expense supply and provide all the Constructional Plant, Temporary Works, materials both for temporary and for permanent Works, labour (including the supervision thereof), transport to or from the Site and in and about the Works and other things of every kind required for the constructions, completion and maintenance of the Works.

If the Employer has undertaken to supply materials specified in the special conditions at rates stated therein, the Contractor shall keep himself in touch with the day-to-day position regarding the supply of materials from the Engineer and so adjust the progress of the workthat their labour may not remain idle nor may there be any other claim due to or arising from delay if any, in obtaining the materials. It should be clearly understood that no claimwhatsoever shall be entertained by the Employer on account of delay in supplying materials.

SITE CLEARANCE ON COMPLETION OF WORK:

On the completion of the work all rubbish, debris, vals tanks, materials, and temporary structures of any sort or kind used for the purpose of or connected with its construction are to be removed by the Contractor and all pits and exavations filled up and the site handed over in a tidy and workman like condition and no final payment in settlement of the account for its said works shall be held to be due or shall be made to the Contractor, till such site cleanene shall have been effected by him, and such clearance may be madely the Engineer, at the expense of the Contractor in the event of his failure to comply withfilist provision within? days after receiving notice in writing from the Engineer to that effect. If it becomes necessary for the Engineer to that effect, if it becomes necessary for the Engineer is the effect of the mean of public sale of such materials and property or in such way as seems fit and most convenient to the Engineer of public sale of such materials and property or in such way as seems fit and most convenient to the Engineer of public sale of such materials and property or in such way as seems fit and most convenient to the Engineer.

RETURN OF SURPLUS MATERIALS:

Notwithstanding anything contained to the contrary anywhere in this contract, wherever any materials for the execution of the contract are procured with the assistance of the Employer either by issue from Employer's stocks or purchase made under orders or permits or licenses issued by the Employer, the Contractor shall use the said materials economically and solely for the purpose of the contract and not dispose of them without the permission of the Employer, and if required by the Engineer shall return to the Employer as a trial is reminiation, for any reason whatsoever on being paid or credited such price as the Engineer shall return to the Employer as a trial is reminiation, for any reason whatsoever on being paid or credited such price as the Engineer shall return to the Engineer shall be final and conclusive in the event of breach of the aforesaid condition, the Contractor shall in addition to making himself liable of action for contravention of the terms of the licences or permit and/or for criminal breach of trust) be liable to the Employer for payment of all moneys, advantagesor profit resulting or which in the usual course would have resulted to him by reason of such breach.

All materials and workmanship shall be of the respective kinds described in the Contract and in accordance with the Engineer's instructions and shall be subjected from time to time to such tests as the Engineer may direct at the place of manufacture or fabrication oron the Site or at all or any of such places. The Contractor shall provide such assistance, instruments, machines, labour and materials as are normally required for examining, measuring and testing any work and the quality, quantity or weight of any material used and shall supply samples of materials before incorporation in the Works fortesting as maybe selected and required by the Engineer.

Cost of samples: All samples shall be supplied by the Contractor at his cost.

Cost of tests: The cost of making any test in performance of his works shall be borne by the Contractor

Cost of tests not provided for: If any test is ordered by the Engineer which is either,

a. not so intended or provided or

b. is not so particularised for or

though so intended or provided for is ordered by the Engineer to be carried by anindependent person at any place other than the Site or the place of manufacture or fabrication of the materials tested. Then the cost of such test shall be borne bythe Contractor if the test shows the workmanship of materials not to be inaccordance with the provisions of the Contract or the Engineer's instructions but otherwise by the Employer.

33.0

t in the Contract as to completion of any portion of the works before completion of the whole of the works, it shall be completed within the time stated in the LOI/Award Letter/Agr

44.0 EXTENSION OF TIME FOR COMPLETION:

Exhibition or limit of Contraction Constitution with a displayment of extra or additional work of any kind or other special circumstances of any kind whatsoever which may occur be such as fairly to entitle the contractor to an extension of time for the completion of the work, the Engineer shall determine the amount of extra or additional work of any kind or account any extension as expecial circumstances unless the Contractor has within 14 daspatiment such works have been commenced on such circumstances where soon thereafter as is practicable, delivered to the Engineer's prepresentative full and defaulted or for other accounts of time to which he may consider inself-entitled in order that such claim may be a considered to the consideration of time to which he may consider inself-entitled in order that such claim may be a consideration of the consideration of time to which he may consider inself-entitled in order that such claim may be a consideration of the con circumstances have aris investigated at the time.

- rotify the ENGINEER-IN-CHARGE any event or conditions which might delay the completion of work in accordance with the approved schedule and the steps being taken to remedy such situation.

