DISCLAIMER

The information contained in this tender document (the "TENDER") or subsequently provided to Bidder(s), whether verbally or in documentary or any other form, by or on behalf of IREL or any of its employees, is provided to Bidder(s) on the terms and conditions set out in this TENDER and such other terms and conditions subject to which such information is provided. The information provided is only for the information and reference of the Bidders.

This TENDER is not an agreement and is neither an offer by IREL to the prospective Bidder(s) or any other person. The purpose of this TENDER is to provide interested parties with information that may be useful to them in the formulation of their bid for participation in this TENDER. This TENDER includes statements, which reflect various assumptions and assessments arrived at by IREL in relation to the tender work. Such assumptions, assessments and statements do not purport to contain all the information that each Bidder may require. This TENDER may not be appropriate for all persons, and it is not possible for IREL, or its employees to consider the investment objectives, financial situation and particular needs of each party who reads or uses this TENDER. The assumptions, assessments, statements and information contained in this TENDER may not be complete, accurate, adequate or correct. Each Bidder should therefore, conduct its own investigations and analysis and should check the accuracy, adequacy, correctness, reliability and completeness of the assumptions, assessments, statements and information contained in this TENDER and obtain independent advice from appropriate sources.

Information provided in this TENDER to the Bidder(s) is on a wide range of matters, some of which may depend upon interpretation of law. The information given is not intended to be an exhaustive account of statutory requirements and should not be regarded as a complete or authoritative statement of law. IREL accepts no responsibility for the accuracy or otherwise for any interpretation or opinion on law expressed herein.

IREL, its employees and consultant make no representation or warranty and shall have no liability to any person, including any Bidder, under any law, statute, rules or regulations, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which may arise from or be incurred or suffered on account of anything contained in this TENDER or otherwise, including the accuracy, adequacy, correctness, completeness or reliability of the TENDER and any assessment, assumption, statement or information contained therein or deemed to form part of this TENDER or arising in any way with qualification of Bidders for participation in the Bidding Process. IREL also accepts no liability of any nature whether resulting from negligence or otherwise howsoever caused arising from reliance of any Bidder upon the statements contained in this TENDER. IREL may, in its absolute discretion but without being under any obligation to do so, update, amend or supplement the information, assessment or assumptions contained in this TENDER.

The issue of this TENDER does not imply that IREL is bound to select and short-list qualified Bids for Price Bid stage or to appoint the Selected Bidder for the intended work, and IREL reserves the right to reject all or any of the Bids without assigning any reasons whatsoever.

The Bidder shall bear all its costs associated with or relating to the preparation and submission of its Bid including but not limited to preparation, copying, postage, delivery fees, expenses associated with any demonstrations or presentations which may be required by IREL or any other costs incurred in connection with or relating to its Bid. All such costs and expenses will remain with the Bidder and IREL shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by a Bidder in preparation or submission of the Bid, regardless of the conduct or outcome of the Bidding Process.

GENERAL INSTRUCTIONS TO BIDDERS

I. GENERAL

- 1) Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- 2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- 3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR / DWF/JPG formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.

II. PREPARATION AND SUBMISSION OF BIDS

- 1) The tender bids duly filled in all aspects and uploaded at CPP Portal on or before the scheduled time and date as mentioned in the tender enquiry will be considered for evaluation.
- 2) Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e., on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- 3) The Bids shall be prepared in two parts viz. PQ cum Technical Bid (Part-I) and Price Bid (Part-II). The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- 4) Technical Bid will be opened at the first instance and evaluated by IREL's concerned authority. In the second stage, financial bids of only the technically eligible offers will be opened for further evaluation and ranking before awarding the contract.

PQ cum Techno-commercial bid (Part -I)

It contains documents in support of eligibility criteria, self-attested tender document and any other document specifically specified in this tender document.

Part -II shall contain Price Bid (to be submitted electronically).

This part shall contain only Schedule of prices duly filled in as per the Bid Proposal Schedules. No physical submission of hard copy is permitted.

5) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

III. METHOD OF SELECTION:

Part-I of the bid will be evaluated and bidders meeting the PQ criteria and other tender conditions will be qualified as eligible bidders for opening of the price bids. The price bids opened subsequently will be scrutinized for responsiveness and IREL shall consider placement of order on the qualified bidder, whose offer shall be overall lowest. However, IREL reserves the right to accept or reject all or any tender without assigning any reasons and does not bind itself to accept the lowest offer.

<u>Note:</u> To assist in the examination of documents submitted by the bidder in support of eligibility criteria (PQ), IREL may, at its discretion, ask the Bidder for clarification of its bid. The request for clarification and the response shall be in writing and no change in the price or substance of the bid shall be sought, offered or permitted.

IV SPECIAL TERMS AND CONDITIONS

1.0 <u>SITE VISIT</u>:

Prior to quoting rates, the bidders are advised to visit the site on any working days at our specified visiting hours with the permission of Engineer concerned /Purchase Dept. The bidders are also advised to study the labour supply/availability, trade union practices and labour rates prevailing at Udyogamandal.

2.0 EFFECT AND VALIDITY OF BID:

- 2.1 The submission of any bid connected with these documents and specifications shall constitute an agreement that the bidder shall have no cause of action or claim against IREL for rejection of his bid.
- 2.2 The bid shall be valid for a period of 90 days from bid due date.

3.0 RIGHT TO REJECT THE TENDER:

- 3.1 IREL reserves the right to reject any tenders whatsoever without assigning any reason thereof.
- 3.2 IREL reserves the right to modify/ add/ reduce the scope, either in whole or in part any of the clauses mentioned herein without assigning any reason thereof.
- 3.3 Further IREL, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time to;
- a. suspend and/ or cancel the Bidding Process and/ or amend and/ or supplement the Bidding Process or modify the dates or other terms and conditions relating thereto;
- b. consult with any Bidder in order to receive clarification or further information;
- c. pre-qualify or not to pre-qualify any Bidder and/ or to consult with any Bidder in order to receive clarification or further information;
- d. retain any information and/ or evidence submitted to IREL by, on behalf of, and/ or in relation to any Bidder; and/ or
- e. independently verify, disqualify, reject and/ or accept any and all submissions or other information and/ or evidence submitted by or on behalf of any Bidder

It shall be deemed that by submitting the Bid, the Bidder agrees and releases IREL, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/ or performance of any obligations hereunder and the Bidding Documents, pursuant hereto, and/ or in connection with the Bidding Process, to the fullest extent permitted by applicable law, and waives any and all rights and/ or claims it may have in this respect, whether actual or contingent, whether present or in future.

4.0 PRICES:

Tenders offering firm prices are only acceptable to us. Firm Price shall be quoted as per the price schedule for delivery at designated works. GST as applicable is to be considered as per the Price Schedule of the tender document.

5.0 TENDER RATES:

- a) The rates quoted in the price schedule shall be in Indian rupees only. The quoted rates shall be firm throughout the period of Contract including extension of time, if any.
- b) If the bidder submits abnormally low bid in combination with other elements of the bid which raises material concern as to the capability of the bidder to perform the contract at the offered price, the bidder shall be asked to provide detailed price analysis of the bid in relation to the scope, schedule allocation of risk and responsibilities and any other requirements of the bid documents. If the bidder fails to demonstrate its capability to deliver the contract at the offered price the price bid shall be considered un-responsive.
- c) Organization is the final authority to judge the tender called items and has every power to accept or reject the same without assigning any reasons

6.0 PURCHASE PREFERENCE FOR MICRO & SMALL ENTERPRISES (MSE's)

6.1 Benefits, as prescribed by the MSME Policy of the Government of India shall be provided to MSE vendors registered as manufacturers for the goods procured or for the service providers. The procuring Entity reserves its option to give price preference to Micro and Small Industries in comparison to the large-scale industries as per policies of the Government from time to time.

6.2 RXIL (TReDS) PLATFORM

IREL is registered with RXIL (TReDS) platform. MSE bidders are requested to get registered with RXIL (TReDS) platform to avail the facility as per the GOI guidelines.

IREL (India) Limited is onboard with TReDS platform of M/s RXIL for facilitating Bill Discounting for MSME's.

As per DPE/7(4)/2007-Fin dt 21/08/2020, it is mandatory to get all the MSME vendors registered on the platform.

Vendors can get themselves registered at: https://onboarding.rxil.in/customerapp/home.

The registration fees of MSMEs on TReDS Platform is Free of Cost as per the new guidelines provided by SIDBI.

For any registration queries, vendors may please contact,

7.0 MAKE IN INDIA

For this procurement, Public Procurement (Preference to Make in India). Order 2017 dated 15.06.2017, 28.05.2018 & 29.05.2019 and subsequent Orders issued by the respective Nodal Ministry shall be applicable. The bidder to provide certificate for minimum 50% and 20% local content required for qualifying Class 1 Local Supplier. The bidder to provide needful certificate as a proof.

8.0 RESTRICTION ON PROCUREMENT FROM A BIDDER OF A COUNTRY WHICH SHARES A LAND BORDER WITH INDIA (AS PER GOI GUIDELINES AMENDED FROM TIME TO TIME)

The bidder to provide needful certificate.

9.0 IREL reserves the right to increase or decrease the quantity to be ordered up to 25 percent of bid quantity at the time of placement of contract. IREL also reserves the right to increase the ordered quantity by up to 25% of the contracted quantity during the currency of the contract at contracted rates. Bidders are bound to accept the orders accordingly.

10.0 EARNEST MONEY DEPOSIT (EMD)/ BID SECURITY

- 10.1 Earnest Money Deposit (EMD) is a deposit received from the tenderers in token of their earnestness in submitting their offer to undertake the supplies/works/services/consultancy contracts and conclude a contract if entrusted to them on the basis of their tender. The offers received from tenderers without EMD and/or tender cost shall be summarily rejected except where an exemption is provided in the tender.
- 10.2 EMD is to be remitted by way of 'Insurance Surety Bonds' or 'account payee demand draft' or 'fixed deposit receipt' or 'bankers cheque' or 'Bank Guarantee from any scheduled commercial Banks' or "online payment' in
- 10.3 favour of IREL. The payment details to be informed to Purchase Department well in advance enabling verification of receipt of the amount.
- 10.4 Government Body/Public Sector Undertakings may be exempted from payment of EMD with the approval of Competent Authority.
- 10.4 EMD amount in rupee value is to be mentioned as a fixed amount in the tender and not as a percentage of the estimated cost and no interest is payable on the EMD.
- 10.5 EMD shall be exempted to MSEs and Start-ups as per prevailing guidelines in this regard. Policy is meant for procurement of only goods produced and services rendered by MSEs. However, traders/distributors/ sole agent/ Works Contract are excluded from the purview of Public Procurement Policy for MSEs Order, 2012.
- 10.6 EMD is liable to be forfeited if:
- a. The tenderer changes the terms and conditions or prices or withdraw his quotation subsequent to the date of opening/ The tenderer impairs or derogates from the tender in any respect within the period of validity of the tender
- b. The tenderer fails to accept the order when placed or fails to commence supplies/works/services after accepting the order.
- c. In case bidder submits false/fabricated documents.
- d. d) In case bidder fails to submit SD as stipulated in the tender.
- 10.7 EMD may be adjusted against security deposit / performance security of the successful bidder. EMD of the unsuccessful bidders shall be returned to them at the earliest after expiry of the final bid validity period and latest by the 30th day after the award of the contract. Bid security shall be refunded to the successful bidder on receipt of performance security. However, in case of two stage bidding/ 2or 3 envelope bidding, EMD of unsuccessful bidders during first stage i.e. technical evaluation etc. shall be returned within 30 days of declaration of result of first stage i.e. technical evaluation etc.
- 10.8 In case where the EMD is provided in form of BG in the prescribed format to be attached with the tender, the BG shall be obtained from a scheduled commercial Bank with validity of 45 days beyond final bid validity period.

11.0 <u>SECURITY DEPOSIT (PERFORMANCE SECURITY) OR PERFORMANCE BANK GUARANTEE:</u>

- 11.1 Security deposit (SD) shall be uniformly levied @ 5% of contract value (excluding Taxes) towards satisfactory completion of the order/works as under:
- a) For works contract valued more than Rs.2 lakhs. b) For supply & service contract valued more than Rs.5 lakhs.
 - Performance Security is to be furnished by a specified date (generally 14 (fourteen) days after notification of the award) and it should remain valid for a period of 60 (sixty) days beyond the date of completion of all contractual obligations of the supplier/ contractor, including warranty obligations/ defect liability period (DLP).
 - In exceptional cases waiver of SD shall be approved by Competent Authority after recording the reasons for such waiver.

- Submission of SD/PBG, if called for in the tender can also be paid through Insurance Surety Bonds" or "account payee demand draft" or "fixed deposit receipt from a Scheduled Commercial bank" or "Bank Guarantee issued/ confirmed from any Scheduled Commercial Banks in India" or online payment to be confirmed sharing Unique Transaction Reference (UTR) to the tender inviting authority as called for in tender. In case of GTE tenders, the performance security should be in the same currency as the contract and must conform to Uniform Rules for Demand Guarantees (URDG 758) an international convention regulating international securities. In case of JV, the BG towards performance security shall be provided by all the partners in proportion to their participation in the project. Bank Guarantees towards Bid Security/ Security Deposit/ PBG issued by Nationalized Banks/ Scheduled Commercial Banks (other than Cooperative Banks) only acceptable.
- 11.3 In exceptional cases of work contracts, the approving authority may consider Recovering balance SD (in addition to EMD if it is given not in BG form) amount from 1st running bill of the contractor which shall be specifically mentioned in the tender document itself.
- 11.4 EMD/ Bid Security may be adjusted towards SD. However, if EMD is submitted in the form of Bank Guarantee, fresh Bank Guarantee in the prescribed format or demand draft/ bankers cheque is to be submitted towards SD.
- 11.5 BG format for security deposit is attached in Annexure-XIV.
- 11.6 The SD shall not bear any interest and is liable to be forfeited for unsatisfactory completion or on abandonment of the supply/ work order.

Additional amount of SD due to enhancement in scope of work is also to be batined.

12.0 <u>RETENTION MONEY</u>

- 12.1 Where in a contract, payment is made on progressive billing of work executed, 5% of the bill value shall be retained at the time of making payment towards rectification/defective work made a s retention money.
- 12.2 The total SD and retention money together towards performance guarantee shall not exceed 10% of the contract value.

13.0 REFUND OF SD AND RETENTION MONEY

- 13.1 Before releasing SD or retention money in respect of supplies/works, a "No Due Certificate" shall be issued by EIC/OIC duly countersigned by head of the department after ensuring that no amounts are recoverable from the supplier/contractor.
- 13.2 EIC/OIC shall recommend release of SD and retention money after compliance by the contractor towards guarantee/warranty/performance guarantee & other related clauses as stipulated in the purchase/work order and on submission of formal claim by contractor.
- 13.3 On receipt of "no dues certificate" from EIC/OIC, SD or retention money retained in the form of B.G and / or any form shall be refunded at the earliest, if the contractor is not liable to pay any money to IREL (India) Limited under any other contract.

14.0 FORFEITURE OF SD & RETENTION MONEY

The SD & retention money shall stand forfeited in favor of IREL (India) Limited, without any further notice to the contractor in the following circumstances:

In case of any failure whatsoever on the part of the contractor at any time during performance of his part of the contract including the extended periods of contract, where notice is given and time for rectification allowed.

If the contractor indulges at any time in any subletting/sub -contracting of any portion of the work without approval of IREL (India) Limited.

PRE-QUALIFICATION CRITERIA

Tenderer should meet the following minimum pre-qualification criteria:

1. <u>TECHNICAL COMPETENCE:</u>

Bidder Should be experienced in having successfully executed similar works as detailed below in CPSUs / Central Govt. Dept./ State Govt./ Semi- Govt./ Autonomous bodies or private organizations during last seven (7) years ending August 2025 and meeting the value requirement as below.

(i) Execution of at least one order for "similar work for a value of not less than Rs.75.17 Lakhs"

OR

(ii) Execution of two orders for "similar works for a value each not less than of Rs.46.98 Lakhs"

OR

(iii) Execution of three orders for "similar works for a value each not less than of Rs.37.58 Lakhs"

Definition of similar work(s): Any civil work such as construction of RCC structures / buildings / bridges / culverts / tanks / dams or repair / modification / renovation / retrofitting works etc., having RCC part/component in its bill of quantity or price schedule.

Intending bidders have to furnish documentary evidence in support of the qualification criteria from concerned authority/department / organization for similar work executed like Copy of proof of execution of work / Completion certificate / Performance Certificate / copy of tax invoice along with copy of work order(s) satisfying above PQ.

2. **FINANCIAL SOUNDNESS**:

Average annual financial turn over during last three years ending March 2025 shall not be less than Rs.28.18 Lakhs. Financial Statements of latest IT Returns / Annual report containing balance sheet & statement of profit & loss account for the above periods is to be submitted. In case of Public/ Private Limited companies, Published annual accounts will be accepted.

3. <u>CONCURRENT COMMITMENT</u>

In order to assess Bidder's capability and spare capacity to perform the assignment of execution of works, bidders should submit all works being executed by them as per the format given below:

Sl.No	Full postal address of client and name of officer in-charge	Description of the work	Value of contract	Date of commence ment of work	Scheduled completion period	% completion as on date	Remarks
1							
2							

3.1 <u>CRITERIA FOR DISQUALIFICATION</u>

The annualized concurrent commitments of the bidder plus annualized estimated value of the work under consideration exceeds 4 times the average annual turnover of the preceding 3 years.