If the Work is delayed at any time in the commencement or during the progress of the WORK by any act, delay or neglect solely attributable to IREL or his employees, or by anyother contractor utilised by the IREL or by FORCE MAJEURE conditions, the time of completion shall be extended by IREL (without levy of Mutually Agreed Damages) in writing for a reasonable period as may be mutually agreed upon, at the time of closure of contract. The CONTRACTOR shall, immediately on occurrence of such special circumstances but not later than 14 working days, brings to the knowledge of IREL throughwriten application for any such delay as mentioned above. 44.2

IREL shall have the right to suspend the WORK in whole or in part for such time as may be necessary in order that WORKS shall be well and properly executed. In such events, suitable extension of time shall be granted to CONTRACTOR

NO NIGHT OR SUNDAY WORK:
Subject to any provision to the contract, none of the permanent work shall save as hereinafter provided be carried on during the night or on Sundays (if locally recognised as days of rest) or their locally recognised equivalent without the permission in writing of the Engineer's representative save when the work is unavoidableor absolutely necessary for the saving of life or property or for the safety of the Works in which case the Contractor shall immediately advise the Engineer's representative. Provided always that the provisions of this Clause shall not be applicable in the-case of any work which it is customary to carry out by rotary or double shifts.

RATE OF PROGRESS:

The whole of the materials, plant and labour to be provided by the Contractor and the mode, manner and speed of execution and maintenance of the work are to be of a kind and conducted in a manner to the satisfaction of the Engineer. Should the rate of progress of the works or any part thereof be at any time in the opinion of the Engineer too slow to ensure the completion of the works by the prescribed time or extended time for completionthe Engineer shall so notify the Contractor in writing and the Contractor shall thereupon take such steps as the contractor may think necessary and the Engineer may approve to expedite progress so as to complete the works by the prescribed time or extended time for completion. If the work is not being carried on by day and by night and the Contractor shall requise permission to work by night as well as by then if the Engineer shall gas to the contractor shall requise and distington and additional payment for so doingbut it such permissions hall be refused and there shall be no equivalent practicable method of expediting the progress of the work, the time for completion shall be extended by such period as is solely attributable to such refusal. All work at night shall be carried out withoutunreasonable noise and disturbance. The Contractor shall indemnify the Employer from and against any liability for damages on account of noise or other disturbance created while or in carrying out the work and from and against any liability.

LIQUIDATED DAMGES FOR DELAYED EXECUTION OF CONTRACT:
Subject to Article -48, if the CONTRACTOR fails to deliver any or all of the GOODS or performance of the services within the time period(s) specified in the CONTRACT, the EMPLOYER shall, without prejudice to his other remedies under the CONTRACT, levy Liquidated damages from the CONTRACT PRICE, a sum calculated on the basis of the CONTRACT PRICE, including subsequent modifications.

Deductions shall apply as per following formula: For repair works costing up to Rs. Ten lakhs (Rs 10,00,000/-): One percent (1%) of the contract value per week subject to a maximum of ten percent (10%) of contract value

For all other works:

Half process (0.5%) of the contract value per week of delay subject to a maximum of ten percent (10%) of contract value.

EMPLOYER may deduct the amount so payable by CONTRACTOR, from any amount falling due to the CONTRACTOR or by recovery against the Performance Guarantee. BothCONTRACTOR and EMPLOYER agree that the above percentages of price reduction aregenuine pre-estimates of the loss/ damage which the EMPLOYER would have suffered onaccount of delay/breach on the part of the CONTRACTOR and the said amount will be payable on demand without there being any proof of the actual loss/or damage; caused bysuch breach/delay. A decision of the EMPLOYER in the matter of applicability of price reduction shall be final and binding.

48.0 48.1

Towns any include. The remaining the control of contractor and not involving the contractor's fault or negligence and which is not foreseeable. Such events may include, but are not restricted to acts of the purchaser/contractor either in its sovereign or contractual capacity, wars or revolution, hostility, acts of public neemy, civil commotion, floods, explosions, epidemics, quarantine restrictions, strikes, lockouts and freight embargoes or any other event which IREL may deem fit to consider so. The decision aboutforce majures shall rest with IREL which shall be final and thinding.

If there is delay in performance or other failures by the contractor to perform obligations under its contract due to event of a Force Majeure, the supplier/contractor shall not be held responsible for such delays/failures. If a Force Majeure situation arises, the contractor shall promptly notify the purchaser in writing of such conditions and the cause therefor within fifteen days of occurrence of suchevent. Unless otherwise directed by the EMPLOYER in writing, the CONTRACTOR shall continue to perform its obligations under the contract as far as reasonable/practical and shall seek all reasonable alternative means for performance on prevented by the Force Majeure event.

If the performance in whole or in part or any obligation under this contract is prevented ordelayed by any reason of Force Majeure for a period of exceeding 120 days. IREL may atits option terminate the contract without any financial repercussion on either