SPECIAL CONDITIONS OF CONTRACT (SCOC)

1.0 SCOPE OF THE WORK

The technical details of the work are as follows:

- 1.1. The new laboratory building is proposed to construct near existing R & D / QC lab building of size $15m \times 8m$ to a height 5.0m. The proposed building is single story RCC framed structures with isolated footings, infill masonry wall, aluminium windows, doors, false ceiling, laboratory facility etc.,
- 1.2. The scope of work includes providing detailed structural design of RCC building includes foundation, super structure considering the all type of loads coming on the structure with latest & relevant IS codes using suitable software, submission of design basis report, providing architectural & reinforcement detailed engineering drawings of all structural components, getting building approval from local municipality for construction clearance, drawings for roof supports, certification of all drawings by charted structural Engineer.
- 1.3. Engaging portable grass cutting machine for cutting of wild growth of grass, bushes around the QC Lab, R&D, and other locations inside factory premises as directed by engineer in charge.
- 1.4. Cleaning of vegetation in proposed site location by required machineries, leveling of earth & taking existing levels by surveying using required & suitable instruments, Earthwork excavation by mechanical or manual including removing all waste materials, dewatering etc,. The Contractor shall backfill around structures & consolidate after the structural elements have attained adequate strength.
- 1.5. Dismantling, chipping, removal of concrete / rubble / brick masonry etc., using portable heavy duty concrete breaker machine / jag hammer or manually including cutting of re-bars using grinder/gas cutter & removing of all debris generated. The waste generated during the work shall be shifted to location shown by EIC, dumping, levelling as directed within a distance of 950m inside factory premises.
- 1.6. Providing & laying PCC (1:2:4) using 20mm nominal size granite broken stone, machine mixed and properly consolidated with rammers including cost, conveyance of all materials, labour, shuttering work at ends, curing etc., complete as directed by Engineer in-Charge.
- 1.7. Providing & laying RCC M30 grade design mix as per IS 456 with minimum cement content of 380 kg/m³, by using machine mix or ready mix concrete of all RCC works by using 20-10mm downgraded stones, mechanically vibrated, consolidated, curing complete as directed by Engineer in-Charge.
- 1.8. Supply & fixing of high yield strength deformed (HYSD) Fe500 grade, cutting to required size, bending and placing in position and binding with 18/20 gauge black/ GI tying wire.
- 1.9. Providing form work for all RCC works (Reinforced cement concrete), usage of suitable thickness shuttering plywood with sufficient wooden runners or MS shutters, supports shall be enough strength to withstand the load during pouring of concrete & it should properly sealed with suitable material to prevent leakage from concrete slurry. The removal of form work is done after reaching the strength of concrete.
- 1.10. After casting RCC concrete for slabs, beams, columns, lintels as well as masonry work and plastering, it should be cured properly for 14 days from the date of casting of concrete. For roof slabs, ensure water stagnation by using temporary bunds and for columns and beams, cover them with gunny bags and perform curing. Curing should be done four times in a day to ensure proper prevention of hydration and attain full strength at site.
- 1.11. Providing masonry work in CM 1:5, using Autoclaved Aerated Concrete blocks of 200mm thick laying with joint mortar of polymer modified adhesive material as per manufacture recommendation and as directed by Engineer-in-charge including raking out joints, finishing to proper lines & levels.
- 1.12. Providing cement plaster CM 1:4, 12mm average thick for fair faces using good quality P-sand, one coat floated hard and trowelled smooth, finished with a floating coat, rough slurry coat shall be provided before plastering to avoid any cracks, finishing in proper line & level by fixing button marks on walls, applying cement grout as final finish and curing etc., for completion of work as directed by EIC. All construction joints of beam & columns, beams and masonry wall shall be plastered with 110 GSM fiber mesh to avoid joint cracks due to temperature.

- 1.13. Providing water beading of width 50mm, 15mm thick in edge of sunshades & slab using CM 1:3, proper line & level to act as a waterproof barrier, including conveyance of materials, necessary staging, labour etc.
- 1.14. Supply & painting interior surface of buildings and ceiling as directed by Engineer in charge with one coat of cement primer, one coat exterior primer & two coats of water based premium grade acrylic emulsion finish paint after thorough surface preparation, prepared & applied as per manufacturer's recommendation.
- 1.15. Supply and painting of the exterior surface of the buildings which includes masonry walls, RCC columns, beams, sunshade and other masonry surface etc., with one coat of cement primer, one coat exterior water based primer and 2 coats of Polyurethane based finish paint for smooth finish and better appearance as per approved colour, pattern as directed by EIC.
- 1.16. Providing and fixing 18 mm to 20mm thick mirror polished, machine cut, good quality granite top, jet black and plain texture laid over the concrete slab / bed after chipping for proper bonding. The granite must be fixed using suitable adhesive; the joints shall be done using suitable joint filers, mixed with matching pigment, epoxy touch ups, including rounding all the edges, rubbing, curing, levelling etc., for carrying out the complete work.
- 1.17. Fabrication, Supply & Fixing of Aluminium partition, up to a height of 4.30m from finished floor using premium quality aluminium profiles of size 63mm X 38mm X 2mm sections and ACP sheet of 6mm thick etc, including welding / finishing the edges, joints properly, beading air tight closure using EPDM gasket, all accessories, fixing at site etc., complete.
- 1.18. Fabrication, Supply & fixing powder coated aluminum door, windows of required size. The outer frame 80mmx45mm, 1.20mm thickness shall be fixed rigidly into the masonry wall using suitable fasteners at regular intervals & filling all the edges & corners, damaged area, gaps by suitable silicon sealant as directed by EIC.
- 1.19. Supply and fixing of fully glazed frameless double door using 10mm thick toughened tinted glass, (make-Saint gobain or Modi guard) with premium quality floor springs of make Ozone/Geze/Dorma/Hettich, dual swing, suitable to door weight, SS H type handles (32 X 350mm) at front & back, chrome finish patch fittings (bottom, top, L) at all corners, push & pull marks, stoppers, providing lock at center, provide silicon rubber bleeding and all other necessary accessories as approved by Engineer-in-charge.
- 1.20. Providing and fixing M.S. grills of required size & pattern in openings of windows with MS Flats (25x6mm) & round bars (8mm dia), including grinding, buffing, painting with two coats of enamel paint as directed by EIC.
- 1.21. Providing & fixing good quality vitrified floor tiles, full body, anti-strain & scratch resistant of make: Khajaria/Nitco/SoMany/Jhonson approved design, shade & finish, laying with CM 1:4 mix 20mm thick on floor, providing spacers between the tile joints 4mm and filling the gap using suitable epoxy joint fillers to full depth of make Laticrete/Kerakoll/Mapei as directed by EIC.
- 1.22. Providing & fixing good quality polished vitrified full body wall tiles of make: Khajaria/Nitco/SoMany/Jhonson, 8mm thickness of approved design, shade & finish, to be fixed all-round the wall up. The waste generated during the work shall be disposed into our disposal yard as directed by EIC.
- 1.23. Supplying, filling, laying & levelling gravelly red earth of good quality as approved, compacting with vibratory rollers, watering and well consolidated properly for heavy vehicle movement.
- 1.24. Providing suspended false ceiling at a height of about 3.60 m from the floor level with T & L type powder coated GI supports, laying aluminium ceiling tile of size 600mm x 600mm, 0.7mm thick, grid paneling type, plain shade, off white colour, powder coated, suitable ties / hanging supports etc., complete.
- 1.25. Supply and fixing of PVC pipe 25mm-50mm dia PVC pipe of 15 kg/cm² pressure rating including bends, tees, brass threaded elbows for fixing angle cocks, bib cocks, any other specials required for the work etc.
- 1.26. Supply and fixing of PVC pipe 60-110mm of 4kg/cm² pressure rating including bends, tees, Y joint, door elbows and any other accessories / specials required for the work for laying & fixing drain lines, sewer line, fixing water closet (western type or Indian type toilet) outlet drains etc., sealed with suitable rings, joint sealants, fillers and make line complete leak proof. The work also includes supply & laying rain water down take pipe from roof slab using PVC pipe 110mm dia 4 Kg/cm² pressure rating, all specials like elbows, bend etc., fixing channels & U rods of 7mm dia @ 1.0m spacing firmly fixed in to masonry wall.
- 1.27. Supply and erection of RCC septic tank of size 1.15m x 2.50m, 3000 liters capacity and soak pit, tank with baffle walls / chambers, wall thickness of 50mm with necessary manholes cover, soak pit of 1.10m height and 0.90m diameter along with all necessary fittings and accessories.

- 1.28. Supply and fixing sanitary fittings such as European closets / wash basins / shower/ shower cock/ pillar cock/ health faucet/ bib cock/ mirror, etc., in position to proper lines & levels without any leakage and make it in workable conditions.
- 1.29. Supply and fixing WPC doors suit to existing site condition, with door frame, fully moulded of single leaf of thickness 28mm, wooden shade, door frame section size 100mm x 50mm with heavy duty SS hinges of 100mm (4Nos), handles, tower bolts, aldrop & fixing properly using anchor bolts / suitable fasteners making it workable condition etc., for carrying out the complete work.
- 1.30. Providing & laying factory made cement concrete interlocking paver blocks of M30 grade made by block making machine with strong vibratory compaction, of approved size , design, shape and colour .
- 1.31. Supply, fabrication & erection using GI structural hollow tubular / rectangular sections for roofing works, truss, bracing, stiffeners, base plate, tie beam, lattice structure, purlins, cross supports, ladder, gates, doors with heavy-duty MS hinges, arch type roofing connection between QC lab & R and R&D lab and other supports as per approved sections as directed by Engineer in charge. The work includes cutting, hoisting, fixing in position, welding, bolted with suitable washers, anchor bolts to concrete structure, closing the open end of each section, surface cleaning, applying one coat of epoxy primer & two coats epoxy finish paint.
- 1.32. Supply, laying & fixing of colour coated (aluminium-zinc alloy) roof sheet of thickness 0.5mm (TCT), AZ-150 GSM coating, 550 Mpa tensile strength, for roofing, all accessories such as curves, ridge, crimpling sheet, industrial trafford profile, grey colour, including fixing with suitable size SS/ Alloy coated self-tapping screws of size 5.5mm x 55mm for metal roofing to tublular purlin, applying weather resistant silicon sealant over the screws etc., make the roof leak proof as required to suit the existing site conditions.
- 1.33. The work must be carried out generally as per the technical specification and the contractor must be willing to undertake minor changes to suit the site conditions and as per company requirements. The successful contractor must ensure full compliance of the directives of Engineer-in-charge during every stage of work.

2.0 SCOPE OF SUPPLY OF MATERIALS

- **2.1** IRE will provide the following utilities free of cost
 - a. Electricity & Water (at existing point only)
- 2.2 If Electricity and water is included in the list of utilities under free supply by IRE, it will be made available at a single point from where the contractor shall make their own arrangements for using the same, following the safety regulations practiced in IREL.
- 2.3 All other materials, working implements, safety gadgets, labour including consumables etc., required, are in the Contractor's scope of supply.

3.0 <u>LIST OF MATERIALS OF APPROVED BRAND AND / OR MANUFACTURERS</u>

1	Reinforcement (HYSD)	SAIL/ VIZAG/ TATA/JSW/ ESSAR	
2	Cement	ACC, Malabar, Ultra Tech, Ambuja, Birla, Chettinadu, Ramco, Coromondal, Zuari, Dalmia& India Cements (Not applicable for ready-mix concrete).	
3	Ready Mix Concrete	Ultra Tech/ ACC/ RMC Ready Mix India Pvt Ltd/ Neptune or Equivalent having in-house testing lab facility	
4	Paint & Primer ,cement primer	Asian/Berger/Indigo/Nerolac	
5	Floor / Wall tiles	Khajaria/Nitco/SoMany/Jhonson	
6	Joint fillers & tile adhesive	Laticrete / Kerakoll / Mapei	
7	False ceiling	Armstrong	

8	GI structural hollow circular / tubular section	Tata Structura
9	Roof sheet	Tata BlueScope
10	Self-tapping screws for roof sheet	EJOT / CORROSHIELD/TATA
11	Sanitary fittings	Jaquar / Kohler / Toto
12	PVC Pipe	Finolex / Supreme / Astral
13	Aluminium Partition	TOSTEM/DORFEN/ ETERNIA/HINDALCO
14	Aluminium door/window	TOSTEM/DORFEN/ ETERNIA/HINDALCO
15	Door ,floor spring & closer	Ozone / Dorma / Geze

4.0 DURATION OF CONTRACT

- 4.1 The work shall be commenced within 10 days of receipt of work order.
- 4.2 This CONTRACT shall remain valid for a period of 8 months from the date of receipt of work order. However, IREL (India) Limited reserves the right to terminate the contract at any time before the expiry of the normal tenure in case service is found to be deficient/ unsatisfactory.
- 4.3 Seven days' time from the date of dispatch/posting of work order/letter by IREL will be considered for the receipt of work order unless proven otherwise by the contractor.
- 4.4 Permitted work timings inside factory premises is from 0800 hrs to 1600 hrs. Any request for extension of time will be entertained only in case of exigencies under the sole discretion of E-I-C.
- 4.5 Hindrance register & Daily log register showing description of work, number of labours engaged, location of work on each day from date of commencement shall be maintained by the successful bidder. In addition, any delay on the part of IREL in handing over the site or stoppage of work-in-progress for its production/maintenance requirements or site constraints due to heavy rainfall or floods which affecting the progress of work or any unsafe condition to carry out the work etc., shall be recorded in hindrance register by contractor on each day. The time of completion will be extended with number of working days affected due to valid / genuine reasons observed in Hindrance register after certified by EIC. However, it is the responsibility of the contractor to bring the above hindrances to the attention/notice of the EIC and jointly record in the register within 3 working days' time of hindrance occurred otherwise the same will not be considered for any extension of time.

5.0 PAYMENT TERMS

- 5.1 95% of the actual executed contract value (final bill amount) less statutory deductions applicable and part payments shall be released on completion of the entire work in all respects within 30 days on due certification of Bill by our Engineer-in-Charge.
- 5.2 You shall submit to IREL account bill (also known as 'Running account Bill') showing the quantity of work executed till the date of raising the bill accompanied by detailed and abstract measurements.
- 5.3 Part payment will be made based on the following conditions,

No payment will be released below Rs. 5,00,000/-

Payment will be released on the basis of actual measurements of work done; such part payment will be 95% of the amount payable to the contractor along with 100% of taxes & duties on certification of Engineer-in-charge.

- You shall have to submit the Final bill immediately after completion of work but not later than a maximum period of 40 (forty) days after successful execution of work along with all relevant documents such as certified measurements, material reconciliation statement, statement of materials and scrap returned to stores, labour payment, PF clearance etc. If you fail to submit the final bill within the stipulated period then your claim for payment may not be considered.
- 5.5 The final bill shall be checked by Engineer-In-Charge within 20 days after its receipt and returned to you for corrections, if any are needed. You have to resubmit the bill with corrections within 20 days of its return by Engineer-In-Charge. The resubmitted bill shall be checked and paid within 30 days of its receipt.

- 5.6 TDS will be deducted by IREL (India) Limited from the bills of the contractor as per IT Act'1961 & GST act and rules.
- 5.7 No Mobilization advance or Secured advance will be paid for the work.
- No other advance unless and otherwise stated elsewhere in the documents such as General Conditions of Contract, Special Conditions of Contract, etc. shall be payable.
- 5.9 The contractor is responsible and liable to remit all statutory dues, collected/included in the Price Schedule of the contract, to the Statutory Authorities without fail. IREL is not responsible for remittance of such tax collections.
- 5.10 Balance 5% retained from each running account bill plus security deposit if any will be returned after the warranty period or against submission of bank guarantee for the said amount & period.

6.0 GUARANTEE

The entire work done by the contractor must be guaranteed against poor quality of materials supplied & workmanship for a period of Twelve months from the date of completion.

7.0 <u>ENGINEER-IN-CHARGE (EIC)</u>

K.Sankaralingam, Manager - Technical (Civil) will be the Engineer-in-Charge for this work

8.0 <u>SAFETY, SUPERVISION & HOUSE KEEPING</u>

- 8.1 The contractor is fully responsible for carrying out the work in safe manner. Successful contractor has to carry out the work with utmost care and as per the rules laid down by IRE safety department. Safety permit for working at heights and hazardous areas must be obtained on daily basis prior to starting of the work. Every effort must be taken to see that, as far as possible the normal production work should not get affected due to the work.
- 8.2 Contractor has to ensure that qualified supervisor is provided at the site for ensuring the progress of the work and availability of all safety appliances to the workmen.
- 8.3 Safety belt, face mask/respirator shall be used by the personnel while working inside the plants. The safety belt shall be suitably anchored to the structural members inside/lifeline provided using wire rope.
- 8.4 The work must be carried out under close supervision and without causing any damage / hindrance to the existing structure or equipments and other activities in the surrounding areas.
- 8.5 The work spot shall be cleared of the waste materials / debris on daily basis. On completion of the work, all working implements, scaffoldings, excess materials if any etc., must be removed from site.
- 8.6 Special Work Permit shall be obtained for working at heights and other hazardous areas as specified by Safety department prior to commencement of work on each day.
- 8.7 The contractor must provide Personal Protective Equipments like safety shoes, helmet, gloves, goggles etc., for their workmen suitable for the working environment and also as per the advice of Safety-in-charge / Engineer-in-charge.
- 8.8 The scaffolding used for height work shall be of Mild Steel tubular type with base plate, necessary bracings and working platform must be provided using MS Shuttering sheet/ wooden planks with hand rails. Materials used must be of good quality and strength.
- 8.9 Safety net shall be provided by the contractor for the repair works of roof structural and such repair works at height. If the same is not provided by the contractor, safety net can be used from IREL for which an amount of Rs. 1000/- will be deducted from the bill as a penalty for not following safety requirements for each day of issue of safety net by IREL.
- 8.10 For work at height (at a height more than 3 mtrs), the contractor shall provide rope Access systems and Personal Protective Equipment for protection against fall as per ISO-22846-1:2003 and 22846-2:2012. No extra cost shall be paid for this special safety arrangement

8.11 The contractor shall engage supervisory personnel at site having degree (B Tech /BE in Civil Engineering) having one year experience OR Diploma in Civil Engineering with minimum 3 year post qualification experience in civil construction or repair & maintenance works. Non compliance of the same shall attract a penalty of Rs. 1000/- per day from the date of commencement of work.

9.0 <u>INSPECTION & TESTING</u>

- Cube testing shall be carried out during the progress of the work to ascertain the quality of work. The number of concrete cubes to be tested shall be as per IS: 456. However, in case of ready-mix concrete confirming to IS: 4926, the number of cubes to be tested shall be as per the provisions in the standard. The concrete cubes shall be casted at site as per relevant IS standard and tested at approved laboratories (CUSAT, GCDA or any other NABL accredited lab etc., with prior intimation to/permission of EIC) on 28th day from the day of casting of the cubes. The laboratory test results shall be tabulated and furnished to Engineer in charge (EIC). The EIC will pass the concrete if average strength of the specimens meets the requirement specified in the relevant IS codes. In addition to this, the contractor may provide test certificate from the RMC manufacturer, if instructed. The transportation & testing charges shall be borne by the contractor.
- 9.2 If any portion of the works fails to pass the tests, test of the said portion shall, if required by the Engineer-in-Charge or by you, be repeated within a reasonable time on the same terms and conditions and all reasonable expenses for the repetition of the tests shall be borne by you or deducted from the amount due to you. In lieu of repeat cube test, you shall arrange of core testing as per relevant IS standards.
- 9.3 Concrete of each grade shall be liable to be rejected if it is porous or honeycombed, its placing has been interrupted without providing a proper construction joint, reinforcement has been displaced beyond the tolerances specified or construction tolerance have not been met. However, the hardened concrete may be accepted after carrying out suitable remedial measures to the satisfaction to the Engineer-in-charge.
- 9.4 Curing shall be carried out after the completion of concrete, next day by providing necessary bund to stagnation / pond of water for 14 days minimum

10.0 **VARIATION IN QUANTITIES**

Quantities stated under each item in the Specification or Bill of Quantities/Price Schedule is approximate only. The contractor must be willing to accept any variation in quantities and the unit rate quoted shall remain unchanged. The company reserves the right to cancel any part of the work if the same is not required to fulfill the objectives of the specific work contract.

11.0 <u>SITE INSPECTION</u>

- 11.1 The bidders are advised to inspect the site before submitting their quotation.
- The bidders may check the existing site conditions, location of work & assess of structural components, site constraints, adjacent plants/structure, and possibility of making working platform for site work and the space available for carrying out the work.
- Interested bidders can inspect the site on any working days at our specified visiting hours with the permission of Engineer concerned of Civil Section/Purchase Dept.
- 11.4 The bidders are also advised to study the labour supply / availability, trade union practices and labour rates prevailing in and around the Udyogamandal industrial belt.

12.0 OTHER CONDITIONS

- 12.1 The any work carried out in site shall be considered as per actual site measurement. Higher side tolerance in any case will not be considered for payment.
- If proper curing is not provided, compromising the quality of the material, or if improper workmanship affects the water leakage, thermal cracks in RCC slabs, beams, and columns, the contractor should perform PU injection grouting on slabs, beams, columns, and other affected areas at no additional cost. The locations for the grouting will be as directed by the Engineer-In-Charge (EIC).

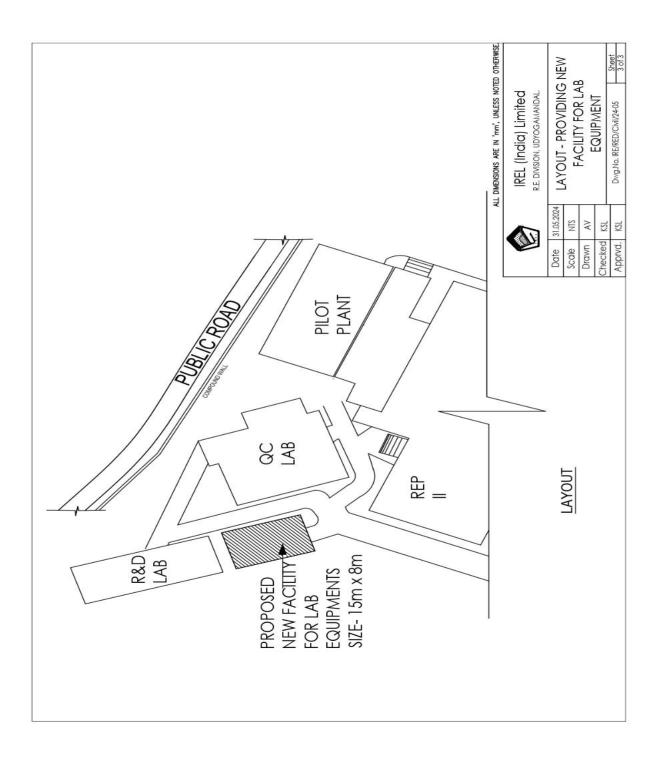

- 12.3 Finally clearing away of all rubbish surplus materials, plant, etc, on completion of the work and dressing and levelling off and restoring the site to a tidy condition prior to handing over the work to the Engineer-in-Charge or his authorized assistant and also its maintenance until so taken over.
- 12.4 No workmen below 18 years will be permitted to work. For all hazardous works experienced personnel shall only be engaged.
- 12.5 The contractor shall engage supervisory person at site having degree (B Tech / BE/ Diploma in Civil Engineering) with minimum 3 year post qualification experience in civil construction work. Non-compliance of the same shall attract a penalty of Rs.1000/- per day from the date of commencement of work.
- 12.6 It is the sole responsibility of the contractor for bringing their materials, tools & equipments in safe custody to keep in storage for construction purpose. IREL is noway responsible for any loss/damage of property/item/machineries/tools/equipemts/materials brought by contractor during the period of contract inside our factory premises.

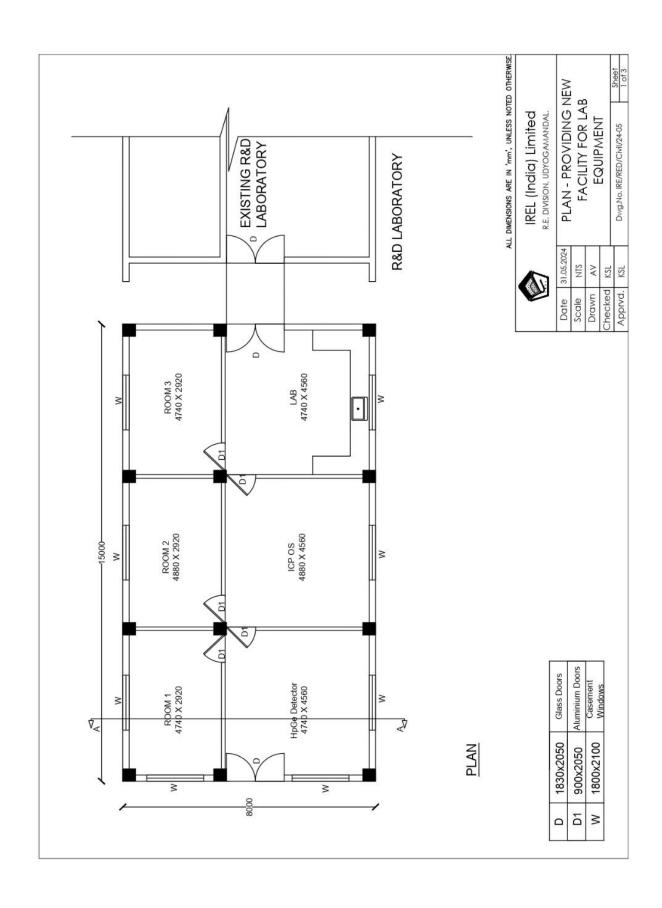

13.0 PENALTY FOR NON-COMPLIANCE

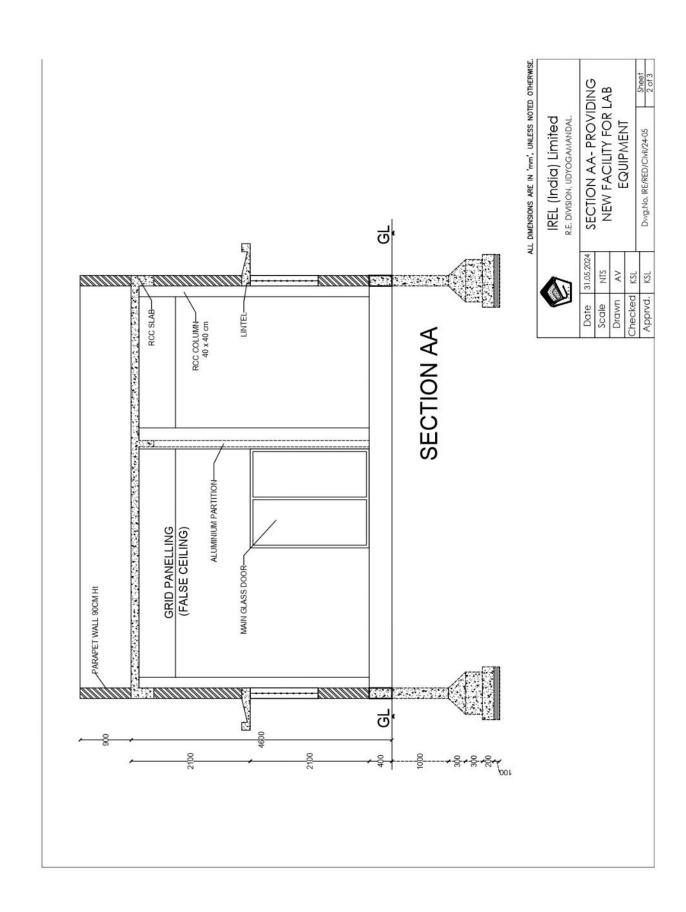

In order to ensure 100% compliance of safety related regulations and procedures and non-use of PPE, penalty will be imposed on the contractor for not adhering to safety rules & regulations. The contractor must endeavour to avoid penalty by encouraging, motivating and making their employees aware about all the Safety regulations.

S1. No.	Safety violation	Penalty
1	Non-use of PPE like Helmet/Safety shoes etc.	Rs. 250/-per day/item/person
2	Hot work without proper permit/clearance	Rs. 1000/- per occasion
3	Non-use of ELCB, use of non-standard socket, poor cable joint, laying wire/ cables on roads, electrical job by incompetent person, use of more than 24V power in confined space	Rs. 500/- per item/day
4	Working at height without safety belt, using non- standard scaffolding and not arranging fall protection arrangement	Rs. 500/- per case/day
5	Handling of compressed gas cylinders without trolley, jubilee clips, double gauge regulator & improper storage & handling	Rs. 200/- per item/day
6	Non deployment of safety supervisor/supervisor responsible for safety at work site	Rs. 1000/- per day

DRAWINGS

Bill of Quantity

Item no	DESCRIPTION OF WORK	Qty	Unit
1	Submission of design basis report with detailed calculation using relevant software and submission of reinforcement drawings as per latest, relevant IS codes and certified by chartered structural Engineer. Statutory approval from local authorities for construction clearance, building permit etc. (other than govt. fee). Submission of Architectural drawings such as Front Elevation, Side views, Roofing - 3 D views etc The rate includes approval costs, travel expenses, design charges, preparation & submission of required drawings, site visit by charted structural engineer and other requirements required for completion of the entire work in all respects to the satisfaction of Engineer-in-charge.	1	LS
2	Engaging portable grass cutting machine for cutting of wild growth of grass, bushes around the QC Lab, R&D, and other locations inside factory premises as directed by engineer in charge. The rate shall include hire charges of grass cutting machine, labour charges, fuel cost, tools & consumables etc. to carry out the complete work including all machineries and tools.	170	m²
3	Earthwork excavation by mechanical means & as directed, in all classes of soil up to a depth of about 2m from the existing earth level & as required to suit site conditions including removing all waste materials, cutting of trees, clearing scraps etc., which comes in proposed area, strutting, shoring wherever required to prevent sliding of soil, bailing out ground water from any depth required for the work without fail & pumping to earthen pits or wells to be specially made for collection of ground water within a distance of 250m, dressing, ramming the bottom of excavated level, making the surface suitable for concreting, shifting of excavated soil from the site and then bringing back the same partly for refilling purpose at required places up to the top level as directed in multiple layers including consolidating each layer by watering, ramming using vibratory rollers, disposing off all waste material/ excess earth within a distance of 950m & levelling the disposed material properly as directed by EIC etc., complete. No extra charges are payable for shifting, transportation, levelling etc. (No extra quantity for working space more than 30 cm from the edge of PCC will be measured and paid.)	105	m³
4	Dismantling, chipping, removal of concrete / Rubble masonry / brick masonry etc., using portable heavy duty concrete breaker machine/ jag hammer or manually including cutting of re-bars using grinder/gas cutter & removing of all debris generated. The waste generated during the work shall be shifted to location shown by EIC, dumping, levelling as directed within a distance of 950m inside factory premises. The rate shall include the hire charge of breaker machines, vehicles and tools required for the work, gas cutting set, transportation of waste, labour charges etc., complete.	17	m^3
5	Providing & laying PCC (1:2:4) using 20mm nominal size granite broken stone, machine mixed and properly consolidated with rammers including cost, conveyance of all materials, labour, shuttering work at ends, curing etc., complete as directed by Engineer in-Charge. Measurement will be taken for compacted layer by actual thickness at site. Supply quantity will not be considered for payment. The rate shall include cost & conveyance of all material, electric & diesel vibrator labour charges, tools & machineries required etc., to carry out the complete work.	25	m^3

6	Providing & laying of Reinforced Cement Concrete RCC (M30 Grade as per IS 456) with a minimum cement content of 380 kg/m³ of concrete by using 20-10 mm downgraded stones, machine mixed, mechanically vibrated, consolidated, curing, including usage of quality material as approved, cost, conveyance, lead, lift of all materials, labour, necessary scaffolding etc., but excluding cost of formwork and reinforcement work which will be paid separately under relevant item. Wherever possible Ready Mix Concrete may be carried out at required places as directed by Engineer-in-charge with prior approval. Supply quantity will not be considered for payment. The rate shall include labour charges & cost of all materials including cement, scaffolding charges, staging, working platform, electric & diesel vibrator for compaction etc. for carrying out the complete work.	90	$ m m^3$
7	Supply & Laying reinforcement High yield strength deformed bars Fe 500 grade, cutting to required size, bending, straightening & placing in position, binding with 18/20 gauge black annealed /GI tying wire, including lead, lift of reinforcement to work site, laying as per drawing and directed by Engineer-in-charge (Weight of steel bar shall be taken as per relevant IS standard). The rates shall include labour charges, cost of reinforcement, & binding wire, cover blocks, tools, etc., for carrying out the complete work	10	t
8	Providing centering and shuttering including strutting, propping etc for footings, plinth beams, Tie beam & columns, lintels, sunshade, slab, using plywood with sufficient wooden runners or MS sheets with enough strength to withstand the load of mechanical vibrator during compaction of concrete & it should properly sealed with suitable material to prevent grout leakage from concrete. The removal of formwork is done after reaching the strength of concrete. The rates shall include labour charges for fixing and removal of formwork after use, rental charges / cost of materials, transportation, scaffolding, working platforms, H-frames, etc., required for the complete work.	488	m²
9	Providing masonry work in CM 1:5, using Autoclaved aerated concrete block of required size, laying using cementitious polymer-modified adhesive joint mortar including raking out joints, finishing to proper lines & levels, chipping or hacking the existing floor concrete / columns / beam surface for necessary bonding, curing, etc., complete at all levels. The rate shall include cost & conveyance of all materials, labour charges for lead & lift of all materials, mixing, scaffolding, working platforms, curing etc., for carrying out the complete work.	40	m^3
10	Providing Plastering in CM 1:4, 12 mm thick average in masonry structure by application rough coat first, then finished to required thickness mixing & application one coat neat finish of cement grout with mortar, finishing smooth to proper line & level, fixing button marks, before plastering all construction joints (beam / columns & masonry wall) shall be laid with 110GSM glass fibre mesh cloth of width 1.0m to prevent any cracks, all required for completion of work as directed by EIC. The rate shall include cost & conveyance of all materials & labour, supply & fixing charges, scaffolding, working platforms, curing etc., for carrying out the complete work.	670	m²
11	Providing cement mortar beading of width 50mm in edge of sunshades & slab for rain water dropping using CM 1:3, proper line & level to act as a waterproof barrier, including cost & conveyance of all materials, necessary scaffolding, staging, labour charges etc., complete in all respects as per the direction of Engineer in charge The rate includes scaffoldings, working platforms, curing, tools & equipment, cost & conveyance of material etc. for carrying out the complete work.	150	Rm
	Supply & painting interior & exterior surface of buildings including wall, columns, beams, footings, slab etc with one coat cement primer ,one coat of exterior water based primer & two coats of water based premium grade acrylic emulsion finish paint after thorough surface preparation by using		

		Π	
	emery paper/ sand / wire brushes/ scrapper, high pressure jet wash cleaning etc., necessary scaffolding & staging, mixing & application of paint as per manufacturers specification, disposing the waste within 950m distance inside factory premises, all required for the completion of work as directed by the Engineer-in-charge. Successive coat of paint shall be applied only after hard drying of the previous coat. Minimum 24 hrs should be given between successive coatings. The colour shade shall be got approved before commencement of work. Note: - for interior painting floors, windows, doors, partition wall, wash basin, sink etc. all should be covered properly using tarpaulin & it should be cleaned after completing the painting work. The rate include cost & conveyance of all materials & labour cost, consumables, scaffolding ,working platforms , tarpaulin cover, tools & equipment's for painting, cleaning after painting etc. to carry out the complete work.		
12	Interior surface (Premium quality finish paint- Apex Ultima Proteck of Asian paints or equivalent make of BERGER/INDIGO/NEROLAC)	260	m ²
13	Exterior surface (Aquagreen WB PU FIN White -Berger, Nerolac, Asian Indigo)	250	m ²
14	Providing and fixing 18 mm to 20mm thick mirror Polished, machine cut, good quality granite top, jet black and plain texture laid over the concrete slab / bed, approved shade & finish of required size as suit to site condition, fixing using suitable adhesive, the joints shall be done using epoxy joint filers, mixed with matching pigment, including rounding all the edges & corners, rubbing, curing, proper line & level etc., for carrying out the complete work. Sample granite shall be got approved from civil dept before commencement of work. The rate shall include cost of all materials, tools & equipment, labour charges etc. for carrying out the complete work.	6	m²
15	Fabrication ,Supply & Fixing of aluminium partition using premium quality profiles to a height of 4.30m from finished floor with 63mm x 38mm x 2mm sections equally divide the length & height according room dimension @ 1 to 1.20m c/c and providing ACP sheet of 6mm thick at bottom & top, 6mm thick toughened clear glass of height 1.0m at middle portions generally as per site conditions, including welding/finishing the edges ,joints properly ,beading air tight closure using EPDM gasket, all accessories ,fixing at site etc., complete. The rate shall include cost & conveyance of all materials, fabrication, supply & fixing charges, necessary scaffolding staging, working platforms etc. for carrying out the complete work.	100	m²
16	Fabrication, Supply & fixing powder coated aluminium door partially glazed with section size of 80x45mm,1.20 mm thickness, frame of thickness of 60mmx40mm, top portion using 6mm thick clear toughened glass of height about 90cm approx., bottom portion using ACP sheet of 6mm thick or nearest, joining the section properly, fixing using heavy duty SS hinges of 4" size -4 nos or premium quality pivot type hinge ,handle, lock with key, premium quality heavy duty door closer shall be fixed with screws/ bolt etc complete. The door sizes varies from: Width-1.0m to 1.20m & Height-2.05 to 2.15m The rate shall include cost & conveyance of all materials, tools required for the work & labour charges etc., for carrying out the complete work	5	Nos
17	Supply and fixing of tinted glass double door using 10mm thick toughened glass, (make-Saint gobain or Modi guard) with premium quality floor springs of make Ozone/Geze/Dorma/Hettich, dual swing, suitable to door weight, SS H type handles (32X350mm) at front & back, chrome finish patch fittings (bottom, top, L) four sides of each glass door end, push & pull marks, stoppers, providing lock at centre, provide silicon rubber bleeding and all other necessary accessories as approved by Engineer-in-charge. The rate shall include cost & conveyance of all materials, tools required for the	3	Nos

	work & labour charges etc., for carrying out the complete work.		
	Door size: 1.85m x 2.10m (approx).		
18	Fabrication, supply & fixing of powder coated aluminium casement window of outer frame size 60mm x 50mm (approx.), thickness 1.6mm, width of shutter 60cm or equally divide the existing opening length, shutter size 80mm x 60mm (approx.), thickness 1.6mm, heavy duty ball bearing hinges, 6mm thick toughened glass (clear/tinted), fixing the windows using screws/anchor bolts, handle, beading to air tight closure using EPDM gasket etc. and fixing at site suitable. The gaps between the masonry wall and window shall be sealed with weather resistant silicon sealant. The colour shall be got approved from civil dept. before fabrication. The rate shall include cost & conveyance of all materials & labour, fabrication, supply, dismantling & fixing charges etc., for carrying out the complete work. Casement window size varies from Width – 1.2m to 1.5m, Height – 1.2m to 1.4m.	23	m²
19	Providing and fixing M.S. grills of required pattern in openings of windows with MS Flats (25x6mm), round bars (8mm dia) etc., including painting using two coats of enamel paint of premium grade, after thorough surface preparation which includes removing dirt, grease etc., by using emery paper, sand/wire brushes/ scrapper etc., mixing & application of paint as per manufacturers specification. The rate shall include cost of all materials & labour, supply, fabrication, & fixing charges etc., for carrying out the complete work.	150	Kg
20	Providing & fixing good quality vitrified floor tiles of size 60cm x 120cm or 60cm x 60cm suit to site condition, full body, anti-skid & scratch resistant of make: Khajaria/Nitco/SoMany/Jhonson, 8mm thickness of approved design, shade & finish, laying the tile in CM 1:4 plaster of 20mm thick with cement grout, providing spacers between the tile joints 4mm and filling the gap in full depth using suitable epoxy joint fillers of make Laticrete / Kerakoll / Mapei. Sample tile shall be got approved from civil dept before commencement of work. The rate shall include cost & conveyance of all materials, labour charges, hire charges for tools, vehicles, machineries required for the work, transportation, unloading, loading & laying charges etc., for carrying out the complete work.	120	m²
21	Providing & fixing good quality vitrified wall tiles of size 60cm x 60cm or 120cm x 60cm of make: Khajaria/Nitco/SoMany/Jhonson, 8mm thickness of approved design, pattern, shade & finish, to be fixed al-round the wall up to a height of 2.1m, using suitable tile adhesive of 4mm thickness, providing 4mm spacers between the tile joints and filling the gaps using suitable epoxy joint fillers of make Laticrete / Kerakoll / Mapei. Sample tile shall be got approved from civil dept before commencement of work. The rate shall include cost & conveyance of all materials, labour charges, hire charges for tools, vehicles, machineries required for the work, transportation, unloading, leading & laying charges etc., for carrying out the complete work.	80	m²
22	Supplying, filling, laying & levelling gravelly red earth of good quality as approved, compacting with vibratory rollers, watering and well consolidated properly for heavy equipment movement. Measurement will be taken for compacted layer by actual thickness at site. Supply quantity will not be considered for payment. The rate shall include cost & conveyance of material, labour charges, tools & machineries required etc., to carry out the complete work.	40	m³
23	Providing suspended false ceiling at a height of about 3.60 m from the finished floor level with powder coated GI section for supports T, C type channels, runners, fittings at regular intervals to prevent sagging, laying aluminium ceiling tile of size 600mm x 600mm, 0.7mm thick /grid panelling, plain shade, off white colour, supported sections fitted to the existing RCC slab, columns, beams. The rate shall include cost of all materials, tools required for the work, scaffolding charges, labour charges etc., for carrying out the complete work.	145	m²

24	Supply and fixing of PVC pipe 25mm-50mm dia 15 kg/cm² pressure rating including bends, tees, brass threaded elbows for fixing angle cocks, bib cocks, any other specials required for the work etc., including cutting the grooves in masonry wall to a depth of about 30-50mm and sealed with cement plaster. Before plastering, leakage testing with suitable working pressure shall be carried out. The rate shall include cost of all materials, labour charge, scaffolding, tools required for the work etc., for carrying out the complete work.	20	Rm
25	Supply and fixing of PVC pipe 60-110mm dia of 4kg/cm² pressure rating including bends, tees, elbows for any other specials required for the work, fixing & sealed with water closet outlet drains etc., sealed with concrete, rain water downtake pipe 110 mm dia from roof slab to ground. Before plastering, leakage testing with suitable working pressure shall be carried out. The rate shall include cost of all materials, labour charge, tools required for the work etc., for carrying out the complete work.	50	Rm
26	Supply and erection of RCC septic tank of inner size 1.15m width and length 2.50m, capacity 3000 litres with baffle walls / chambers and soak pit, wall thickness of 50mm minimum with necessary manholes cover, soak pit of 1.10m height and 0.90m diameter along with all necessary fittings and accessories. The rate shall include cost & conveyance of all materials, labour charge, tools required for the work, loading & unloading charges, transportation, laying chares etc., for carrying out the complete work	1	No
	Supply and fixing sanitary fittings such as European closets/ wash basins /shower/ shower cock/ pillar cock/ health faucet/ bib cock/ mirror, etc., in position to proper lines & levels without any leakage and make it in workable conditions. The rate shall include cost of all materials, labour charge, tools required for the work etc., for carrying out the complete work.		
27	European water closet (Model No 755 SS) of make - Jaquar or equivalent KOHLER / TOTO)	1	No
28	Half pedestal washbasin (Model No: X801) of make – Jaquar or equivalent of KOHLER / TOTO	1	No
29	Shower (Make-Jaquar/Toto/KOHLER)	1	No
30	Shower cock (Make-Jaquar/Toto/KOHLER)	1	No
31	Angle cock (Make-Jaquar/Toto/KOHLER)	3	Nos
32	Bib cock (Make-Jaquar/Toto/KOHLER)	1	No
33	Floor trap 8" x 8" (Make-Jaquar/Toto/KOHLER)	1	No
34	Health faucet (Make-Jaquar/Toto/KOHLER)	1	No
35	Soap tray (Make-Jaquar/Toto/KOHLER)	1	No
36	Towel rod 60cm (Make-Jaquar/Toto/KOHLER)	1	No
37	Mirror (size- 600mm x 300mm approx.) (Make-Jaquar/Toto/KOHLER)	1	No
38	Supply and fixing WPC doors suit to existing opening, with door frame of size 100mm x 50mm, fully moulded of single leaf of thickness 28mm, wooden shade, with heavy duty SS hinges of 100mm (4Nos), handles, tower bolts, latch & fixing properly using anchor bolts/ suitable fasteners making it workable condition etc., for carrying out the complete work. The door size of width- 0.85m & height – 2.10m. The rate shall include cost & conveyance of all materials & labour, fabrication, supply, dismantling& fixing charges etc., for carrying out the complete work.	1	No
39	Providing & laying factory made cement concrete interlocking paver blocks of M30 grade 80mm thickness made by block making machine with strong vibratory compaction, of approved size, design, shape and	35	m ²

	colour, laid in required pattern & slope on a bed of 50mm thick 6mm metal granite & M-sand including filling the joints with fine sand, compacting and proper finishing, complete as per direction of Engineer -in- charge. The rate shall include cost & conveyance of all materials, labour, unloading, tools, machineries, transportation cost and other consumables etc., for carrying out the complete work.		
40	Supply, fabrication & erection of GI structural hollow tubular sections (Make: Tata structura) for roofing structural works as directed by engineer in charge. The work includes cutting, bending, base plate at top & bottom of columns / beam connection, hoisting, fixing in position , welding, bolted with suitable fasteners, washers, anchor bolts to concrete structure, closing the open end of each section, surface cleaning, applying one coat of epoxy primer & two coats epoxy finish paint. The rate shall include cost & conveyance of all materials, labour, unloading, fabrication, erection work, gas cutting, welding, cost of paint brush, tools, machineries, transportation cost, scaffolding, working platforms, and other consumables etc., required for carrying out the complete work.	1.9	t
41	Supply, laying & fixing of colour coated zincalume (aluminium-zinc alloy) roof sheet of thickness 0.5mm (TCT), AZ-150 GSM coating, 550 Mpa tensile strength, for roofing, all accessories such as curves, ridge, industrial trafford profile, including fixing with suitable size SS/ Alloy coated self-tapping screws of size 5.5mm x 55mm for metal roofing to existing GI purlin, applying weather resistant silicon sealant over the screws etc., make the roof leak proof as required to suit the existing site conditions. The colour shall be got approved from civil section before fabrication The rate shall include cost & conveyance of all materials, labour charges, scaffolding arrangements, fasteners and tools required to complete the entire work.	180	m²

Note: -

- Party has to quote the basic rate in Rs. and the GST in % separately as per price schedule attached. If GST in % is not entered/quoted it will be considered as inclusive of GST. Overall lowest will be considered as L1 1.
- 2.

DETAILS TO BE FURNISHED ALONG WITH THE OFFER

Item no	DESCRIPTION OF WORK	GST in %	HSN Code
1	Submission of design basis report with detailed calculation using relevant software and submission of reinforcement drawings as per latest, relevant IS codes and certified by chartered structural Engineer. Statutory approval from local authorities for construction clearance, building permit etc. (other than govt. fee). Submission of Architectural drawings such as Front Elevation, Side views, Roofing - 3 D views etc The rate includes approval costs, travel expenses, design charges, preparation & submission of required drawings, site visit by charted structural engineer and other requirements required for completion of the entire work in all respects to the satisfaction of Engineer-in-charge.		
2	Engaging portable grass cutting machine for cutting of wild growth of grass, bushes around the QC Lab, R&D, and other locations inside factory premises as directed by engineer in charge. The rate shall include hire charges of grass cutting machine, labour charges, fuel cost, tools & consumables etc. to carry out the complete work including all machineries and tools.		

3	Earthwork excavation by mechanical means & as directed, in all classes of soil up to a depth of about 2m from the existing earth level & as required to suit site conditions including removing all waste materials, cutting of trees, clearing scraps etc., which comes in proposed area, strutting, shoring wherever required to prevent sliding of soil, bailing out ground water from any depth required for the work without fail & pumping to earthen pits or wells to be specially made for collection of ground water within a distance of 250m, dressing, ramming the bottom of excavated level, making the surface suitable for concreting, shifting of excavated soil from the site and then bringing back the same partly for refilling purpose at required places up to the top level as directed in multiple layers including consolidating each layer by watering, ramming using vibratory rollers, disposing off all waste material/ excess earth within a distance of 950m & levelling the disposed material properly as directed by EIC etc., complete. No extra charges are payable for shifting, transportation, levelling etc. (No extra quantity for working space more than 30 cm from the edge of PCC will be measured and paid.)	
4	Dismantling, chipping, removal of concrete / Rubble masonry / brick masonry etc., using portable heavy duty concrete breaker machine/ jag hammer or manually including cutting of re-bars using grinder/gas cutter & removing of all debris generated. The waste generated during the work shall be shifted to location shown by EIC, dumping, levelling as directed within a distance of 950m inside factory premises. The rate shall include the hire charge of breaker machines, vehicles and tools required for the work, gas cutting set, transportation of waste, labour charges etc., complete.	
5	Providing & laying PCC (1:2:4) using 20mm nominal size granite broken stone, machine mixed and properly consolidated with rammers including cost, conveyance of all materials, labour, shuttering work at ends, curing etc., complete as directed by Engineer in-Charge. Measurement will be taken for compacted layer by actual thickness at site. Supply quantity will not be considered for payment. The rate shall include cost & conveyance of all material, electric & diesel vibrator	
6	labour charges, tools & machineries required etc., to carry out the complete work. Providing & laying of Reinforced Cement Concrete RCC (M30 Grade as per IS 456) with a minimum cement content of 380 kg/m³ of concrete by using 20-10 mm downgraded stones, machine mixed, mechanically vibrated, consolidated, curing, including usage of quality material as approved, cost, conveyance, lead, lift of all materials, labour, necessary scaffolding etc., but excluding cost of formwork and reinforcement work which will be paid separately under relevant item. Wherever possible Ready Mix Concrete may be carried out at required places as directed by Engineer-in-charge with prior approval. Supply quantity will not be considered for payment. The rate shall include labour charges & cost of all materials including cement, scaffolding charges, staging, working platform, electric & diesel vibrator for compaction etc. for carrying out the complete work.	
7	Supply & Laying reinforcement High yield strength deformed bars Fe 500 grade, cutting to required size, bending, straightening & placing in position, binding with 18/20 gauge black annealed /GI tying wire, including lead, lift of reinforcement to work site, laying as per drawing and directed by Engineer-in-charge (Weight of steel bar shall be taken as per relevant IS standard). The rates shall include labour charges, cost of reinforcement, & binding wire, cover blocks, tools, etc., for carrying out the complete work	
8	Providing centering and shuttering including strutting, propping etc for footings, plinth beams, Tie beam & columns, lintels, sunshade, slab, using plywood with sufficient wooden runners or MS sheets with enough strength to withstand the load of mechanical vibrator during compaction of concrete & it should properly sealed with suitable material to prevent grout leakage from concrete. The removal of formwork is done after reaching the strength	

1	La Caracanta	1	ı
	of concrete. The rates shall include labour charges for fixing and removal of formwork after use,		
	rental charges / cost of materials, transportation, scaffolding, working platforms, H-		
	frames, etc., required for the complete work.		
	Providing masonry work in CM 1:5, using Autoclaved aerated concrete block		
	of required size, laying using cementitious polymer-modified adhesive joint		
	mortar including raking out joints, finishing to proper lines & levels,		
	chipping or hacking the existing floor concrete / columns / beam surface for		
9	necessary bonding, curing, etc., complete at all levels.		
	The rate shall include cost & conveyance of all materials, labour charges for lead &		
	lift of all materials, mixing, scaffolding, working platforms, curing etc., for carrying		
	out the complete work.		
	Providing Plastering in CM 1:4, 12 mm thick average in masonry structure by		
	application rough coat first, then finished to required thickness mixing &		
	application one coat neat finish of cement grout with mortar, finishing		
	smooth to proper line & level, fixing button marks, before plastering all		
10	construction joints (beam / columns & masonry wall) shall be laid with		
	110GSM glass fibre mesh cloth of width 1.0m to prevent any cracks, all		
	required for completion of work as directed by EIC.		
	The rate shall include cost & conveyance of all materials & labour, supply & fixing		
	charges, scaffolding, working platforms, curing etc., for carrying out the complete work.		
	Providing cement mortar beading of width 50mm in edge of sunshades &		
	slab for rain water dropping using CM 1:3, proper line & level to act as a		
	waterproof barrier, including cost & conveyance of all materials, necessary		
11	scaffolding, staging, labour charges etc., complete in all respects as per the		
	direction of Engineer in charge		
	The rate includes scaffoldings, working platforms, curing, tools & equipment, cost &		
	conveyance of material etc. for carrying out the complete work.		
	Supply & painting interior & exterior surface of buildings including wall,		
	columns, beams, footings, slab etc with one coat cement primer ,one coat of		
	exterior water based primer & two coats of water based premium grade		
	acrylic emulsion finish paint after thorough surface preparation by using		
	emery paper/ sand / wire brushes/ scrapper, high pressure jet wash		
	cleaning etc., necessary scaffolding & staging, mixing & application of paint		
	as per manufacturers specification, disposing the waste within 950m distance		
	inside factory premises, all required for the completion of work as directed		
	by the Engineer-in-charge.		
	Successive coat of paint shall be applied only after hard drying of the		
	previous coat. Minimum 24 hrs should be given between successive coatings. The colour shade shall be got approved before commencement of work.		
	Note: - for interior painting floors, windows, doors, partition wall, wash		
	basin, sink etc. all should be covered properly using tarpaulin & it should be		
	cleaned after completing the painting work.		
	The rate include cost & conveyance of all materials & labour cost, consumables,		
	scaffolding, working platforms, tarpaulin cover, tools & equipment's for painting,		
	cleaning after painting etc. to carry out the complete work.		
12	Interior surface (Premium quality finish paint- Apex Ultima Proteck of Asian		
(a)	paints or equivalent make of BERGER/INDIGO/NEROLAC)		
13	Exterior surface (Aquagreen WB PU FIN White -Berger, Nerolac, Asian		
(b)	Indigo)		
<u> </u>	Providing and fixing 18 mm to 20mm thick mirror Polished, machine cut,		
	good quality granite top, jet black and plain texture laid over the concrete		
	slab / bed, approved shade & finish of required size as suit to site condition,		
	fixing using suitable adhesive, the joints shall be done using epoxy joint filers,		
14	mixed with matching pigment, including rounding all the edges & corners,		
	rubbing, curing, proper line & level etc., for carrying out the complete work.		
	Sample granite shall be got approved from civil dept before commencement		
	of work.		
	The rate shall include cost of all materials, tools & equipment, labour charges etc. for		

	carrying out the complete work.	
15	Fabrication ,Supply & Fixing of aluminium partition using premium quality profiles to a height of 4.30m from finished floor with 63mm x 38mm x 2mm sections equally divide the length & height according room dimension @ 1 to 1.20m c/c and providing ACP sheet of 6mm thick at bottom & top, 6mm thick toughened clear glass of height 1.0m at middle portions generally as per site conditions, including welding/finishing the edges ,joints properly ,beading air tight closure using EPDM gasket, all accessories ,fixing at site etc., complete. The rate shall include cost & conveyance of all materials, fabrication, supply & fixing charges, necessary scaffolding staging, working platforms etc. for carrying out the complete work.	
16	Fabrication, Supply & fixing powder coated aluminium door partially glazed with section size of 80x45mm,1.20 mm thickness, frame of thickness of 60mmx40mm, top portion using 6mm thick clear toughened glass of height about 90cm approx. , bottom portion using ACP sheet of 6mm thick or nearest, joining the section properly, fixing using heavy duty SS hinges of 4" size -4 nos or premium quality pivot type hinge ,handle, lock with key, premium quality heavy duty door closer shall be fixed with screws/ bolt etc complete. The door sizes varies from : Width-1.0m to 1.20m & Height-2.05 to 2.15m The rate shall include cost & conveyance of all materials, tools required for the work & labour charges etc., for carrying out the complete work	
17	Supply and fixing of tinted glass double door using 10mm thick toughened glass, (make-Saint gobain or Modi guard) with premium quality floor springs of make Ozone/Geze/Dorma/Hettich, dual swing, suitable to door weight, SS H type handles (32X350mm) at front & back, chrome finish patch fittings (bottom, top, L) four sides of each glass door end, push & pull marks, stoppers, providing lock at centre, provide silicon rubber bleeding and all other necessary accessories as approved by Engineer-in-charge. The rate shall include cost & conveyance of all materials, tools required for the work & labour charges etc., for carrying out the complete work. Door size: 1.85m x 2.10m (approx).	
18	Fabrication, supply & fixing of powder coated aluminium casement window of outer frame size 60mm x 50mm (approx.), thickness 1.6mm, width of shutter 60cm or equally divide the existing opening length, shutter size 80mm x 60mm (approx.), thickness 1.6mm, heavy duty ball bearing hinges, 6mm thick toughened glass (clear/tinted), fixing the windows using screws/anchor bolts, handle, beading to air tight closure using EPDM gasket etc. and fixing at site suitable. The gaps between the masonry wall and window shall be sealed with weather resistant silicon sealant. The colour shall be got approved from civil dept. before fabrication. The rate shall include cost & conveyance of all materials & labour, fabrication, supply, dismantling & fixing charges etc., for carrying out the complete work. Casement window size varies from Width – 1.2m to 1.5m, Height – 1.2m to 1.4m.	
19	Providing and fixing M.S. grills of required pattern in openings of windows with MS Flats (25x6mm), round bars (8mm dia) etc., including painting using two coats of enamel paint of premium grade, after thorough surface preparation which includes removing dirt, grease etc., by using emery paper, sand/wire brushes/ scrapper etc., mixing & application of paint as per manufacturers specification. The rate shall include cost of all materials & labour, supply, fabrication, & fixing charges etc., for carrying out the complete work.	
20	Providing & fixing good quality vitrified floor tiles of size 60cm x 120cm or 60cm x 60cm suit to site condition, full body, anti-skid & scratch resistant of make: Khajaria/Nitco/SoMany/Jhonson, 8mm thickness of approved design, shade & finish, laying the tile in CM 1:4 plaster of 20mm thick with cement grout, providing spacers between the tile joints 4mm and filling the gap in full depth using suitable epoxy joint fillers of make Laticrete / Kerakoll /	

	Mapei. Sample tile shall be got approved from civil dept before		
	commencement of work.		
	The rate shall include cost & conveyance of all materials, labour charges, hire		
	charges for tools, vehicles, machineries required for the work, transportation,		
	unloading, loading & laying charges etc., for carrying out the complete work.		
	Providing & fixing good quality vitrified wall tiles of size 60cm x 60cm or		
	120cm x 60cm of make: Khajaria/Nitco/SoMany/Jhonson, 8mm thickness of		
	approved design, pattern, shade & finish, to be fixed al-round the wall up to		
	a height of 2.1m, using suitable tile adhesive of 4mm thickness, providing		
01	4mm spacers between the tile joints and filling the gaps using suitable epoxy		
21	joint fillers of make Laticrete / Kerakoll / Mapei. Sample tile shall be got		
	approved from civil dept before commencement of work.		
	The rate shall include cost & conveyance of all materials, labour charges, hire		
	charges for tools, vehicles, machineries required for the work, transportation,		
	unloading, leading & laying charges etc., for carrying out the complete work.		
	Supplying, filling, laying & levelling gravelly red earth of good quality as		
	approved, compacting with vibratory rollers, watering and well consolidated		
	properly for heavy equipment movement. Measurement will be taken for		
22	compacted layer by actual thickness at site. Supply quantity will not be		
	considered for payment.		
	The rate shall include cost & conveyance of material, labour charges, tools &		
	machineries required etc., to carry out the complete work.		
	Providing suspended false ceiling at a height of about 3.60 m from the		
	finished floor level with powder coated GI section for supports T, C type		
	channels, runners, fittings at regular intervals to prevent sagging, laying		
	aluminium ceiling tile of size 600mm x 600mm, 0.7mm thick / grid panelling,		
23	plain shade, off white colour, supported sections fitted to the existing RCC		
	slab, columns, beams.		
	The rate shall include cost of all materials, tools required for the work, scaffolding		
	charges, labour charges etc., for carrying out the complete work.		
	Supply and fixing of PVC pipe 25mm-50mm dia 15 kg/cm ² pressure rating		
	including bends, tees, brass threaded elbows for fixing angle cocks, bib cocks,		
	any other specials required for the work etc., including cutting the grooves in		
	masonry wall to a depth of about 30-50mm and sealed with cement plaster.		
24	Before plastering, leakage testing with suitable working pressure shall be		
	carried out.		
	The rate shall include cost of all materials, labour charge, scaffolding, tools required		
	for the work etc., for carrying out the complete work.		
	Supply and fixing of PVC pipe 60-110mm dia of 4kg/cm ² pressure rating		
	including bends, tees, elbows for any other specials required for the work,		
[fixing & sealed with water closet outlet drains etc., sealed with concrete, rain		
25	water downtake pipe 110 mm dia from roof slab to ground. Before plastering,		
	leakage testing with suitable working pressure shall be carried out.		
	The rate shall include cost of all materials, labour charge, tools required for the work		
	etc., for carrying out the complete work.		
	Supply and erection of RCC septic tank of inner size 1.15m width and length		
[2.50m, capacity 3000 litres with baffle walls / chambers and soak pit, wall		
[· · ·		
	thickness of 50mm minimum with necessary manholes cover, soak pit of		
26	1.10m height and 0.90m diameter along with all necessary fittings and		
	accessories. The rate shall include cost & conveyance of all materials, labour charge, tools		
	The rate shall include cost & conveyance of all materials, labour charge, tools		
	required for the work, loading & unloading charges, transportation, laying chares		
	etc., for carrying out the complete work Supply and fixing sanitary fittings such as European closets/ wash basins		
	/shower/ shower cock/ pillar cock/ health faucet/ bib cock/ mirror, etc., in		
	position to proper lines & levels without any leakage and make it in workable		
	conditions. The rate shall include cost of all materials labour charge, tools required for the work		
	The rate shall include cost of all materials, labour charge, tools required for the work etc., for carrying out the complete work.

		 T
27	European water closet (Model No 755 SS) of make – Jaquar or equivalent KOHLER / TOTO)	
28	Half pedestal washbasin (Model No: X801) of make – Jaquar or equivalent of KOHLER / TOTO	
29	Shower (Make-Jaquar/Toto/KOHLER)	
30	Shower cock (Make-Jaquar/Toto/KOHLER)	
31	Angle cock (Make-Jaquar/Toto/KOHLER)	
32	Bib cock (Make-Jaquar/Toto/KOHLER)	
33	Floor trap 8" x 8" (Make-Jaquar/Toto/KOHLER)	
34	Health faucet (Make-Jaquar/Toto/KOHLER)	
35	Soap tray (Make-Jaquar/Toto/KOHLER)	
36	Towel rod 60cm (Make-Jaquar/Toto/KOHLER)	
37	Mirror (size- 600mm x 300mm approx.) (Make-Jaquar/Toto/KOHLER)	
38	Supply and fixing WPC doors suit to existing opening , with door frame of size 100mm x 50mm, fully moulded of single leaf of thickness 28mm, wooden shade, with heavy duty SS hinges of 100mm (4Nos), handles, tower bolts, latch & fixing properly using anchor bolts/ suitable fasteners making it workable condition etc., for carrying out the complete work. The door size of width- 0.85m & height - 2.10m. The rate shall include cost & conveyance of all materials & labour, fabrication, supply, dismantling& fixing charges etc., for carrying out the complete work.	
39	Providing & laying factory made cement concrete interlocking paver blocks of M30 grade 80mm thickness made by block making machine with strong vibratory compaction, of approved size, design, shape and colour, laid in required pattern & slope on a bed of 50mm thick 6mm metal granite & M-sand including filling the joints with fine sand, compacting and proper finishing, complete as per direction of Engineer -in- charge. The rate shall include cost & conveyance of all materials, labour, unloading, tools, machineries, transportation cost and other consumables etc., for carrying out the complete work.	
40	Supply, fabrication & erection of GI structural hollow tubular sections (Make: Tata structura) for roofing structural works as directed by engineer in charge. The work includes cutting, bending, base plate at top & bottom of columns / beam connection, hoisting, fixing in position , welding, bolted with suitable fasteners, washers, anchor bolts to concrete structure, closing the open end of each section, surface cleaning, applying one coat of epoxy primer & two coats epoxy finish paint. The rate shall include cost & conveyance of all materials, labour, unloading, fabrication, erection work, gas cutting, welding, cost of paint brush, tools, machineries, transportation cost, scaffolding, working platforms, and other consumables etc., required for carrying out the complete work.	
41	Supply, laying & fixing of colour coated zincalume (aluminium-zinc alloy) roof sheet of thickness 0.5mm (TCT), AZ-150 GSM coating, 550 Mpa tensile strength, for roofing, all accessories such as curves, ridge, industrial trafford profile, including fixing with suitable size SS/ Alloy coated self-tapping screws of size 5.5mm x 55mm for metal roofing to existing GI purlin, applying weather resistant silicon sealant over the screws etc., make the roof leak proof as required to suit the existing site conditions. The colour shall be got approved from civil section before fabrication The rate shall include cost & conveyance of all materials, labour charges, scaffolding arrangements, fasteners and tools required to complete the entire work.

1.4 Specification: The term Specification Specification Employer, the specifications issued by the BIS will apply.

The Engineer-in-charge shall represent and act on behalf of IREL at all times during the currency of the all notices, instructions, orders, certificates, approvals and all other communications under this Contract shall be given by the Engineer-in-charge, except as herein otherwise provided.

General supervision, follow up of supply and direction of the Works
Direction to stop the Works whenever such stoppage may be necessary to ensure the proper execution of the works
To reject all Works and Materials which do not conform to the contract specifications. The Engineer-in-charge shall have no authority to relieve the CONTRACTOR of any of hisduties or obligations under the contract nor except as expression and the Contract to order any work involving delay or any extra payment by IRELor to make any variation of or in the Works.

ASSIGNMENT AND SUB-LETTING

The Contractor shall not assign the Contract or any part thereof or any benefit or interesttherein or thereunder (other than a charge in favour of the Contractor's Bankers of any money due or to become due under this Contract) without the prior written consent of Employer

The Contractor shall not sub-let the whole or part of the Works except where otherwise provided by the Contract, and even then only with the prior written consent of the Employerand such Consent if given shall not relieve the Contractor from or obligation under the contract and he shall be responsible for the acts, defaults and neglects of any Sub-contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, and his agents of the Contractor has a servant or neglects of the Contractor, his agents, and his agents of the Contractor has a servant or neglects of the Contractor has a servant or neglects of the Contractor has a servant or neglects or nea

CONTRACTOR shall supervise and direct the work of all SUB-CONTRACTORS and shallbe responsible for co-ccordinating their work. If CONTRACTOR fails to correct, orcommence to correct and execute the correction with due diligence of deficient or defectivework performed by any SUB-CONTRACTOR within reasonable time (provided it doesn't materially impact safe operation of plant), after receipt by CONTRACTOR of a notice fromEMPLOYER with respect thereto. EMPLOYER may (but shall not be obligated to), after seven days following receipt by CONTRACTOR of an additional notice, and without prejudice to any other right or remedy take all reasonable steps to remedy such defectiveor deficient work at risk and cost of CONTRACTOR.

CONTRACTOR shall require all SUB-CONTRACTORS to perform in accordance with therelevant requirements of the CONTRACT including FINAL PROPOSAL, all APPLICABLE LAWS and APPLICABLE PERMITS, Prudent Utility Pra Engineering Practices, the requirements of the NIT, and all Warranties of SUB-CONTRACTORS/SUBVENDORS and Manufacturers and all insurance policies relating to the PLANT or the WORK.

CONTRACTOR shall be solely responsible for paying each SUB-CONTRACTOR and anyother person to whom any amount is due from CONTRACTOR for services, equipment, construction equipment, materials or supplies otherwise related to the PLANT or the WORK.

CONTRACTOR shall take all reasonable steps and actions to ensure that such services, equipment, construction equipment, materials and supplies and the like have been or will be received, inspected and approved and that such services have services have been or some steps of the services and the like have been or will be received, inspected and approved and that such services have services have been or will be received, inspected and approved and that such services have been or will be received.

EMPLOYER shall not be deemed by virtue of the CONTRACT to have any contractual obligation to or relationship with any SUB-CONTRACTOR

3.0

The Contract comprises the construction, completion and maintenance of the works and except in so far as the contract otherwise provides, the provision of all labour, materials, constructional plant, temporary works and everything we temporary or permanent nature required in and for such construction, completion and maintenance.

$\frac{4.0}{4.1}$

CONTRACT DOCUMENTS:
CUSTODY OF DRAWINGS:
The drawings shall remain in the sole custody of the Engineer but two copies thereof shall be furnished to the Contractor free of cost. The Contractor shall provide and make at his own expense any further copies required by him. On the completion of the contract, the Contract hall return to the Engineer all drawings provided under the contract, The Contractor shall give adequate notice in writing to the Engineer or Engineer's representative, of any further drawings or specifications that may be required for the execution of the works or otherwise under the contract.

One copy of the drawings furnished to the Contractor as aforesaid shall be kept by the Contractor on the site and the same shall at all reasonable time be available for inspection and use by the Engineer and the Engineer's representative and by any otherperson authorised by the Engineer in writing.

4311 FURTHER DRAWINGS AND INSTRUCTION:

The Engineer shall have full power and authority to supply to the Contractor from time to time during the progress of the works such further drawings and instructions as shall be necessary for the purpose of the proper and adequate en maintenance of theworks and the Contractor shall carry out and be bound by the same.

CONTRACT AGREEMENT:

The Contractor shall enter into and execute a Contract Agreement in the form annexed hereto within the specified time in Letter of Intent/ Award and in default there of the earnestmoney paid by the Contractor shall be for

ons leading to changes in the CONTRACT with respect to technical or commercial aspects including terms of completion period shall be considered valid only when amendment to the CONTRACT is issued by the Employer ation or amendment of the CONTRACT for an adjustment in the CONTRACTPRICE and/ or COMPLETION DATE in accordance with the applicable provision of the CONTRACT, if any, shall be subject to mutual ag

IREL shall not be bound by any printed conditions or provisions in the CONTRACTOR'sbid forms or acknowledgement of CONTRACT and other documents which support to impose any condition at variance with or supplemental to CONTRACT.

The CONTRACTOR shall not, without the IREL's prior written consent, disclose the CONTRACT or any provision thereof, or any specification, plan, drawing, pattern, sampleor information furnished by or on behalf of the IREL in connection therewith, to any personother than a person employed by the CONTRACTOR in the performance of the CONTRACT. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purpose of such performance.

The CONTRACTOR shall not without the IREL's prior written consent, make use of any document or information enumerated in Clause 7.1 except for purpose of performing the CONTRACT.

Any document other than CONTRACT, itself, enumerated in Clause 7.1 shall remain the property of the IREL and shall be returned (all copies) to the IREL on completion of the CONTRACTOR's performance under the CONTRACT, if so required by the IREL.

CONTRACTOR TO INFORM HIMSELF FULLY:

The CONTRACTOR in fixing his rate shall for all purpose whatsoever reason may be, deemed to have himself independently obtained all necessary information for the purpose of preparing his tender and his tender as accepted shall be deemed to have taken into account all contingencies as may arise due to such information or lack of same. The correctness of the details, given in the Tender Document to help the CONTRACTOR to make up the tender is not guaranteed.

The CONTRACTOR shall be deemed to have examined the CONTRACT DOCUMENTS to have generally obtained his own information in all matters whatsoever that might affective carrying out of the works at the schedules rates and to have satisfied himself to the sufficiency of his tender. Any error in description of quantity or omission there from shall not vitisted to CONTRACT according to DRAWINGS and SPECIFICATIONS at the scheduled rates. He is deemed to have however the scheme of have town where except nature and magnitude of the WORS and the requirements of materials and labour involved etc., and as to what all works he has to complete in accordance with the CONTRACT documents whatever be the defects, omissions or errors that may be found in the DOCUMENTS. The CONTRACTOR shall be deemed to have visited surroundings, to have satisfied himself to the nature of all existing structures, if any, and also as to the nature and the conditionsoft the Railways, Reads, Bridges and Culverts, means of transport and communication, whether by Jund, water or air, and as to possible interruptions therefore and the access andegress from the site, to have made enquiries as to the sites for obtaining sand, stones, bricks and other materials, the sites for disposal of surplusmaterials, the available accommodation as to whatever required, depots and such other buildings as may be necessary for executing and completeling the works, to have made local independent enquiries as to the sub-soil, subsoil of surplusmaterials, the available accommodation as to whatever required, depots and such other buildings as may be necessary for executing and completeling the works, to have made local independent enquiries as to the sub-soil, subsoil of surplusmaterials, the available accommodation as to whatever required, depots and such other buildings as may be necessary for executing and completing the works, to have made local independent enquiries as to the sub-soil, subsoil of surplusmaterials, the available accommodation as to whatever required, depot

It is, therefore, expected that should the CONTRACTOR have any doubt as to the meaning of any portion of the CONTRACT DOCUMENT, he shall set forth the particulars thereof inwriting to IREL in duplicate, before submission of tender. IREL may provide such clarification as may be necessary in writing to CONTRACTOR, such clarifications as provided by IREL shall form part of CONTRACT DOCUMENTS.

No verbal agreement or inference from conversation with any effect or employee of the IREL before, during or after the execution of the CONTRACT AGREEMENT shall in any way affect or modify and of the terms or obligations herein contained. Any change in layoutdue to site conditions or technological requirement shall be binding on the CONTRACTOR and no extra claim on this account shall be entertained.

7.5 GENERAL INFORMATION:

Location of Site: The proposed location of Project site is defined in the Special Conditions of Contract. b)

Access by Road: CONTRACTOR shall be required to permit the use of the roads so constructed by him for vehicles of any other parties who may be engaged on the project site. The CONTRACTOR shall be required to permit the use of the roads so constructed by him for vehicles of any other parties who may be engaged on the project site. The CONTRACTOR shall also facilitate the construction of the permanent roads should the construction of the permit of the project site. The CONTRACTOR shall make allowance in the shall make allowance in the standard project site. The CONTRACTOR shall make allowance in the standard project site. The CONTRACTOR shall make allowance in the standard project site. The contraction of the permit shall be required to permit the use of the roads so constructed by him for vehicles of any other parties who may be engaged on the project site. The CONTRACTOR shall make allowance in the standard project site. The CONTRACTOR shall be required to permit the use of the roads so constructed by him for vehicles of any other parties who may be engaged on the project site. The CONTRACTOR shall make allowance in the standard project site. The CONTRACTOR shall make allowance in the standard project site. The contraction of the project site is the standard project site. ...........

Scope of Work: The scope of WORK is defined in the Technical Part of the tender document. The CONTRACTOR shall provide all necessary materials, equipment, labour etc. for the execution and maintenance of the WORK till completion unless otherwise mentioned in the Tender Document. Water Supply: Contractor will have to make his own arrangements for supply of water to this labour camps and for works. All pumping installations, pipe network and distribution system will have to be carried out by the Contractor at his sown risk and cost. Alternatively, ElEL, a his discretion may endeavour to provide water to the Contractor at his source of supply and such distribution pipe networks shall have prior approval of the Engineer-in-Charge so as not to interfere with the layout and progress of the other construction works. In such case, the rate for water shall be deducted from the running account bills (subjection tate of deduction).

d)

c)

Power Supply: Subject to availability, IREL will supply power at 400/440 V at only one point at the nearest sub-station, from where the CONTRACTOR will make his own arrangement for temporary distribution. The point of supply will not be more than 500 m away from the CONTRACTORS premises. All the works will be done as per the applicable regulations and passed by the ENGINEER-IN-CHARGE. The temporary line will be removed forthwith after the completion of work or if there is any hindrance caused to the other works due to the alignment of these lines, the CONTRACTOR will re-route or removethe temporary lines at his own cost. The CONTRACTOR at his cost will also provide suitable electric meters, fuses, switches, etc. for purposes of payment to IREL which should be in the custody and control of the IREL. The cost of power supply shall be payable to IREL every month for Construction Works which would be deducted from the running account bills (subject to rate of deduction specifically mentioned in the tender, if any). IREL shall not, however, guarantee the supply of electricity or have any liability in respect thereof. No claim for compensation for any failure or short supply of electricity will be admissible.

It shall be the responsibility of the CONTRACTOR to provide and maintain the complete installation on the load side of the supply with due regard to safety requirement at site. Allcabling, equipment, installations etc. shall comply in all respects with the latest statutory requirements and safety provisions, i.e., as per the Central/State Electricity Acts and Rulester. The CONTRACTOR will ensure that his equipment and Electrical Wiring etc., are installed, modified, maintained by a licersed Electrician/Supervisor. A test certificate is to be produced to the EMCINEER-IN-CHARGE for his approval, before power is made available.

At all times, IEA regulations shall be followed failing which the IREL has a right to disconnect the power supply without any reference to the CONTRACTOR. No claim shallbe entertained for such disconnection by the ENGINEER-IN-CHARGE. Power supply willbe reconnected only after production of fresh certificate from authorized electrical supervisors.

The goods and services supplied under this CONTRACT shall conform to the standards mentioned in the technical specifications and when no applicable standard is mentioned, CONTRACTOR shall follow best engineering practices

The total requirement of power shall be indicated by the tenderer along with his tender.

Except if and the extent otherwise provided by the Contract, the provisions of the GeneralConditions of Contract and Special Conditions shall prevail over those of any other documents forming part of the CONTRACT. Several documents forming the CONTRACT are to be taken as mutually explanatory of one another, but in case of ambiguities or discrepancies the same shall be explained and adjusted by the ENCINEER-IN-CHARGEwho shall thereupon issue to the Contractor instructions thereonand insuch event, unless otherwise provided in the Contract, the priority of the documents forming the Contract shall be as follows:

The Contract Agreement;

The Letter of Acceptance:

The Instructions to Bidders(ITB);
Special Conditions of Contract (SCC);
General Conditions of Contract (GCC)
Any other document forming part of the Contract

Works shown in the DRAWING but not mentioned in the SPECIFICATIONS or described in the SPECIFICATIONS without being shown in the DRAWINGS shall nevertheless be deemed to be included in the same manner as if they had been specifically shown upon the DRAWINGS and described in the SPECIFICATIONS.

SPECIAL CONDITIONS OF CONTRACT:

Special Conditions of Contract shall be read in conjunction with the General Conditions of Contract, specification of Work, Drawings and any other documents forming part of this CONTRACT wherever the context so requires. Notwithstanding the sub-division of the documents into these separate sections and volumes, every part of each shall be deemed to be supplementary to and complementary of every other part and shall be read with and into the CONTRACT so far as it may be

practicable to do so.

Where any portion of the General Conditions of Contract is repugnant to or at variance with any provisions of the Special Conditions of Contract, unless a different intention appears, the provisions of the Special Conditions of Contract shall be deemed to over-ridethe provisions of the General Conditions of Contract and shall to the extent of such repugnancy, or variations, prevail.

8.1

8.2

8.3

8.5

9.1.1

9.1.4

CONTRACTOR shall at all times, indemnify and keep indemnified IREL against all claimsor suits and defend, at its own cost, any suit or action brought against IREL and hold IRELfree and harmless against all costs of such claims or suits which may be made against IREL in respect of any infringement of any rights protected by patent, copyright, trademarks, and trade secrets to the extent that such claims, suit, or action is a result of theuse of CONTRACTOR's technical Information for the construction, manitenance, and operation of PLANT and the use of CONTRACTOR's and/or any other processes used in PLANT. IEEL shall pass on all claims made against it to CONTRACTOR is restlement.

CONTRACTOR declares that to the best of his knowledge and belief the use of CONTRACTOR's Technical Information for the construction, maintenance, and operation of PLANT and the use of CONTRACTOR's processes used in PLANT will not infringe anywalid patent rights of a third party. However, if at any time such infringement arises, CONTRACTOR agrees to keep IREL indemnified and harmless against such claims and costs thereof and make arrangements that will allow IREL to continue the operation of PLANT.

IREL shall promptly advise CONTRACTOR in writing of any claim of infringement or any action for infringement of patents brought against it by a third party and based upon the use of CONTRACTOR's Technical Information. If such use is in accordance with instructions given in writing by CONTRACTOR, CONTRACTOR shall undertake the defence, or assist IREL in the defence, of the claim or suit up to final judgment or settlement.

CONTRACTOR shall undertake the defence on behalf of IREL and shall have sole chargeand direction of the defence, and shall bear all costs related thereto. CONTRACTOR shallfurther hold IREL harmless from any damages or other sums that may become payable by IREL under a final judgment or settlement. However, IREL shall render to CONTRACTOR all reasonable assistance that may be required by CONTRACTOR in the defence, and shall have the right to be represented therein by advisory counsel of its ownselection and at its own expense.

e measures specified in Clause-8.4, CONTRACTOR may further, at its option, however, in reasonable consultation with IREL, seek to abate the alleged infringement by modification of PLANT or its operation with formance and/or secure for IREL immunity from suit for infringement. In such case, CONTRACTOR shall bear/ reimburse IREL all costs related to the said modification and to the said immunity.

In the event that IREL is legally restrained from operating PLANT on account of any infringement action or suit, CONTRACTOR shall take all possible actions to assist IREL to operate and use PLANT, is so far his area of operation is concerned. Neither CONTRACTOR nor IREL shall settle or compromise any suit or action without thewritten consent of the other, if settlement or compromise obliges the other to make any payment or part with any property or assume any obligations or surrender any rights to robe subjected to any injunction by reason of such settlement or compromise.

INDEMNITIES:

INDEMNIFICATION FOR LIABILITIES:

CONTRACTOR INDEMNIFICATION FOR LIABILITIES:

WORK, any EQUIPMENT

WORK in the imposed on, suffered orincurred by or asserted against IREL and in any way relating to or arising out of work, any EQUIPMENT

WORK in the imposed on, suffered orincurred by or asserted against IREL and in any way relating to or arising out of work in the imposed on the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or arising out of a work in the imposed or asserted against IREL and in any way relating to or asserted against IREL and in any way relating to or asserted against IREL and in any way relating to or asserted against IREL and in an

9.1.1.1 9.1.1.2

9.1.1.3 9.1.1.4 9.1.1.5

commencement of WORK excluded)
The performance of WORK, or as a result of personal injuries (including wrongful death);
the violation by CONTRACTOR or any SUB-CONTRACTOR/ VENDOR for any Government Approval or applicable Law;
Any breach of CONTRACT with any SUB-CONTRACTOR/ VENDOR, provided, however, that CONTRACTOR shall not be required under this Clause to indemnifyIREL for any liability arising out of or resulting from events or circumstances
occurring or existing after PRELIMINARY ACCEPTANCE OF PLANT except where the liability arises from an act or omission of CONTRACTOR or any SUB-CONTRACTOR/VENDOR or any other Person directly or indirectly employed by
either of them or anyone for whose acts either of them may be liabile that was a contributory cause of such liability.

9.1.2 CONTRACTOR INDEMNIFICATION FOR TAXES:

It is specifically understood that CONTRACTOR hereby accepts and assumes exclusive liability for and save and hold IREL harmless from and against of all Taxes arising from the performance of WORK, and all such Taxes shall be deemed to be included in CONTRACT PRICE, except for GST. GST at a applicable rate is payable extra. Seller needto prepare E-invoice under GST and submit monthly/ quarterly GST Return as per GST Rules. Failure to submit GST Return on time as per GST Rules are result into deduction of GST within processing Bills.

9.1.3 INDEMNIFICATION BY SUB-CONTRACTOR/VENDOR:

CONTRACTOR shall obtain from each SUB-CONTRACTOR/VENDOR, which is anaffiliate, and shall use all reasonable efforts to obtain from each SUB-CONTRACTOR/ VENDOR, an indemnification materially similar inform and substance to Clause-9.1.1 and Clause-9.1.2 of which the IREL shall be named as beneficiary.

PAYMENT OF AMOUNTS UNDER THIS CLAUSE:

Except to the extent covered by insurance, all amounts payable and due by CONTRACTOR to IREL under this Clause shall be deducted from CONTRACT PRICE orany other amounts owed by IREL to CONTRACTOR here under. If such payable by IREL to CONTRACTOR are less than the amount to payable and due by CONTRACTOR under this Clause, CONTRACTOR shall be liable to IREL for such excess and shall pay such amount to IREL immediately upon demand.

9.1.5

CONTRACTOR shall procure, at its expense, all necessary permits, certificates and licences required by virtue of all applicable laws, regulations, ordinances and other rules in force at the place where any of the works is to be performed, and CONTRACTOR further agrees to hold IREL harmless from liability or penalty which might be imposed by reason of any asserted or established violation of such laws, regulations, ordinances or other rule. IREL shall provide the necessary permits for CONTRACTORS personnel to undertake any work in india in connection with CONTRACTOR.

CONTRACTOR agrees to indemnify and hold harmless IREL against all labourer's material, men's and/or mechanics liens arising from its work, and shall keep the premisesof IREL free from all such claims, liens and encumbrances

The Contractor shall execute, complete and maintain the Works in strict accordance with the contract, to the satisfaction of the Engineer and shall comply with and adhere strictly to the Engineer's instructions and direction on any matter (whether mentioned in the Contract or not). The Contractor shall take instructions and direction only from the Engineer or from the Engineer's representative on any matter touching or concerning the Works.

11.0 PROGRAMME TO BE FURNISHED:

As soon as practicable after the acceptance of his tender, the Contractor shall, if required, submit to the Engineer for his approval a programme showing the order of procedure and the method in which he proposes to carry out Works and shall whenever required by the Engineer or Engineer's representative furnish for his information particulars in writing of the Contractor's arrangement for the carrying out of the Works and of the constructional plant and temporary Works which the Contractor intends to supply, use or construct as the case may be. The submission to and approval by the Engineer or Engineer's representative of such programme or the furnishing of such particulars shall not relieve the Contractor of any of his duties or responsibilities under the Contract.

12.0

The Contractor shall give and provide all necessary superintendence during the execution of the works and as long thereafter as the Engineer may consider necessary for the properfulfilling of the Contractor's Obligation under the contract. The Contractor or one of his competent and authorised agent approved of in writing by the Engineer (which approval may at any time be withdrawn) is to be constantly on the Works and shall give his whole time to the superintendence of the same. If such approval shall be withdrawn by the Engineer, the Contractor shall as soon as is practicable (lowing negator to the requirementof replacing him as here-in-after mentioned) after neceiving written notice of such withdrawal, ennow the agent from the Site and shall not thereafter employ him again on the Site in any capacity and salal replace him by another agent approved by the Engineer. Such authorised agent shall receive on behalf of the Contractor directions and instructions from the Engineer or cultiplect to the limitations of Clause 2 hereofy the Engineer's representative.

- Only such technical assistants and other staff as are skilled and experienced in their respective callings and such sub-agents, foreman and loading hands as are competent to give proper supervision to the work they are required to supe and (a)
- (b) Such skilled, semi-skilled and unskilled labour as is necessary for the proper and timely execution and maintenance of the Works
- The Engineer shall be at liberty to object to and require the Contractor to remove forthwithfrom the Works any person employed by the Contractor in or about the execution or maintenance of the Works who in the opinion of the Engin

misconducts himself or incompetent or negligent in the proper performance of his duties or whose employment isother-wise considered by the Engineer to be undesirable and such person shall not be again employed upon the Works without the written permission of the Engineer. Any person so removed from the Works shall be replaced without delay by a competent substitute approved by the Engineer.

14.0

If in the opinion the Engineer, due progress is not made with the work in accordance withthe contract, and or the execution thereof becomes contrary to specifications, and/or badwork is executed and/or bad materials are used or supplied by the Contractor, and/or anydirections given by the Engineer are not properly complied with or attended to, the Engineer may if he considers it necessary or proper for the execution of the work in accordance with the contract, of which his certificate in writing will be sufficient evidence order the employment of extra supervising staff to supervise the work and the expenses of the employment including the salary of the supervising staff shall be provided by the Contractor, provided that the Engineer shall give to the Contractor not less than 7 days previous notice in writing of intention to exercise his power.

- f) specifically mentioned in the tender, if any). However, IREL does not guarantee the supply of water and this does not relieve the Contractor of his responsibility in making his own arrangement and for the timely completion stipulated.
- Power Supply: Subject to availability, IREL will supply power at 400/440 V at only one point at the nearest sub-station, from where the CONTRACTOR will make his own arrangement for temporary distribution. The point of supply will not be more than 500 m away from the CONTRACTOR's premises. All the works will be done as per the applicable regulations and passed by the ENGINEER-IN-CHARGE. The temporary line will be removed forthwith after the completion of work or if there is any hindrance caused to the other works due to the alignment of these lines, the CONTRACTOR will re-route or removethe temporary lines at his own cost. The CONTRACTOR at his cost will also provide suitable electric meters, fuses, witches, etc. for purposes of payment to IREL which should be in the custody and control of the IREL. The cost of power supply shall be payable to IREL every month for Construction Works which would be deducted from the running account bills (subject to rate of deduction specifically mentioned in the tender, if any). IREL shall not, however, guarantee the supply of electricity under any liability in respect thereof. No claim for compensation for any failure or short supply of electricity will be admissible. g)

It shall be the responsibility of the CONTRACTOR to provide and maintain the complete installation on the load side of the supply with due regard to safety requirement at site. Allcabling, equipment, installations etc. shall comply in all respects with the latest statutory requirements and safety provisions, i.e., as per the Central/State Electricity Acts and Rulesetc. The CONTRACTOR will ensure that his equipment and Electrical Wiring etc., are installed, modified, maintained by a licensed Electricitan/Supervisor. A test certificate is to be produced to the ENGINEER-IN-CHARGE for his approval, before power is made available.

At all times, IEA regulations shall be followed failing which the IREL has a right to disconnect the power supply without any reference to the CONTRACTOR. No claim shallbe entertained for such disconnection by the ENGINEER-IN-CHARGE. Power supply willbe reconnected only after production of fresh certificate from authorized electrical supervisors.

The IREL is not liable for any loss or damage to the CONTRACTOR's equipment as a result of variation in voltage or frequency or interruption in power supply or other loss to the CONTRACTOR arising therefrom

The total requirement of power shall be indicated by the tenderer along with his tender.

The goods and services supplied under this CONTRACT shall conform to the standards mentioned in the technical specifications and when no applicable standard is mentioned, CONTRACTOR shall follow best engineering practices

- Any other document forming part of the Contract.

Works shown in the DRAWING but not mentioned in the SPECIFICATIONS or described in the SPECIFICATIONS without being shown in the DRAWINGS shall nevertheless be deemed to be included in the same manner as if they had been specifically shown upon the DRAWINGS and described in the SPECIFICATIONS.

SPECIAL CONDITIONS OF CONTRACT:

Special Conditions of Contract shall be read in conjunction with the General Conditions of Contract, specification of Work, Drawings and any other documents forming part of this CONTRACT wherever the context so requires. Notwithstanding the sub-division of the documents into these separate sections and volumes, every part of each shall be deemed to be supplementary to and complementary of every other part and shall be read with and into the CONTRACT so far as it may be

me sub-unison to the documents on the documents of the documents of the Special Conditions of the Special Conditions of the Special Conditions of Contract, unless a different intention appears, the provisions of the Special Conditions of Contract shall be deemed to over-ridethe provisions of the General Conditions of Contract and shall to the extent of such repugnancy, or variations, prevail.

- CONTRACTOR shall at all times, indemnify and keep indemnified IRE. against all claimsor suits and defend, at its own cost, any suit or action brought against IREL and hold IRELfree and harmless against all costs of such claims or suits which may be made against IREL in respect of any infringement of any rights protected by patent, copyright, trademarks, and trade secrets to the extent that such claims, suit, or action is a result of theuse of CONTRACTOR's technical Information for the construction, maintenance, and operation of PLANT and the use of CONTRACTOR's and/or any other process, licenser's process, lead in PLANT. IEEL shall pass on all claims made against it to CONTRACTOR's restituent.
- CONTRACTOR declares that to the best of his knowledge and belief the use of CONTRACTOR's Technical Information for the construction, maintenance, and operation of PLANT and the use of CONTRACTOR's proceinfringe anyvalid patent rights of a third party. However, if at any time such infringement arises, CONTRACTOR agrees to keep IREL indemnified and harmless against such claims and costs thereof and make arrang to continue the operation of PLANT.
- IREL shall promptly advise CONTRACTOR in writing of any claim of infringement or any action for infringement of patents brought against it by a third party and based upon the use of CONTRACTOR's Technical Information. If such use is in accordance with instructions given in writing by CONTRACTOR, CONTRACTOR shall undertake the defence, or assist IREL in the defence, of the claim or suit up to final judgment or settlement.
- CONTRACTOR shall undertake the defence on behalf of IREL and shall have sole chargeand direction of the defence, and shall bear all costs related thereto. CONTRACTOR shallfurther hold IREL harmless from any damages or other sums that may become payable by IREL under a final judgment or settlement. However, IREL shall render to CONTRACTOR all reasonable assistance that may be required by CONTRACTOR in the defence, and shall have the right to be represented therein by advisory coursed of its ownselection and at its own expense. 9.4
- 9.5 In addition to the measures specified in Clause-8.4, CONTRACTOR may further, at its option, however, in reasonable consultation with IREL, seek to abate the alleged infringement by modification of PLANT or its operation without adversely affecting the performance and/or secure for IREL immunity from suit for infringement. In such case, CONTRACTOR shall bear/ reimburse IREL all costs related to the said modification and to the said immunity.
 - In the event that IREL is legally restrained from operating PLANT on account of any infringement action or suit, CONTRACTOR shall take all possible actions to assist IREL to operate and use PLANT, is so far his area of operation is concerne Neither CONTRACTOR nor IREL shall settle or compromise any suit or action without thewritten consent of the other, if settlement or compromise obliges the other to make any payment or part with any property or assume any obligations surrended any rights or tobe subjected to any injunction by reason of such settlement or compromise.

INDEMNIFICATION FOR LIABILITIES:

Where explosives are used, the same shall be stored in to be provided by and at the cost of the Contractor, who shall be liable for all damages, loss or injury to any person or property & shall be responsible for complying with all the Statutoryobligations in these respects.

16.0

17.2

(e)

19.1

22.1

22.2

(b)

26.(a)

The Contractor shall in connection with the Works provide and maintain at his own cost all lights, guards, fencing and watching when and where necessary or required by the Engineer or Engineer's representative or by a duly constituted authority for the protection of the Works or for the safety and convenience of the Public or others.

From the commencement to the completion of the Works, the Contractor shall take full responsibility or the care thereof and of all Temporary Works and in case any damage, loss or injury shall happen to the Works or to any part thereof or to any temporary Worksfrom any cause whatsoever (save and except the excepted risks as defined in sub-clause (2) of the clause) shall at his own cost repair and make good the same so that at completion the Works shall be in good order and condition and in conformity in every respect with the requirements of the Contract and the Engineer's instructions. In the evented any such damage, loss or injury happening from any of the excepted risks the Contractor shall if and to the extent required by the contractor shall also be liable for any damage to the Works occasioned by him in the course of any operations carried out by him for the purpose of complying with his obligations under Clause 58 hereof.

EXCEPTED RISKS:

The "excepted risks" mentioned in Sub-clause (1) above are war hostilities (whether war be declared or not), invasion act of foreign enemies, rebellion, revolution, insurrection of military or usurped power, civil war or (otherwise than the Contractor's own employees) rist, commotion or disorder or any such operation of the forces of nature as responsible foresight and ability on the part of Contractor could not foresee or reasonablyprovide against (all of which are collectively referred to as 'the excepted risks'.)

USE OF LAND & BUILDINGS

- (a) rer any land or building belonging to IREL is allotted to the Contractor, the Contractor shall return vacant possession of the same land/building in good condition toIREL after the completion of works as soon as the contract is rminated, failing which IREL would be entitled to withhold the payment of the security deposit and/or finalbill in addition to any other action which the IREL may like to take for getting the vacant possession of the land or building as 1.
- (b) The Contractor should obtain the prior approval of the competent authority for construction of purely temporary shed. The Contractor should submit written applicationaccompanied by layout plan for construction of such temp modification/alteration if deemed necessary thereafter, should be done with prior approval of the competent authority.
- The Contractor shall have to pay licence fee for the area occupied as per rates fixed by the Management of IREL from time to time
- (c) (d) The permission for such temporary shed will be accorded only for the purpose of work as awarded to such Contractor and the temporary shed so constructed should be dismantled within 15 days from the date of completion of the maintenance work and restore the possession of vacant land in the original condition or in a condition acceptable to the Management of IREL. In case of any difficulty, the Contractor may obtain specific approval of the competent authority which may not be extended more than a period of one month in any case.

 In case of failure of the Contractor to dismantle the temporary shed and hand over the vacant possession of the premises, the department shall be compelled to dismantle thetemporary shed so constructed at the risk and cost of the contractor without prejudice toany other action which may be taken including recovery of damages as per rates fixed by IREL for the unauthorised occupation of the shed/ premises beyond the permitted period.

 The Contractor should use such premises/shed for such purpose incidental to such awarded work and not as otherwise. It shall be the liability of the contractor to ensure that this occupation of the premises/shed does not provide to be of nuisance to the residents in the vicinity. The Contractor shall also not sublet the premises to any other party.

19.0 DAMAGES TO PERSONS AND PROPERTY:

- Contractor shall (except if and so far as the Specification provided otherwise) indemnify and keep indemnified the IREL against all losses and claims for injuries or damages to any person or any property whatsoever which may arise out of reconsequence of the construction and maintenance of the works and against all claims, demands, proceedings, damages, costs charges and expenses whatsoever in respect ofor in relation thereto. Provided always that nothing hereby tained shall be deemed to render the Contractor liable for or in respect of or to indemnify the IREL against any compensation or damages for or with respect to:
- (a) (b) The permanent use or occupation of land by the works or any part thereof (save as herein -after provided) surface or other damage as aforesaid i.e. surface or other damage caused by or
- The right of the IREL to construct the Works or any part thereof on over under in or through any land.
- (c) e whether temporary or permanent with any right to light, air, way or water or other easement or qua
 - Provided further that for the purposes of this clause, the expression 'the land' shall be deemed to be limited to the area defined in the specification as shown on the drawings inwhich land crops, trees and structures will be disturbed or damaged as an inevitable consequence of the carrying out of the Works.

20.0 ACCIDENT OR INJURY TO WORKMEN:

- (a) The employer shall not be liable for or in respect of any damages or compensationpayable as per or otherwise in respect of or in consequence of any accident or injury to any workmen or other persons in the employment of the Contractor or any Sub-Contractor and the Contractor shall indemnify and keep indemnified the Employer against all such damages and compensation and against all claims, demands, proceedings, cost, charges and expenses whatsoever in respect thereofin relation
- The Contractor shall forthwith report all accidents and injuries as a result of his contractual work to the employer or his representative. (b)

21.0

The Contractor shall at all times indemnify the Employer against all claims for compensation under the provision of the Workmen's Compensation Act, 1923 (VIII of 1923) or any other law for the time being in force by or in respect of any workmen employed by the Contractor in carrying out the contract and against all costs and expenses incurredby the employer in connection therewith and (without prejudice to any other means of recovery) the employer shall be entitled to deduct from a money due or to become due to the Contractor (whether under this contract or any other contract) all moneys paid or all moneys paid or the Employer by way of compensation aforesaid or for costs or expenses in connection with any claim thereto and the Contractor shall abide by the decision of the Employer as to the sum payable by the Contract, under the provision of this clause.

22.0 GIVING OF NOTICE AND PAYMENT OF FEES:

The Contractor shall give, all notices and pay all fees required to be given or paid to any Central or State, Statute, Ordinance or other Law or any rule, Regulation or Bye-Law of local or other duly constituted authority in relation to the execution of the Works or of any temporary works and by the rules and regulations of all public bodies whose property or rights are affected or may be affected in any way by the works or any Temporary Works.

COMPLIANCE WITH STATUTES REGULATIONS ETC .:

The Contractor shall conform in all respects with the provision of any such statute, ordinance, or Law as aforesaid and the rules, Regulations or Bye-laws of any local or otherduly constituted authority which may be applicable to the Works or to any Temporary Works and with such rules and regulations of public bodies as aforesaid and shall keep the employer indemnify against all penalties and liability of every kind for breach of any such Statute, Ordinance, Law, Rules, Regulation or Bye-laws

FOSSILS ETC.

All fossils, coins, articles, value of antiquity and structures and other remains or things of geological or archaeological interest discovered on the site of the works shall as betweenthe employer and the Contractor be deemed to be the absolute property of the Employerand the Contractor shall take reasonable precautions to prevent, his workmen or any other persons from removing or damaging any such article or thing and shall immediately upon discovery thereof and before removal acquaint the Engineers representative of such discovery and carry out at the expense of the employer the engineer's Representative's orders as to the disposal, removal or otherwise of the same.

24.(a)

The Contractor shall save harmless and indemnify the Employer from and against all claims and proceeding for or on account of infringement of any patent rights, designs trade-mark or name or other protected rights in res Constructional plant, machine, work or material used for or in connection with the Works or Temporary Works of any of them and from and against all claims, demands, proceeding, damages, cost, charges and expenses whatseeve thereof or in relation there to.

Except where otherwise specified, the Contractor shall pay all tollage and other royalties, rent and other payments or compensation (if any) for getting stone, sand, gravel, clay or other materials required for the Works or temporary of them.

INTERFERENCES WITH TRAFFIC ADJOINING PROPERTIES.

All operations necessary for the execution of the Works and for the construction of any Temporary works shall so far as compliance with the requirements of the Contract permitsbe carried on so as not to interfere unnecessarily or improperly with the Public convenience or the access to use and occupation of public or private roads and forbigatheor to or properties whether in the possession of the Employer's Workmen or of any other person and Contractor shall save harmless and indemnity employer in respect of all claims, demands, proceeding, damages, costs, charges and expenses whatsoever arisingout of or in relation to any such matters.

The Contractor shall use every reasonable means to prevent any of the highways and bridges communicating with or on the routes to the site from being damaged or injured byany traffic of the Contractor or any of his Sub-Contractors and in particular shall select routes, choose and use vehicles and restrict and distribute loads so that any such extraordinary traffic as will invest the routes of the moving of plant and material from and/to the site shall be limited as far as reasonably possible and so that no unnecessary damage or injury may be occasioned to such highways and bridges. For any damage caused by the Preceip, the Contractor shall be soldly responsible.

(b) WATERBORNE TRAFFIC:

Where the nature of the works is such as to require the use by the Contractor of water borne transport, the fore going provisions of this clause shall be construed as though "highway" included a dock, deck, sea wall, or other a water-way and "vehicles" included craft and shall have effect accordingly.

OPPORTUNITIES FOR OTHER CONTRACTORS

The Contractor shall in accordance with the requirements of the Engineer afford all reasonable opportunities for carrying out their work to any other contractors employed by the Employer and their workmen and to the workmen of the Employer and of any other duly constituted authorities who may be employed in the execution on or near the site of any work not included in the Contract or of any Contract which the Employer may enter into in connection with or ancillary to the works.

SUPPLY OF PLANT, MATERIAL AND LABOUR

Except where otherwise specified the Contractor shall at his own expense supply and provide all the Constructional Plant, Temporary Works, materials both for temporary and for permanent Works, labour (including the supervision thereof), transport to or from the Site and in and about the Works and other things of every kind required for the constructions, completion and maintenance of the Works.

29.0 DELAY IN OBTAINING MATERIALS BY THE EMPLOYER:

If the Employer has undertaken to supply materials specified in the special conditions at rates stated therein, the Contractor shall keep himself in touch with the day-to-day position regarding the supply of materials from the Engineer and so adjust the progress of the workthat their labour may not remain idle nor may there be any other claim due to or arising from delay if any, in obtaining the materials. It should be clearly understood that no claimwhatsoever shall be entertained by the Employer on account of delay in supplying materials.

On the completion of the work all rubbish, debris, vats tanks, materials, and temporary structures of any sort or kind used for the purpose of or connected with its construction are to be removed by the Contractor and all pits and excavations filled up and the site handed over in a tidy and workman like condition and no final payment in settlement of the account for the said work shall be held to be due or shall be made to the Contractor, till such site clearance shall have been effected by him, and such clearance may be madeby the Engineer, at the expense of the Contractor in the event of his failure to comply withhis provision within? days after receiving notice in writing from the Engineer to that effect. If it becomes necessary for the Engineer to have the site clearance as indicated above at the expenses of the Contractor, the Employers hall under no incrumentances, be held liabelfor any losses or damages to such of Contractor's property as may be on such site due to such removal there from which removal may be effected by means of public sale of suchmaterials and property or in such way as seems fit and most convenient to the Engineer.

RETURN OF SURPLUS MATERIALS.

Notwithstanding anything contained to the contrary anywhere in this contract, wherever any materials for the execution of the contract are procured with the assistance of the Employer either by issue from Employer's stocks or purchase made under orders or permits or licenses issued by the Employer, the Contractor shall use the said materials economically and solely for the purpose of the contract and not dispose of them without the permission of the Employer, and if required by the Employer, and if required by the Employer and surplus or unserviceable materials that may be left with the Contractor after the contract or at its termination, for any reason whatsever on being paid or credited such that price as the Employer shall determine, having due regard to initial cost and the condition of the materials at the time of such return thereof. The price to be allowed to the Contractor, shall not exceed the amount charged to him excluding the storage is any. The decision of the final and conclusive, in the event of breach of the adversarial and did not not making himself liable of action for contravention of the terms of the licences or permit and/or for criminal breach of trust) be liable to the Employer for payment of all moneys, advantagesor profit resulting or which in the usual course would have resulted to him by reason of such breach.

OUALITY OF MATERIAL & WORKMANSHIP AND TESTS: 32.0

All materials and workmanship shall be of the respective kinds described in the Contract and in accordance with the Engineer's instructions and shall be subjected from time to time to such tests as the Engineer may direct at the place manufacture or fabrication oron the Site or at all or any of such places. The Contractor shall provide such assistance, instruments, machine, labour and materials as are normally required for examining, measuring and testing any work and quality, quantity or weight of any material used and shall-supply samples of materials before increporation in the Works for testing as may be selected and required by the Engineer.

Cost of samples: All samples shall be supplied by the Contractor at his cost.

sts: The cost of making any test in performance of his works shall be borne by the Contri

Cost of tests not provided for: If any test is ordered by the Engineer which is either,

a. not so intended or provided or

b.

C. though so intended or provided for is ordered by the Engineer to be carried by anindependent person at any place other than the Site or the place of manufacture or fabrication of the materials tested. Then the cost of such test shall be born the Contractor if the test shows the workmanship of materials not to be inaccordance with the provisions of the Contract or the Engineer's instructions but otherwise by the Employer.

34.2

34.4

34.5

35.1

37.0

The Employer/Engineer and any person authorised by him shall at all times have access to the Works and to the Site and to all workshops and places where work is being preparedor where materials, manufactured articles or machinery are being obtained for the Worksand the Contractor shall afford every facility for and every assistance in or in obtaining theright to such access.

INSPECTION, TESTING AND EXPEDITING:

The EMPLOYER or his representatives shall have their right to inspect and/or to test the goods to conform to the specifications laid down in the CONTRACT. The SPECIAL CONDITIONS OF CONTRACT and/or the TECHNICAL SPECIFICATIONS shall specifywhat inspections and test the EMPLOYER requires and where they are to be conducted. The EMPLOYER shall notify the CONTRACTOR in writing of the identity of any other representatives retained for this purpose. Expediting by EMPLOYER's representative in no way relieves the CONTRACTOR of his obligation under the terms and conditions of this CONTRACT. 34.1

The inspections and tests may be conducted on the premises of the CONTRACTOR orbits SUB-CONTRACTOR at point of completion and/or at the good's final destination. When conducted on the premises of the CONTRACTOR or his SUB-CONTRACTOR, all reasonable facilities and assistances including access to drawings and production datashall be furnished to the inspector at no charge to the EMPLOYER.

CONTRACTOR shall be held responsible for any possible delay in the approval or testingphase as well as for any possible delay in the remittance of necessary certificates. Delayon the part of the Inspection institutions will not be considered a case of ferore whetherer?

Participation or presence of EMPLOYER or their representatives at any tests or their failure to be present at or to witness any tests to be undertaken pursuant here to shall notin any way or manner relieve or release the CONTRACTOR from any of its warranties, guarantees or other obligations under the CONTRACT.

 $Copies \ of \ all \ test \ results/report \ of \ the \ tests \ shall \ be \ furnished \ promptly \ by \ the \ CONTRACTOR \ to \ EMPLOYER.$

EXAMINATION OF WORK BEFORE COVERING UP:

No work shall be covered up or put out of view without the approval of the Engineer or the Engineer's representative and the Contractor shall afford full opportunity for the Engineer or the Engineer's representative to examine and work work with its about to be covered up or put out of view and to examine foundations before permanent work is over any such work or foundations is or are ready or about to be ready for examination and the Engineer's representative shall without unreasonable delay unless he considers it unnecessary and advises the Contractor accordingly attent for the purpose of examining and measuring such work or of examining such variety or examining such work or of examining such variety.

35.2 UNCOVERING & MAKING OPENINGS:

The Contractor shall uncover any part or parts of the Works or make opening in or throughsame as the Engineer may from time to time direct and shall reinstate and make good such part or parts to the satisfaction of the Engineer. If any such part or parts have been covered up or put out of view after compliance with the requirements of subclause(I) of this Clause and are found to be executed in accordance with the Contract, the expenses of uncovering making opening in or through reinstating and making good the same shall be borne by the Employer but in any other case all such expenses shall be borne by the Contractor and shall be recoverable from him by the Employer or may be deducted by the Employer from any moneys due or which may become due to the Contractor.

REMOVAL OF IMPROPER WORK & MATERIALS: 36.0

The Engineer shall during the progress of the Works have power to order in writing from time to time

the removal from the Site within such time or times as may be specified in the order of any materials which in the opinion of the Engineer are not in accordance with the contract,

(b) the substitution of proper and suitable materials and

the removal and proper re-execution (not withstanding any previous test there of or interim payment there for) of any work which in respect of materials of workmanship is not in the opinion of the Engineer in accordance with the co

DEFAULT OF CONTRACTOR IN COMPLIANCE:

In case of default on the part of the Contractor in carrying out such order, the employer shall be entitled to employ and pay other persons to carry out the same and all expensesconsequent thereon or incidental thereto shall be borne by the Contractor and shall be recoverable from him by the Employer or may be deducted by the Employer from any moneys due or which may become due to the Contractor.

38.0 SUSPENSION OF WORK:

SCIENCE OF WORKS.

The Contractor of works and the written order of the Engineer suspend the progress of the works or any part thereof for such time or times and in such manner as the Engineer mayconsider necessary and shall during such suspension properly protect and secure the work so far is necessary in the principle of Engineer such as the Engineer such as the

39.0 SUSPENSION LASTING MORE THAN 90 DAYS:

If the progress of the works or any part thereof is suspended on the written order of the Engineer for more than 90 days, the Contractor may serve a written notice on the Engineerrequiring permission within 28 days from the receipt thereof to proceed with the works or that part thereof in regard to which progress is suspended and if such permission is not granted within that time the Contractor by a further written notice so served may (but is notbound to) elect to treat the suspension where it affects part only of the Works as an omission of such part under Clause 62 thereof or where it affects the whole Works as an abandonment of the Contract by the Employer.

ISSUE OF OTHER MATERIALS FROM IREL STORES: (i)

of the Engineer directs the use of additional items of IREL stores in the work, the Contractor is bound to comply with such directions. The recovery rate for such stores shall be fixed by the Engineer.

(ii)

RECOVERY SEARCE.

In addition to the above, other materials from IREL stores can be supplied subjectto availability if the Engineer is satisfied as to the necessity for such issues. Recovery rates for the materials so issued shall be IREL issue rates plus 12% plus CST as

(iii)

All handling, conveyance, etc. from place of issue to the worksite of the Contractorare to be borne by the Contractor and the rates quoted in the Tender Schedule cover these

(iv)

Proper accounting:
All materials issued to the Contractor whether free of cost or on cost recoverable basis shall be properly accounted for. Any loss or damage to the stores issued by IREL will be debited to the Contractor at the IREL issue rates plus 20% plus GST as may be in force from time to time.

(vi)

 $\label{eq:excess/misuse:} Excess/misuse: Steel drawn in excess or misused will be charged at 100\% over issue/recovery rates as stipulated in the contract.$

(vii)

41.0

44.0

44.2

Surplus stock: Noclaim will beentertained for non-supply or delay in supply of any or all the abovesto

(viii) Except Steel, materials issued to the Contractor on recovery basis shall not normally be taken back. In case of steel and materials issued free, the surplus stock will be taken back at the stipulated rates of issue, provided they are returned in good condition. In case of steel, relate at full rates will be made only if the piecesare returned in length not less than 6M. Shorter pieces in the range of 4M to 6M length will be taken back 8 50% of the issue rates. The materials shall be returned at IREL stores and all expenses towards conveyance, handling, weighing, sortingset, shall be at Contractor's accounts. As regards to the conditions of the materials to be returned, the decision of the Engineer shall be final and binding on the Contractor. The norms prevalent for consumption in respect of Steelshall apply for alculating the consumption of these materials for recovery.

COMMENCEMENT OF WORK

The Contractor shall commence the works on site within the period as mentioned in the contract and shall proceed with the same with due expedition and without delay.

The Contractor shall bear all expenses and charges for special or temporary way leaves required by him in connection with access to the Site. The Contractor shall also provide athis own cost any additional accommodation outside the Site required by him for the purposes of the works, except when otherwise specifically agreed and provided for.

TIME FOR COMPLETION:
Subject to any requirement in the Contract as to completion of any portion of the works before completion of the whole of the works, it shall be completed within the time stated in the LOI/Award Letter/Agg

EXTENSION OF TIME FOR COMPLETION:

Should the amount of extra or additional work of any kind or other special circumstances of any kind whatsoever which may occur be such as fairly to entitle the contractor to an extension of time for the completion of the work, the Engineer shall determine the amount of such extension. Provided that the Engineer as not bound to take in to account any extraor additional work or other special circumstances unless the Contractor has within 14 daysafter such work has been commenced on such circumstances have arisen or as soon thereafter as is practicable, delivered to the Engineer's representative full and detailed particulars of any claim to extension of time to which he may consider himself entitled in order that such claim may be investigated at the time

44.1

TIME EXTENSION OF CONTRACT:
The CONTRACTOR shall promptly notify the ENGINEER-IN-CHARGE any event or conditions which might delay the completion of work in accordance with the approved schedule and the steps being taken to remedy such situation

If the Work is delayed at any time in the commencement or during the progress of the WORK by any act, delay or neglect solely attributable to IREL or his employees, or by anyother contractor utilised by the IREL or by FORCE MAJEURE conditions, the time of completion shall be extended by IREL (without levy of Mutually Agreed Damages) in writing for a reasonable period as may be mutually agreed upon, at the time of closure of contract. The CONTRACTOR shall, immediately on occurrence of such special circumstances but not later than 14 working days, bring to the knowledge of IREL throughwritten application for any such delay as mentioned above.

IREL shall have the right to suspend the WORK in whole or in part for such time as may be necessary in order that WORKS shall be well and properly executed. In such events, suitable extension of time shall be granted to CONTRACTOR. 44.3

NO NIGHT OR SUNDAY WORK:

Subject to any provision to the contract, none of the permanent work shall save as hereinafter provided be carried on during the night or on Sundays (if locally recognised as days of rest) or their locally recognised equivalent without the permission in writing of the Engineer's representative save when the work is unavoidableor absolutely necessary for the saving of life or property or for the safety of the Works in which case the Contractor shall immediately advise the Engineer's representative. Provided always that the provisions of this Clause shall not be applicable in the-case of any work which it is customary to carry out by rotary or double shifts.

RATE OF PROGRESS:

The whole of the materials, plant and labour to be provided by the Contractor and the mode, manner and speed of execution and maintenance of the work are to be of a kind and conducted in a manner to the satisfaction of the Engineer. Should the rate of progressors the works or any part thereof be at any time in the opinion of the Engineer too slow to ensure the completion of the works by the prescribed time or extended time for completionthe Engineer shall so notify the Contractor in writing, and the Contractor shall thereupon take such steps as the contractor may think necessary and the Engineer may approve to expedite progress oas to complete the works by the prescribed time or extended time for completion. If the work is not being carried on by day and by night and the Contractor shall request permission to work by night as well as shall great use they permission, the Contractor shall only the entitled to any additional payment for so doing but if such permission shall be refused and there shall be no equivalent practicable methodof expediting the progress of the work, the time for completion shall be extended by such period as is solely attributable to such refusal. All work attright shall be carried out without unreasonable one loss and disturbance. The Contractor shall indemance. The Contractor shall indemance. The Contractor shall indemance are shall as a such period as is solely attributable to such refusal. All work attright shall be available to the such period as its solely attributable to such refusal. All work attright shall be a such as a

LIQUIDATED DAMGES FOR DELAYED EXECUTION OF CONTRACT:
Subject to Article -48, if the CONTRACT fails to deliver any or all of the GOODS or performance of the services within the time period(s) specified in the CONTRACT, the EMPLOYER shall, without prejudice to his other remedies under the CONTRACT, levy Liquidated damages from the CONTRACT PRICE, a sum calculated on the basis of the CONTRACT PRICE, including subsequent modifications.

Deductions shall apply as per following formula: For repair works costing up to Rs. Ten lakhs (Rs 10,00,000/-): One percent (1%) of the contract value per week subject to a maximum of ten percent (10%) of contract value

For all other works: Half percent (0.5%) of the contract value per week of delay subject to a maximum of ten percent (10%) of contract value. EMPLOYER may deduct the amount so payable by CONTRACTOR, from any amount falling due to the CONTRACTOR or by recovery against the Performance Guarantee. Both CONTRACTOR and EMPLOYER agree that the above percentages of price reduction are genuine pre-estimates of the loss/damage which the EMPLOYER would have suffered onaccount of delay/breach on the part of the CONTRACTOR and the said amount will be payable on demand without there being any proof of the actual loss/or damage caused bysuch breach/delay. A decision of the EMPLOYER in the matter of applicability of price reduction shall be final and binding.

FORCE MAJEURE: Force majeure is an event beyond the control of contractor and not involving the contractor's fault or negligence and which is not foreseeable. Such events may include, but are not restricted to acts of the purchaser/contractor either in its sovereign or contractual capacity, wars or revolution, hostility, acts of public enemy, civil commotion, floods, explosions, epidemics, quarantine restrictions, strikes, lockouts and freight embargoes or any other event which IREL may deem fit to consider so. The decision aboutforce majeure shall rest with IREL which shall be final and binding.

If there is delay in performance or other failures by the contractor to perform obligations under its contract due to event of a Force Majeure, the supplier/contractor shall not be held responsible for such delays/failures.

If a Force Majeure situation arises, the contractor shall promptly notify the purchaser in writing of such conditions and the cause thereof within filteen days of occurrence of suchevent. Unless otherwise directed by the EMPLOYER in writing, the CONTRACTORS shallcontinue to perform its obligations under the contract as far a reseasable/particula and shall seasable alternative means for performance not prevented by the Force Majeure event.

If the performance in whole or in part or any obligation under this contract is prevented ordelayed by any reason of Force Majeure for a period of exceeding 120 days, IREL may atits option ter on either side.

CERTIFICATE OF COMPLETION OF WORK:
As soon as in the opinion of the Engineer the works shall have been substantially completed and shall have satisfactorily passed any final test that may be prescribed by the Contract, the Engineer shall on receiving a written undertaking by the Contractor to finish any outstanding work during the period of Maintenance issue a Certificate of completion in respect of the works and the Period of Maintenance of the works shall commence from the date of such certificate. Provided that the Engineer may give such a certificate with respect to any part of the works before the completion of the whole of the work and shall upon the written application of the contractor give such certificate with respect to any substantial part of the works, which has been both completed to the satisfaction of the Engineer and occupied or used by the employer and when such certificate is given in respect of a part of the works such part shall be considered as completed and the Period of Maintenance of such part shall commence from the date of such certificate. Provided also that a Certificate of Completion given in accordance with the foregoing provision of any part of the works occupied and use as aforesaid shall not be deemed to certify completion of any round or surfaces requiring reinstatement unless such certificate shall expressly so state.

DEFINITION OF PERIOD OF MAINTENANCE:
In these conditions, the expression "Period of Maintenance" shall be either 12 (Twelve) months or any other period if specifically specified in the special conditions of this contract, and calculated from the date of completion of the works certified by the Engineer in accordance with Clause 49 hereof or in the event of more than one certificate having beenissued by the Engineer Under the said Clause from the respective dates so certified and in relation to the Period of maintenance, the expression "the works" shall be construed accordingly.

EXECUTION OF WORKS OF REPAIR ETC:
To the intent that the works shall at or as soon as practicable after the expiration of the period of Maintenance be delivered up to the Employer in as good and perfect a condition(fair wear and tear expected) to the satisfaction of the Engineer as that in which they wereat commencement of the Period of Maintenance, contractor shall execute all such work ofrepair, amendment, reconstruction, rectification and making good of defects, imperfections, shrinkages or other faults as may be required of the Contractor in writing by the Engineer during the Period of Maintenance or within fourteen days after its expiration as a result of an inspection made by or on behalf of the Engineer prior to its expiration.

COST OF EXECUTION OF WORKS OF REPAIR ETC.

All such work skall the carried out by the Contractor at his own expense if the necessity thereof shall in the opinion of the Engineer be due to the use of materials or workmanshipnot in accordance with the Contract or to neglect or failure on the part of the Contractor to comply with any obligation expressed or implied on the Contractor's part under the Contract. If in the opinion of the Engineer such necessity shall be due to any other cause, the value of such work shall be accretianted and paid for as if I was an additional work.

50.4

REMEDY ON CONTRACTOR'S FAILURE TO CARRY OUT:

If the Contractor shall fail to do any such work as a doresaid required by the Engineer, the Employer shall be entitled to carry out such work by his own workmen or by other Contractors, and if such work is the work which the Contractor should have carried out at this own cost, Employer shall be entitled to recover from the Contractor the cost thereof ormay deduct the same from any moneys due or that may become due to the Contractor.

51.0 CONTRACTOR TO SEARCH:

The Contractors Guilli required by the Engineer in writing search or the cause of any defectin perfection or fault under the directions of the Engineer. Unless such defect, imperfectionor fault shall be one for which the Contractor is liable under the contract, the cost of the work carried out by the Contractor in searching as aforesaid the locs been by the Engineer. Unless such defect, imperfection or fault shall be one for which the Contractor is aforesaid the locs of the work carried out in searching as aforesaid the locs of the work carried out in searching as aforesaid that location and the shall in such case repair, rectify and make good such defect, imperfection or fault shall be one for which the Contractor is liable as aforesaid the location and the shall be a such as a such a

ALTERATIONS, ADDITIONS AND OMISSIONS

VARIATIONS
The Engineer shall make any variation from quality or quantity of the works or any part there of that may in his opinion be necessary and for that purpose or if for any other reasonit shall in his opinion be desirable he have power to order the Contractor to do and the Contractor shall do any of the following:
increase or decrease the quantity of any works included in the contract.
omit any such work
change the harmacter or quality or kind of any such work
change the harmacter or quality or kind of any such work
change the hermacter or guality or spisition and dimensions of any part of works and
execute additional work of any kind necessary for the completion of the works and no such variation in any way vitiate or invalidate the contract but the value (if any) of all such variations shall be taken into account in ascertaining the amount of
the contract price.

(a) (b) (c) (d) (e)

No such variation shall be made by the Contractor without an order in writing of the Engineer. Provided that no order in writing shall be required for increase or decrease in the quantity of any work where such increase or decrease is not the result of an order given under this Clause but is the result of the quantities exceeding or being less than those stated in the Tender Schedule. Provided also that if for any reason the Engineer shall consider it desirable to give any such order verbally, the contractor shall comply withsuch order and any confirmation in writing of such verbal order given by the Engineer whether before or after the carrying out of the order shall be deemed to be an order in writing within the meaning of this clause.

VALUATION OF VARIATIONS:
The Engineer shall determine the amount (if any) to be added to or deducted from the sum named in the Tender in respect of any extra or additional work done or work omitted by his order. All such work shall be valued at the rates set out in the Contract, if in the opinion of the Engineer the same shall be applicable. If the Contract shall not contain any rates applicable to the extra or additional work then reasonable prices shall be fixed by the Engineer.

POWER OF ENGINEER TO FIX RATES:

Provided that if the nature of amount of any omission or addition relative to the nature or amount of the whole of the contract work or to any part thereof shall be such that in the opinion of the Engineer the rate or price contained in the contract for any item of the workis by reason of such omission or additions rendered unreasonable or inapplicable, the Engineershallfix such other rate or price as in the circumstances he shall thinkreasonable and proper.

Provided also that no increase of the Contract Price under sub-clause (1) of this clause onvariation of rate or price under sub-clause (2) of this clause shall be made unless as soonafter that date of the order as is practicable and in the case of extra or additional work before the commencement of the work or as soon thereafter as is practicable notice shallhave been given in writing.

by the Contractor to the Engineer of his intention to claim extra payment or a varied range of the contractor of the Engineer of the Scholar Contractor of the Engineer of the Scholar Contractor of the Engineer of the Engineer of the Scholar Contractor of the Engineer of the Eng(b)

by the Engineer to the Contractor of his intention to vary a rate or price as the casemay be.

CLAIMS:

The Contractor shall send to the Engineer's representative once in every month an account giving particulars (as full and detailed as possible) of all claims for any additional expenses to which the Contractor may consider himself entitled and of all extra or additional work ordered by the Engineer which he has executed during the preceding month and no claim for payment for any such work will be considered which has not beenincluded in such particulars. Provided always that the Engineer, shall be entitled to authorise payment to be made for any such work notwithstanding the Contractor's failureto comply with this condition, if the contractor has at the earliest practicable opportunity notified the Engineer that he intends to make a claim for such work.

EXTRA ITEM:

Any extra item arising during the execution of work due to any reason shall be paid for based on the sanctioned schedule of rates or rates derived therefrom. The percentage quoted by the tenderer shall be applied to the rate arrived at from the schedule of rates or rates derived therefrom. In case the rates carnot be derived from the Schedule of rates or rates derived therefrom. In case the rates carnot be derived from the Schedule of rates or rates derived from the schedule of rates. CPWD norms shall be followed for determination of rates. Analysis of rates on the basis of field observations shall be considered if schedule of rates/CPWD norms are not available. The rates given in the schedule are complete for labour and materials including all leads, lifts, royally etc. except otherwise stated in the items. No extraclaim on account of these item shall be entertained.

54.0

If the specification or estimate of the work provides for use of any special description of materials to be supplied from the Engineer's store, or if it is required that the Contractor shall use certain stores to be provided by the Engineer materials and stores, and Plants and the prices to be charged therefore, as here-in-after mentioned being so far a spracticable for the convenience of the Contractor but not so as in any way to control the meaning or effect of this contract by the contractor but not so as the contractor but not so as in any way to control the meaning or effect of this contract specific drawing etc. and the value of the full quantity of materials and stores as required and stores as required as discovered as the contractor of the security deposit or the proceeds of sale there of if the same is held in Government securities, the same or a sufficient proting the requirement of the supplied to the Contractor shall remain in the absolute property of Employer and shall not on any account be removed from the site of the work and shall at all times be open to inspection by the Engineer.

Any such materials unused and in perfectly good condition at the time of the completion of determination of the contract shall be returned to the Engineer store. If by a notice in writing under his hand he shall so require but the Contractor shall not be entitled to returnany such materials unless with such consent and shall have no claim for compensation on account of any such materials so supplied to him as aforesaid during being unused byhim or for any wastage in or damages to any such materials.

MATERIALS OBTAINED FROM DISMANTLEMENT & EXCAVATION ETC: Contractors in the course of their works, should understand that all material (e.g. store and other materials obtained in the work of dismantling, excavation, etc. will be considered Employer's property) and issued to the Contractor (if they require the same for their ownuse) at rates approved by him. If these materials are not required by them they will be disposed off to the best advantage of

54.3

RELICS, GOLD, SILVER FOUND IN OR UPON THE SITE:
All gold, sliver, oil and other minerals of any description and precious stones, coins, treasures, relics, antiquities and other similar things which shall be found in or upon the site shall be the property of the Employer, and the Contractor shall duly preserve the sametothesatisfaction of Employer and shall, from time to time deliver the same to such person or persons as the Employer may appoint to receive the same.

NO APPROVAL BY VESTING:
The operation of the Clause numbered 62 shall not be deemed to imply any approval by the Engineer of the materials or other matters referred to therein nor shall it prevent the rejection of any such materials at any time by the Engineer.

QUANTITIES:
The quantities set out in the Tender Schedule are the approximate estimated quantities of the work but they are not to be taken as the actual and correct quantities of the works to be executed by the Contractor in fulfilment of his obligation the Contract. Any itemmay be omitted or altered and no claim for compensation will be entertained on this account or for any variation however substantial it may be in the Tender Schedule.

57.0

WORKS TO BE MEASURED:

The Engineer shall except as otherwise stated ascertain and determine by measurement the value in accordance with the Contract of work done in accordance with the contract. He shall when he requires any part or parts of the Works to be measured give notice to the Contractor's authorised agent or representative who shall forthwith attend or send a qualified agent to assist the Engineer or the Engineer's representative in making such measurement and shall furnish all particulars required by either of them. Should the Contractor not attend or neglect or omit to send such agent then the measurement madely the Engineer or approved by him shall be taken to be the correct measurement of the work. For the purpose of measuring such permanent work as is to be measured by recorddrawings, the Engineer's representative shall prepare record drawing month by month of such work and the Contractor as and when called upon to do so in writing shall within 14 days attend to examine and agree such record drawings they shall be taken to be correct. If after examination of such record drawings they shall be taken to be correct. If after examination of such record drawings they shall be taken to be correct unless the Contractor does not agree the same or does not sign the same as agreed, they shall nevertheless be taken to be correct unless the Contractor shall within 14 days of such

examination lodge with the Engineer's representative for decision by the Engineer's notice in writing of the respects in which suchrecord drawings are claimed by him to be incorrect. The Contractor shall be paid for the quantities resulting for measurement of the executed work

58.0

MODE OF MEASUREMENT FOR CIVIL WORKS: The mode of measurement shall be as per Indian Standard 1200 latest, subject to the following:

In case the mode of measurement is not covered by the said Indian Standard for a particularitem, the method of measurement shall be asper CPWD specifications for that item only. Wherever a particular mode of measurement is specified in the description of the item in the tender schedule/special conditions, the same shall only apply. In case of dispute regarding mode of measurement, the decision of the Engineer shall be final and binding on the Contractor.

PAYMENT FOR WORK DONE

100% payment against bills for the work done (Subject to the required deductions) shall be made to the Contractor based on detailed measurements and certification of bills by the Engineer. 59.1.1

ON ACCOUNT PAYMENT: Bills shall be prepared and submitted by the Contractor. Jointmeasurements shall be taken continuously and need not be connected with billing stage. Based on these joint measurements recorded in the register, the Contractor shall submit the bills in both soft and hard copies (three copies) in the prescribed format along with thedetailed measurements item wise. All the pages of the measurement sheets shall be serially machine numbered and signed by the Contractor. The bills along with measurement sheet shall be computer generated and also suitably programmed for effecting the necessary corrections easily. The bills shall be accompanied with necessarydocuments such as abstract of quantities, variation statements, reconciliation of materials, part are statements indicating the extent of work done, statement of secured advance claimed and fulfilling other statutory obligations such as ESI / PF / Insurance / labour licence etc. Payment against bills for the work done (Subject to necessary deductions) willbe made after the verification and certification by the Engineer of the bill submitted by the Contractor. 59 1 2

COMPLETION CERTIFICATE: The Works shall be deemed to have been completed in all respects on the day the Engineer certifies that the works have been so completed in accordance with this Contract, takes over the completed Works and issues a certificate tothat effect. The Defect Liability Period will start from the said date of completion / handingover of the work.

FINAL PAYMENTS: Based on the measurement of Work performed, the Contractor shallsubmit his final bill for the Works within 3 months of completion of work. The bill shall be based only on Works as measured and at accepted tender n including rates for any additional or extra work which might have been approved by the Company. All deductions due under the Contract shall be incorporated. The final bill shall be accompanied by:

A copy of the Completion Certificate issued by the Engineer

No Claim Certificate" in the prescribed form or a list of claims if any, not included in the final bill with full details.

The Engineer shall examine and certify the final bill for payment after satisfying that the Works have been satisfactorily completed and that all properties, works and things removed or disturbed or damaged in consequence of the Work have been properly replaced and made good and all expenses and demands incurred or made by or on the Company or in respect of any damage or loss by, from or consequence of the Works havebeen satisfied, all materials have been returned and site cleared.

(a) (b) (c) 59.0

59.1.3

59.1.4

B)

SECURED ADVANCE:
75% payment against bills as Secured Advance on the cost of all non-perishable materials brought by the Contractor to Site for use in the Works (excluding chargeable materials issued by the Company) as assessed and approved by the Engineer may be paid, provided the materials confirm to the specifications of the contract an accepted by the Engineer. These materials shall be pledged by the Contractor to the Company. All the Secured Advance allowed will be deducted while making payment of any bill for the workdone and a fresh Secured Advance on the materials remaining them at Site will be paid along with the same bill.

SILL TO BE SUBMITTED MONTHLY:

A Bill shall be submitted by the Contractor each month on or before the date by the Engineer for all work executed in the previous month and the Engineer shall take or causeto be taken the requisite measurement for the purpose of having the verified and theclaim, as far as admissible, adjusted if possible, before the expiry of ten days from the presentation of the bill. If the Contractor does not submit the bill within the time fixed as aforesaid, the Engineer may depute his represe to measure up the easily work in thepresence of the Contractor, whose counter signature to the measurement list will be sufficient arrant, and the Engineer may prepare as bill from suchibit which shall behinding on the Contractor in all respects.

BILLS TO BE ON PRINTED FORMS

The Contractor shall submit all bills on the printed forms to be had on application at the office of the Engineer and the charges in the bills shall always be entered at the rates specified in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender at the rates specified in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in the case of any extra work ordered in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in the case of any extra work ordered in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in the tender in the case of any extra work ordered in th
